

Air

Treat Williams

Air Monica Roe, 2022-03-15 An action-packed, empowering middle grade novel about a girl who has to speak up when her wheelchair motocross dreams get turned upside down. Twelve-year-old Emmie is working to raise money for a tricked-out wheelchair to get serious about WCMX, when a mishap on a poorly designed ramp at school throws her plans into a tailspin. Instead of replacing the ramp, her school provides her with a kind but unwelcome aide—and, seeing a golden media opportunity, launches a public fundraiser for her new wheels. Emmie loves her close-knit rural town, but she can't shake the feeling that her goals—and her choices—suddenly aren't hers anymore. With the help of her best friends, Emmie makes a plan to get her dreams off the ground—and show her community what she wants, what she has to give, and how ready she is to do it on her own terms. *Air* is a smart, energetic middle grade debut from Monica Roe about thinking big, working hard, and taking flight.

Air and Water Mark Denny, 2020-06-16 Addressing general readers and biologists, Mark Denny shows how the physics of fluids (in this case, air and water) influences the often fantastic ways in which life forms adapt themselves to their terrestrial or aquatic media.

Into Thin Air Jon Krakauer, 1998-11-12 #1 NATIONAL BESTSELLER • The epic account of the storm on the summit of Mt. Everest that claimed five lives and left countless more—including Krakauer's—in guilt-ridden disarray. A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism. —PEOPLE A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that suggested that a murderous storm was bearing down. He was wrong. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated trade paperback edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. I have no doubt that Boukreev's intentions were good on summit day, writes Krakauer in the postscript, dated August 1999. What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients. As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters—a prestigious prize intended to

honor writers of exceptional accomplishment. According to the Academy's citation, Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind.

Up for Air Laurie Morrison, 2019-05-07 Thirteen-year-old Annabelle struggles in school, no matter how hard she tries. But as soon as she dives into the pool, she's unstoppable. She's the fastest girl on the middle school swim team, and when she's asked to join the high school team over the summer, everything changes. Suddenly, she's got new friends, and a high school boy starts treating her like she's somebody special—and Annabelle thinks she'll finally stand out in a good way. She'll do anything to fit in and help the team make it to the Labor Day Invitational, even if it means blowing off her old friends. But after a prank goes wrong, Annabelle is abandoned by the older boy and can't swim. Who is she without the one thing she's good at? Heartwarming and relatable, *Up for Air* is a story about where we find our self-worth.

Doors in the Air David Weale, 2012-04-01 *Doors in the Air* is the story of a boy who is fascinated by doors. He marvels at how stepping through a doorway can take him from one world to another. He is especially enthralled by the doors of his imagination, which he refers to as doors in the air. He delights in discovering that when he passes through these doors, he leaves behind all feelings of boredom, fear and unpleasantness. *Doors in the Air* is a lilting journey through house doors, dream doors and, best of all, doors in the air.

The King Air Book Tom Clements, 2011-04 A treasury of thirty-seven years of flying and teaching experience in the world's most popular executive aircraft. Tom Clements' articles, stories, and operating tips all compiled into one reference book. This information will be invaluable for current or future pilots of King Air airplanes.

Rare Air Michael Jordan, Mark Vancil, 1993 Complete before his resignation from basketball, Jordan discusses his love of the game, his family, and his competitiveness

The Book of Air and Shadows Michael Gruber, 2009-03-17 "In this ingenious literary thriller . . . [the] murder of a Shakespearean scholar...and an unlikely romance . . . make for a gripping, satisfying read." —Publishers Weekly (starred review) A fire destroys a New York City rare bookstore—and reveals clues to a treasure worth killing for. . . . A disgraced scholar is found tortured to death. . . . And those pursuing the most valuable literary find in history are about to cross from the harmless mundane into inescapable nightmare. From the acclaimed, bestselling author of *Tropic of Night* comes a breathtaking thriller that twists, shocks, and surprises at every turn as it crisscrosses centuries, from the glaring violence of today into the dark shadows of truth and lies surrounding the greatest writer the world has ever known. "If you love books—their physical presence, the craft of making them, the art of collecting them . . . make room on the shelf for a new guilty pleasure from Michael Gruber . . . smart . . . [and] packed with enough excitement to keep your inner bibliophile as happy as a folio in vellum." —Ron Charles, *The Washington Post* "While the novel will appeal to those who enjoyed *The Da Vinci Code* or *The Rule of Four*, critics agree that its lively dialogue, compellingly flawed characters, sense of humor, and intelligent exploration of religion and cryptology elevate it far above the genre's standard fare. Readers expecting car chases, kidnappings, globe

trotting, sex, and murder won't be disappointed, either.” —Bookmarks magazine

When Breath Becomes Air Paul Kalanithi, 2016-01-12 #1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can't go on. I'll go on.’” When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

The Book of Air Marjorie B. Kellogg, 2003-11-04 The thrilling conclusion to the adventures of the four elemental dragons and their human guides, the fourth and final book of the history-spanning Dragon Quartet fantasy series. In the fourth novel of this popular tetralogy, Marjorie B. Kellogg brings together the four elemental dragons and their human companions in a desperate quest to free Air from her as-yet-undiscovered prison—and stop Fire before his devastating reign destroys the world.

Desert Air George Steinmetz, 2012-12-01 Hyper Arid is the first comprehensive photographic book on all of the world's extreme deserts (defined for the purposes of this book as those that receive no more than 4 inches of precipitation per year), the most remote and inhospitable places on earth. It is also a visual adventure story by one of the world's top expedition photographers who has spent the last 15 years on this epic body of work. The stunning and surreally beautiful photographs are enriched with stories from his adventures in the world's most difficult places: smuggling his aircraft into Libya, getting arrested for spying in Iran, crashing into a tree in Western China, and into the ocean off the coast of Mexico. The book is a comprehensive exploration of virtually every dune field and patch of barren ground that add up to the last great class of wilderness left on our planet. To visualize these remote places in a unique way, Steinmetz learned how to fly the world's lightest and slowest aircraft, a motorized paraglider. This experimental foot-launched aircraft consists of a backpack motor and a parachute-style wing that lets him fly low, and slow, to take pictures of places that have never been seen before. Together, these extraordinary places are like a disparate family of co-evolved landscapes, each similar, but uniquely beautiful--Provided by publisher.

Creating Safe, Equitable, Engaging Schools David Osher, Deborah Moroney, Sandra L. Williamson, 2018 Creating Safe, Equitable, Engaging Schools brings together the collective wisdom of more than thirty experts from a variety of fields to show how school leaders can create communities that support the social, emotional, and academic needs of all students. It offers an essential guide for making sense of the myriad frameworks, resources, and tools available to create a continuous improvement system. Filled with recommendations gleaned from research and ongoing work in every US state and territory, this book is a critical resource for understanding and adopting evidence-based practices and making programmatic decisions to ensure the ideal conditions for learning, growth, and development. Creating Safe, Equitable, Engaging Schools is an essential read for teachers, principals, district leaders, and organizations that work with schools to create challenging and supportive environments for all students. --Paul Cruz, superintendent, Austin Independent School District Osher and colleagues not only connect the dots between big ideas--deeper learning, trauma, social and emotional learning, evidence-based programs, comprehensive community planning--but they model the continuous improvement approach in the way ideas are ordered across and within the chapters. This is a masterful volume: comprehensive, accessible, and way overdue. --Karen J. Pittman, cofounder, president and CEO, The Forum for Youth Investment This book provides a very usable road map for creating safe, healthy, equitable, and caring schools. The editors and contributors successfully integrate research, practice, and policy to help educators develop and implement effective and sustainable models to nurture caring schools that all children and educators deserve. --Mark T. Greenberg, Bennett Chair of Prevention Research, Pennsylvania State University David Osher is vice president and an institute fellow at American Institutes for Research. Deborah Moroney is a managing director at American Institutes for Research and is director of the youth development and supportive learning environments practice area. Sandra Williamson is a vice president for policy, practice, and systems change at American Institutes for Research.

Changes in the Air Eleonora Rohland, 2018-10-19 Hurricanes have been a constant in the history of New Orleans. Since before its settlement as a French colony in the eighteenth century, the land entwined between Lake Pontchartrain and the Mississippi River has been lashed by powerful Gulf storms. Time and again, these hurricanes have wrought immeasurable loss and devastation, spurring reinvention and ingenuity on the part of inhabitants. Changes in the Air offers a rich and thoroughly researched history of how hurricanes have shaped and reshaped New Orleans from the colonial era to the present day, focusing on how its residents have adapted to a uniquely unpredictable and destructive environment across more than three centuries.

Air Show! Treat Williams, 2010-06-15 Ellie and Gill are going to the Air Show! There will be over 10,000 planes there. But there's one kind of plane in particular that Ellie's got her eye on. Will she go up in a stunt plane? Beloved motion picture and television actor Treat Williams and acclaimed picture book creator Robert Neubecker team up to give kids a tour of the air show. Loaded with color and action and lots of cool pilot-speak, this book is the perfect book for read-alouds as well as for poring over again and again. Air Show is sure to find fans amongst young lovers of gadgets and vehicles. Blue sky? Check! Cool planes? Check! Ready for take-off!
