The Panzers of Prokhorovka Ben Wheatley,2023-06-08 This ground-breaking new study of the battles of Kursk and Prokhorovka will transform our understanding of one of the most famous battles of the Second World War, widely mythologized as the largest tank battle in history. 'If ever there was a time for a sober, authoritative dissection of the myths the Soviets fashioned from the Eastern Front, it is now.' - Oliver Moody, Berlin Correspondent for The Times Today in Russia there are three official sacred battlefields: Kulikovo, where the Mongols were defeated in 1380; Borodino, where Russian troops slowed Napoleon's Grande Armée before Moscow in 1812; the third is Prokhorovka. This is widely described as the most critical tank battle of the Second World War, which saw the annihilation of Hitler's elite Panzer force in the largest armoured clash in history and left Hitler with no alternative but to halt Germany's offensive against the Kursk salient. Victory, on 12 July 1943, at Prokhorovka over Hitler's vaunted SS troops has traditionally been described as a turning point in the Second World War. The Panzers of Prokhorovka challenges this narrative. The battle was indeed an important Soviet victory, but a very different one to that described above. Based on ground-breaking archival research and supported by hitherto unpublished images of the battlefield, Ben Wheatley argues that German armoured losses were in fact negligible and a fresh approach is required to understand Prokhorovka. As we reach the 80th anniversary of the battles of Kursk and Prokhorovka in 2023, The Panzers of Prokhorovka tackles the many myths that have built up over the years, and presents a new analysis of this famous engagement.

FAQ 3 , This new Super-Book, like its predecessors in this same series of technical manuals called "FAQ", is dedicated to modeling military vehicles and the techniques used for assembling, painting and weathering. The difference with the previous book is that we have moved on in the timeframe and this book is a complement of the previous ones. It also explains some new techniques that have appeared these last years, mainly to use in modern vehicles but that can be also used in vehicles of all eras. The most complete book for military vehicles edited until now. The materials that make up modern vehicles and weapons have changed considerably since World War II. Materials that were out of the question on a technological and industrial level back then are now commonplace. The

use of these new materials and the manufacturing and assembly methods reflect on the way we paint and weather these models; they require a different approach. Like many other things in life, in the end the purpose is to take up new challenges. In this book we present some of those challenges. Simply essential for the modeller of military vehicles

The Vietnam Lobby Joseph G. Morgan, 2000-11-09 Established in 1955 as a private advocacy group, the American Friends of Vietnam worked to influence U.S. attitudes and policies toward Vietnam for nearly two decades. AFV members wrote articles, gave speeches, sponsored aid drives, and forged ties with journalists, academics, and government officials in an effort to generate American assistance for South Vietnam. In *The Vietnam Lobby*, Joseph Morgan shifts the focus away from the much-examined antiwar demonstrations that took place in America to concentrate instead on the actions of those who endorsed U.S. intervention in Vietnam. Drawing on a wide range of documentary sources, Morgan presents a comprehensive study of the AFV and its activities. He traces the group's establishment and growth, examines its internal organization and politics, and, ultimately, evaluates its effectiveness in guiding government policy and public opinion. Morgan also assesses the charges of antiwar critics who claimed the AFV exerted an excessive, perhaps disastrous, influence in shaping America's Vietnam policy. Finally, he offers insights into the thinking of those who believed that the United States had the unique ability--even the obligation--to help shape Vietnam's future. Originally published in 1997.
