Power to the Transfer Dimpal Jain,Santiago N. Bernal Melendez,Alfred R. Herrera,2020-02-01 Currently, U.S. community colleges serve nearly half of all students of color in higher education who, for a multitude of reasons, do not continue their education by transferring to a university. For those students who do transfer, often the responsibility for the application process, retention, graduation, and overall success is placed on them rather than their respective institutions. This book aims to provide direction toward the development and maintenance of a transfer receptive culture, which is defined as an institutional commitment by a university to support transfer students of color. A transfer receptive culture explicitly acknowledges the roles of race and racism in the vertical transfer process from a community college to a university and unapologetically centers transfer as a form of equity in the higher education pipeline. The framework is guided by critical race theory in education, which acknowledges the role of white supremacy and its contemporary and historical role in shaping institutions of higher learning.

In amongst it all come the crushing memories of life as a terminal cancer patient, otherwise our narrator and her friend Mikkel hang out, talking about the 80s and about how they would prefer to die. They also laugh at the mistakes of the healthy.

The book brings together research, theory, practical applications, programmatic illustrations, case studies, encouragement, and inspiration, and is supplemented by an online compendium for continual updates of resources, case studies, and new developments in the world of transfer. Based on a totally different way of thinking about, understanding, and acting to increase transfer student success, *The Transfer Experience* goes far beyond the traditional, limited view of transfer as a technical process simply about articulating credits, a stage of student development, or a novel enrollment management strategy. Rather, the book introduces a stimulating array of new perspectives, resources, options, models, and recommendations for addressing the many needs of this huge cohort - making the academic, civic, and social justice cases for

The Transfer of Conflict-Related Detainees Maral Kashgar, 2022-09-14 Im Rahmen ihrer Beteiligung an multinationalen Militäroperationen ist es für truppenstellende Staaten erforderlich, Gegner in Gewahrsam zu nehmen. Doch was, wenn der Staat die Gewahrsamsperson nicht im eignen Gewahrsam behalten will? Unter welchen Voraussetzungen ist es möglich, die Gewahrsamsperson an einen anderen Staat zu überstellen? Im Gegensatz zu den Vorgaben des menschenrechtlichen refoulement-Verbots haben die humanitärvölkerrechtlichen Überstellungsregeln der Genfer Konventionen von 1949 bisher trotz ihrer vorrangigen Anwendbarkeit in bewaffneten Konflikten wenig Beachtung gefunden. Mit der Kommentierung dieser Regeln schließt dieses Werk eine Lücke in der wissenschaftlichen Literatur zur Thematik.

Writing across Contexts Kathleen Yancey, Liane Robertson, Kara Taczak, 2014-05-15 Addressing how composers transfer both knowledge about and practices of writing, *Writing across Contexts* explores the grounding theory behind a specific composition curriculum called Teaching for Transfer (TFT) and analyzes the efficacy of the approach. Finding that TFT courses aid students in transfer in ways that other kinds of composition courses do not, the authors demonstrate that the content of this curriculum, including its

reflective practice, provides a unique set of resources for students to call on and repurpose for new writing tasks. The authors provide a brief historical review, give attention to current curricular efforts designed to promote such transfer, and develop new insights into the role of prior knowledge in students' ability to transfer writing knowledge and practice, presenting three models of how students respond to and use new knowledge—assemblage, remix, and critical incident. A timely and significant contribution to the field, *Writing across Contexts* will be of interest to graduate students, composition scholars, WAC and writing-in-the-disciplines scholars, and writing program administrators.

Policy Transfer and Learning in Public Policy and Management Peter

Carroll, Richard Common, 2013-06-26 A typical image of the making and administration of policy suggests that it takes place on an incremental basis, involving public servants, their ministers and, to a more limited extent, a variety of interest groups. Yet, much policy making is based on similar policy developed in other jurisdictions and in the major international organizations such as the WTO and the OECD. In other words, significant aspects of nationally developed policies are copied from elsewhere in what is described as a process of policy transfer and learning. Hence, studies of policy transfer have pointed to a distinct limitation in most existing theoretical and empirical explanations as to how policy is made and implemented through their neglect of the role of policy transfer and learning. Moreover, policy transfer is not only a concern of academics, but a growing concern for governments. The latter are concerned to improve the performance of their policy and several have placed a greater, more systematic focus on policy transfer as a means to increasing performance. This book presents a variety of cases from differing

national and international contexts that enable a valuable, comparative analysis that is absent from most literature currently available and that suggest a number of exciting research directions with implications for policy making, transference and implementation in the future.
