Story 10x Michael Margolis, 2019-10-08 Great leaders are great storytellers. If you want to disrupt, inspire, and persuade--go beyond the data. You need a story. As a leader, you can't ask your team to invest in a vision or a strategy they don't fully understand or believe in--especially when your ideas challenge the status quo. At a time when disruption is redefining every quadrant of life, those who can get their story straight can win over even the most reluctant audience. Drawing on 30,000 years of storytelling, Story 10x delivers a fresh approach for how to inspire and influence in the digital age. Most people think of storytelling as once upon fairy

tales or how to tell a better anecdote. In reality, getting clear on your strategic narrative is how you navigate hypergrowth. In these pages, you'll learn how to craft an Undeniable Story--a 3-step narrative framework for any high-stakes presentation. Apply the same strategies embraced by Google, Facebook, and Hulu to communicate some of their biggest breakthroughs. Invest in your story, and you can literally bend the limits of time, money, and people. Discover your Undeniable Story. Next time you're in front of senior leaders, investors, customers, or your team, make it difficult--if not impossible--for them to reject the future you're trying to create. Harness the magic of Story 10x, and turn the impossible into the inevitable.

10X Quotes Grant Cardone, 2014-07-26 The 10X Quote book is derived from The 10X Rule, The Only Difference Between Success and Failure by New York Times bestselling author and self made multimillionaire entrepreneur, Grant Cardone. The 10X lifestyle is one that calls for massive action towards greatness in all aspects of life. This quote book is a compliment to the original book and offers a daily boost of inspiration to continue along a path towards success.

*10x Is Easier Than 2x* Dan Sullivan, Dr. Benjamin

Hardy,2023-05-09 Expanding upon one of his high-level foundational teachings: Strategic Coach co-founder Dan Sullivan explains why achieving 10X growth is easier than going for 2X growth. Dan Sullivan, the world's leading coach for highly successful entrepreneurs, wants you to know that achieving 10X growth is exponentially easier than striving for 2X growth. Most find this idea confusing at first because simply imagining 10X growth causes them to think they need to do 10X more work to achieve it. However, being a 10X entrepreneur is nothing like what most people think. 10X is not the outcome; it's a counterintuitive process you can apply every time you want exponential growth in your life and business. To make 10X possible, you must focus on expanding what Dan defines as your four most important freedoms—time, money, relationship, and purpose. As your time becomes 10X more valuable, you increasingly multiply the money you earn both in terms of amount and profitable satisfaction. As money becomes a tool you can increasingly access with greater ease, you will engage with a growing number of other freedom-motivated individuals. As both your professional and personal life fills up with 10X more unique and collaborative relationships, you will realize that your most powerful purposes in all areas become

10X more lasting and positive for everyone involved. You will be impressed by what your life has become, and the meaning and impact you're having. 10X is fundamentally about quality vs quantity, and the quality of your freedoms determines the results you achieve.

*Who Not How* Dan Sullivan, Dr. Benjamin Hardy, 2020-10-20

The world's foremost entrepreneurial coach shows you how to make a mindset shift that opens the door to explosive growth and limitless possibility--in your business and your life. Have you ever had a new idea or a goal that excites you... but not enough time to execute it? What about a goal you really want to accomplish...but can't because instead of taking action, you procrastinate? Do you feel like the only way things are going to get done is if you do them? But what if it wasn't that way? What if you had a team of people around you that helped you accomplish your goals (while you helped them accomplish theirs)? When we want something done, we've been trained to ask ourselves: How can I do this? Well, there is a better question to ask. One that unlocks a whole

new world of ease and accomplishment. Expert coach Dan Sullivan knows the question we should ask instead: Who can do this for me? This may seem simple. And it is. But don't let the lack of complexity fool you. By mastering this question, you will quickly learn how billionaires and successful entrepreneurs like Dan build incredible businesses and personal freedom. This book will teach you how to make this essential paradigm-shift so you can:

- Build a successful business effectively while not killing yourself
- Immediately free-up 1,000+ hours of work that you shouldn't be doing anyway
- Bypass the typical scarcity and decline of aging and other societal norms
- Increase your vision in all areas of life and build teams of WHOs to support you in that vision
- Never be limited in your goals and ambitions again
- Expand your abundance of wealth, innovation, relationships, and joy
- Build a life where everything you do is your choice--how you spend your time, how much money you make, the quality of your relationships, and the type of work you do

Making this shift involves retraining your brain to stop limiting your potential based on what you solely can do and instead focus on the nearly infinite and endless connections between yourself and other people as well as the limitless transformation possible through those connections.

**Be Obsessed or Be Average** Grant Cardone,2016-10-11 From the millionaire entrepreneur and New York Times bestselling author of The 10X Rule comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational

books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else's version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we're in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: · Set

crazy goals—and reach them, every single day. · Feed the beast: when you value money and spend it on the right things, you get more of it. · Shut down the doubters—and use your haters as fuel. Whether you're a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It's a simple choice: be obsessed or be average.

Grant Cardone's The 10X Rule by Instaread Preview: The 10X Rule: The Only Difference Between Success and Failure by real estate mogul Grant Cardone is a no-holds-barred exhortation for people to aim higher and work harder. By employing this discipline, people can render themselves impervious to even the most unforeseeable of obstacles. Success is available for anyone who wants to seize it. Regardless of background, intellect, wealth, or personality, anyone can achieve great things by multiplying their goals by 10. Once they set a lofty goal, people must then multiply their efforts by 10 in order to achieve it. At no point along the way, even when the going gets rough, should an unreasonable goal be recalibrated to make it easier to reach. Instead, individuals must further increase their efforts and actions to reach the initial goal. Far too often, people seek to remove the weight of responsibility for success or failure from themselves. It is much easier...
