Animal Lisa Taddeo,2021-12-13 É impossível não sustar a respiração. Joan transforma-se, diante dos nossos olhos, de presa em predadora, com uma força e uma coragem ANIMAL. Joan passou a vida inteira sob a crueldade dos homens. Mas quando um deles comete um extraordinário e chocante ato de violência à sua frente, Joan sai de Nova Iorque e parte em busca de Alice, a única pessoa que a pode ajudar a perceber o seu passado. Nas sufocantes colinas junto a Los Angeles, Joan descobre os pormenores do terrível episódio que testemunhou em criança - e que tem assombrado todos os seus dias - e consegue, finalmente, encontrar a força para se vingar. *Animal* é um retrato da raiva feminina no seu estado mais cru e sem tréguas. Uma história visceral que explora as consequências de uma sociedade dominada pelos homens.

**Animal** Lisa Taddeo,2022-05-31 From Lisa Taddeo, author of the #1 New York Times bestseller and global phenomenon *Three Women*, comes an “intoxicating” (Entertainment Weekly), “fearless” (Los Angeles Times), and “explosive” (People) novel about “what happens when women are pushed beyond the brink, and what comes after the reckoning” (Esquire). Joan has spent a lifetime enduring the cruelties of men. But when one of them commits a shocking act of violence in front of her, she flees New York City in search of Alice, the only person alive who can help her make sense of her past. In the sweltering hills above Los Angeles, Joan unravels the horrific event she witnessed as a child—that has haunted her every waking moment—while forging the power to finally strike back. *Animal* is a depiction of female rage at its rawest, and a visceral exploration of the fallout from a male-dominated society.

Temple Grandin's professional training as an animal scientist and her history as a person with autism have given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position

to translate “animal talk.” Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.

Animal Acts Una Chaudhuri, Holly Hughes, 2014-01-28 We all have an animal story—the pet we loved, the wild animal that captured our childhood imagination, the deer the neighbor hit while driving. While scientific breakthroughs in animal cognition, the effects of global climate change and dwindling animal habitats, and the exploding interdisciplinary field of animal studies have complicated things, such stories remain a part of how we tell the story of being human. *Animal Acts* collects eleven exciting, provocative, and moving stories by solo performers, accompanied by commentary that places the works in a broader context. Work by leading theater artists Holly Hughes, Rachel Rosenthal, Deke Weaver, Carmelita Tropicana, and others joins commentary by major scholars including Donna Haraway, Jane Desmond, Jill Dolan, and Nigel Rothfels. Una Chaudhuri's introduction provides a vital foundation for understanding and appreciating the intersection of animal studies and performance. The anthology foregrounds questions of race, gender, sexuality, class, nation, and other issues central to the human project within the discourse of the “post human,” and will appeal to readers interested in solo performance, animal studies, gender studies, performance studies, and environmental studies.

**Inside Animal Hearts and Minds** Belinda Recio, 2017-08-01 As Charles Darwin suggested more than a century ago, the differences between animals and humans are “of degree and not of kind.” Not long ago, ethologists denied that animals had emotions or true intelligence. Now, we know that rats laugh when tickled, magpies mourn as they cover the departed with greenery, female whales travel thousands of miles for annual reunions with their gal pals, seals navigate by the stars, bears hum

when happy, and crows slide down snowy rooftops for fun. In engaging text, photographs, and infographics, Inside Animal Hearts and Minds showcases fascinating and heart-warming examples of animal emotion and cognition that will foster wonder and empathy. Learn about an orangutan who does “macramé,” monkeys that understand the concept of money, and rats that choose friendship over food. Even language, math, and logic are no longer exclusive to humans. Prairie dogs have their own complex vocabularies to describe human intruders, parrots name their chicks, sea lions appear capable of deductive thinking akin to a ten-year-old child’s, and bears, lemurs, parrots, and other animals demonstrate numerical cognition. In a world where a growing body of scientific research is closing the gap between the human and non-human, Inside Animal Hearts and Minds invites us to change the way we view animals, the world, and our place in it.

Types of Animal Life St. George Jackson Mivart,1894

Being Animal Anna Peterson,2013-05-21 For most people, animals are the most significant aspects of the nonhuman world. They symbolize nature in our imaginations, in popular media and culture, and in campaigns to preserve wilderness, yet scholars habitually treat animals and the environment as mutually exclusive objects of concern. Conducting the first examination of animals' place in popular and scholarly thinking about nature, Anna L. Peterson builds a nature ethic that conceives of nonhuman animals as active subjects who are simultaneously parts of both nature and human society. Peterson explores the tensions between humans and animals, nature and culture, animals and nature, and domesticity and wildness. She uses our intimate connections with companion animals to examine nature more broadly. Companion animals are liminal creatures straddling the boundary between human society and wilderness, revealing much about the mutually constitutive relationships binding humans and nature together. Through her paradigm-shifting reflections, Peterson disrupts the artificial boundaries between two seemingly distinct categories, underscoring their fluid and continuous character.
