*Fit & Active* Maureen K. LeBoeuf, Lawrence F. Butler, 2008 We all know the dilemma: Kids are tuning in to TVs and video games and tuning out physical activity. As a result, kids are more overweight than ever. More than half of the adult population in the United States are overweight, and almost a third are clinically obese. An obvious answer is to become and stay fit through regular physical activity. The authors of *Fit & Active: The West Point Physical Development Program* know this, and in response they developed a program at West Point--the academy that's been educating U.S. military and political leaders for over 200 years. Now you can use the West Point fitness program to meet the needs of your students. *Fit & Active: The West Point Physical Development Program* is a practical, ready-to-use resource that will help you inspire the kids under your charge to be more physically active. It includes the following features: -The system that has worked for the authors in their West Point program, along with detailed strategies for modifying their approach for various ages and environments -Activities and ideas that have been reviewed by high school physical education teachers to ensure the suggestions are appropriate for high school students -New ideas and information that will help you improve your program -Assessment strategies to help you meet state and national physical education standards At West Point, fitness is seen as a solid foundation for emotional and intellectual well-being and as a way to help prepare students for a lifetime of health, physical activity, and success--in the classroom and beyond. With that in mind, the authors focus on how to develop and assess your program in part I, and in part II they provide core activity courses (including basic movement, swimming, boxing, self-defense, and obstacle courses) that develop motor skills. In part III they delve into wellness and personal fitness strategies, workout designs, assessments, and related issues, and in part IV they outline courses for lifetime activities such as tennis, golf, ice skating, and rock climbing. As a result, you get a comprehensive resource that is easy to use, well illustrated, adapted for high school, and appropriate for a variety of groups--and one that will also help you meet state and national standards. Along the way your students will learn leadership skills through sports

and become motivated to make physical activity and fitness an integral part of their lives long after they leave school.

*Advances in Human Error, Reliability, Resilience, and Performance* Ronald L. Boring,2019-06-01 This book brings together studies broadly addressing human error from different disciplines and perspectives. It discusses topics such as human performance; human variability and reliability analysis; medical, driver and pilot error, as well as automation error; root cause analyses; and the cognitive modeling of human error. In addition, it highlights cutting-edge applications in safety management, defense, security, transportation, process controls, and medicine, as well as more traditional fields of application. Based on the AHFE 2019 International Conference on Human Error, Reliability, Resilience, and Performance, held on July 24-28, 2019, Washington D.C., USA, the book includes experimental papers, original reviews, and reports on case studies, as well as meta-analyses, technical guidelines, best practice and methodological papers. It offers a timely reference guide for researchers and practitioners dealing with human error in a diverse range of fields.

**Leadership of Shame** Gurinder Rana,2018-01-02 “The onus of proving the charges brought against a defendant is the duty of the prosecutor and, not of the defense. The prosecutor must prove all charges, by the preponderance of the evidence, clearly and concisely, beyond any shadow of a doubt. This is the law, and it is undisputed. If the glove doesn’t fit then, you must acquit.” In the wake of 9/11, a few military leaders fabricated false charges against their subordinates to avoid facing any consequence for their illicit actions. What followed was widespread hatred for the colored, non-Christians, separate creeds, and non-American nationals. The United States Armed Forces overlooked such cases and closed them arbitrarily without informing the affected troops. The inspectors generals were overwhelmed with complaints, and eventually, the GAO investigated and exposed certain crimes. One of the unsolved cases not addressed by the GAO was the case of Captain Arvind Johar. This is his account.
