The Future United States Role in Asia and in the Pacific United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Asian and Pacific Affairs, 1968 Considers future U.S. policy towards Asia and reviews U.S. relations with Japan and other Asian nations. Focuses on prospects for regional, economic, political, and security arrangements among countries of Asia.

Islam and Asia Chiara Formichi, 2020-05-07 An accessible, transregional exploration of how Islam and Asia have shaped each other's histories, societies and cultures from the seventh century to today.

The Awakening of Asia Henry Mayers Hyndman, 1919 A study of the influence of the white man on the Far East.

Charting the Shape of Early Modern Southeast Asia Anthony Reid, 2000-08-01 In this volume, Anthony Reid positions Southeast Asia on the stage of world history. He argues that the region not only had a historical character of its own, but that it played a crucial role in shaping the modern world. Southeast Asia's interaction with the forces uniting and transforming the world is explored through chapters focusing on Islamization; Chinese, Siamese, Cham and Javanese trade; Makasar's modernizing moment; and slavery. The last three chapters examine from different perspectives how this interaction of relative equality shifted to one of an impoverished, "third world" region exposed to European colonial power.

Asia and Europe in the 21st Century Rahul Mishra, Azirah Hashim, Anthony Milner, 2021-05-25 How are the rising mutual concerns of Asian and European countries shaping their approaches to the international order? Contributors to this volume discuss emerging critical issues in International relations, including the Indo-Pacific constructs, China's Belt and Road Initiative (BRI), and the

progress of established regional security mechanisms like the Shanghai Cooperation Organisation. They also compare western and non-western approaches to these issues, with a holistic perspective on the origins and evolutions of these approaches. Both the Indo-Pacific constructs and BRI present a remarkable set of opportunities for Europe as well as Asia. This book presents key implications of the changing politico-security dynamics in the two regions from the perspectives of both Asian and European scholars and theoretical traditions. A must-read for scholars of International Relations with a focus on relations between Asia and Europe.

The Rise of China and International Security

Kevin J. Cooney, Yoichiro Sato, 2008-08-29 This edited volume offers diverse and comprehensive views of China's rise and its implications to the East Asian region and beyond. The economic growth of China, initially started in the late-1970s with domestic and rural reforms, has been increasingly driven by China's industrialization and integration into the regional and global markets. The growth and integration of China, however, has exposed China's closest neighbours and even more remote countries to its various (previously internal) problems, and the lagging political openness of China has often negatively impacted on cooperation with other countries in dealing with these problems (i.e. trans-border pollutions, epidemics, illegal migrations, organized crimes, financial management, etc.). This book integrates geopolitical and domestic political analysis of China with a broad set of transnational security issues, and includes a diversity of regional views. In doing so, it explores further than the dichotomous debate between the American realists and liberals, adding finesse to the often simplified discussions on how to deal with the rising China. This book will be of interest to

students of Asian Politics, Security Studies and International Relations.

Asia, America, and the Transformation of Geopolitics William H. Overholt, 2008 A provocative account of the state of Asian geopolitics and US foreign policy in Asia.

Asia Eyes America Jonathan D. Pollack, 2007 Contains a collection of papers produced by participants (U.S. and regional scholars and analysts) at a conference, Asia Eyes America, held at the Naval War College in Newport, Rhode Island, in May 2006. What are the implications of Asia's longer-term transformation for U.S. interests? How might change reconfigure American security requirements in the next decade and beyond? On what basis does United States reaffirm yet redefine its enduring commitment to regional order? This volume is a collaborative effort involving prominent specialists on both sides of the Pacific. The book focuses on underlying attitudes toward American power and policy, especially as viewed by strategic analysts within the region. Various contributors describe contradictory attitudes toward American power. Most states hope to deepen ties with the United States, while avoiding comprehensive envelopment in U.S. strategy. There is a tension between the preference for continued American regional involvement, while seeking to limit possibilities of highly intrusive U.S. policy interventions. Both considerations will continue to shape regional attitudes toward American power, especially U.S. military power--Publisher's description.

Asia in the Twenty-first Century Paula K. Chow, Gregory C. Chow, 1997 Over 250 Princeton alumni and friends from 17 countries and from classes spanning a 66-year period attended the Conference. The presentations were of high quality, as can be seen from the proceedings. The

speakers and other participants came from different national and cultural backgrounds and represented different points of view. For example, in discussing US-Asia relations James Baker represented an American viewpoint, while in the same session Yoshio Hatano represented a Japanese point of view, as did Toyoo Gyohten in a different session on economic issues. This valuable volume is a collection of frank and insightful essays on Asia-Pacific by notable Princetonians who are influential in the region.

East Asia at the Center Warren I. Cohen, 2000
Cohen charts the course of cultural, intellectual, economic, and political developments in East Asia--particularly China and Japan--from the beginning of recorded time to the present day and examines such events as the rise and fall of key dynasties, the ascendancy of the British empire, and the development of democracy in Asia.

ASEAN, Sovereignty and Intervention in Southeast Asia L. Jones, 2011-12-07
Drawing on the fields of political economy and historical sociology, Jones dispels the overwhelming consensus among scholars that members of the Association of Southeast Asian Nations (ASEAN) never interfere in the internal affairs of other states, and pioneers a new approach to the understanding of regional politics in Southeast Asia.

Buddhism Across Asia Tansen Sen, 2014-04-02
Buddhism across Asia is a must-read for anyone interested in the history and spread of Buddhism in Asia. It comprises a rich collection of articles written by leading experts in their fields. Together, the contributions provide an in-depth analysis of Buddhist history and transmission in Asia over a period of more than 2000 years. Aspects examined include material culture, politics, economy, languages and texts, religious institutions, practices and rituals, conceptualisations, and philosophy, while the

geographic scope of the studies extends from India to Southeast Asia and East Asia. Readers' knowledge of Buddhism is constantly challenged by the studies presented, incorporating new materials and interpretations. Rejecting the concept of a reified monolithic and timeless 'Buddhism', this publication reflects the entangled 'dynamic and multi-dimensional' history of Buddhism in Asia over extended periods of 'integration,' 'development of multiple centres,' and 'European expansion,' which shaped the religion's regional and trans-regional identities. -- Max Deeg, Cardiff University

Buddhism Across Asia presents new research on Buddhism in comprehensive spatial and temporal terms. From studies on transmission networks to exegesis on doctrinal matters, linguistics, rituals and practices, institutions, Buddhist libraries, and the religion's interactions with political and cultural spheres as well as the society at large, the volume presents an assemblage of essays of breathtaking breadth and depth. The goal is to demonstrate how the transmission of Buddhist ideas serves as a cultural force, a lynchpin that had connected the societies of Asia from past to present. The volume manifests the vitality and maturity of the field of Buddhist studies, and for that we thank the editor and the erudite authors. -- Dorothy C. Wong, University of Virginia

East Asia and the West: An Entangled History

Xiaobing Li, Yi Sun, Wynn Gadkar-Wilcox, 2019-05-30

East Asia and the West: An Entangled History provides readers with a comprehensive overview of modern East Asian civilizations. The text demonstrates how China, Korea, Japan, and Vietnam developed into modern nations through interactions with Western ideas and military power. Part One of the text provides an overview and historical background of premodern East Asia, highlighting differences and similarities between China, Korea,

Japan, and Vietnam, and significant partnerships and innovations from the 1500s to the 1800s. In Part Two, students learn why certain areas adopted an isolationist policy against Western influence, while others welcomed the influence. Part Three focuses on confrontation and Westernization, featuring discussion of the Opium Wars, the Meiji Transformation, and French colonization in Indochina. Part Four covers major events that occurred during World War II, including the communist movements in East Asia during the war. The final part examines the competition and confrontation between the capitalist and communist systems during the Cold War in East Asia. The text features transliteration notes, maps, and an expansive bibliography to provide students with a complete and immersive learning experience. East Asia and the West is part of the Cognella History of Asia Series, a collection of books dedicated to helping students explore the exciting, complex, and influential past of Asian countries. Xiaobing Li earned his Ph.D. at Carnegie Mellon University. Dr. Li is a professor of history and the director of the Western Pacific Institute at the University of Central Oklahoma. Yi Sun earned her Ph.D. at Washington State University. Dr. Sun is a professor of history and the director of the Asian Studies Program at the University of San Diego. Wynn Gadkar-Wilcox earned his Ph.D. at Cornell University. He is a professor of history and non-western cultures at Western Connecticut State University.

A History of Asia Rhoads Murphey, Kristin Stapleton, 2019 A History of Asia is the only textbook to provide a historical overview of the whole of this region, encompassing India, China, Korea, Japan, and Southeast Asia. Engaging and lively, it chronicles the complex political, social, and intellectual histories of the area from prehistory to the present day. Taking a

comparative approach throughout, the book offers a balanced history of each major tradition, also dedicating coverage to countries or regions such as Vietnam and Central Asia that are less frequently discussed in depth. This eighth edition has been streamlined and updated to reflect the most recent scholarship on Asian history, bringing the book up to date with recent events and key trends in historical research. Highlights of the book include close-up portraits of significant Asian cities, detailed discussion of environmental factors that have shaped Asian history, quotes from Asian poetry and philosophical writing, and attention to questions of gender and national identity. Highly illustrated with images and maps, each chapter also contains discussion questions, primary source excerpts, and in-depth boxed features. Written clearly throughout, *A History of Asia* is the perfect introductory textbook for all students of the history, culture, and politics of this fascinating region.

Pacific Asia? Melvin Gurtov, 2002 Most studies of Asia-Pacific security are marked by pessimism and continuing belief in the virtues of a balance of power. *Pacific Asia?* goes against the grain by pointing to a number of positive developments--especially economic--in regional relationships, the absence of an arms race, the growth of multilateral groups, and an emerging consensus on the importance of nonmilitary paths to national security. Above all, Mel Gurtov stresses a definition of security that focuses on basic human needs, social justice, and environmental protection. The author disagrees with proponents of a China threat, criticizes U.S. Cold War notions of security through forward-based power, and argues for new efforts at regional dialogue based on multilateral cooperation, sensitivity to Asian nationalism, and a role for Japan as a 'global civilian power.'

Tigers' Roar Julian Weiss, 2016-09-16 Despite Asia's protracted economic troubles, the region is poised to recover and perhaps become stronger than ever. This timely work identifies the major challenges facing Asia's Four Tigers (Singapore, Taiwan, South Korea, and Hong Kong), Japan, China, and their Southeast Asian neighbors (Thailand, Indonesia, Malaysia, and the Philippines) as the region increases its role and stature on the world stage. Highly regarded Asia policy makers and opinion shapers consider such key questions as: What is the appropriate response to China's ascent? Are there prospects for U.S.-Asian partnerships (in such areas as the environment)? Is economic cooperation between both sides of the Pacific realistic? How can Americans gain from Asia's attempts to rebuild her institutions? And will East Asia and the United States adjust to a multi-polar security and economic milieu?

Peoples of Eastern Asia Cavendish Square Publishing LLC, Marian Armstrong, Marshall Cavendish Corporation, 2004-09 Presents an overview of the different peoples of Eastern Asia from pre-history to the present.

Political Change in Southeast Asia Jacques Bertrand, 2013-07-11 A powerful new survey of political change in Southeast Asia, exploring why some countries have become democratic while others remain authoritarian.

Power Transition in Asia David Walton, Emilian Kavalski, 2016-08-12 Current preoccupations with the 'rise of Asia' attest to the nascent contestation of the very idea of what the pattern of international politics should look like and how it should be practiced. In this respect, the growing reference to a 'shift to the East' in global politics has become a popular shorthand for the nascent 'power transition' in world affairs. This volume offers a detailed conceptual and empirical investigation of the dynamics of power

transition in Asia and details the accommodation strategies and coping mechanisms of different small and middle powers in Asia and, importantly, China's responses to these approaches.

Asia Gary Drevitch, 2008 Discusses the continent of Asia, answers questions including wildlife, people, landscapes, history, and Asia today.
