Nine Keys to World-Class Business Process Outsourcing Mary Lacity,Leslie Willcocks,2015-04-23 Business Process Outsourcing (BPO)-the sourcing of business services through external third parties-is a global phenomenon, which generated nearly \$300 billion worldwide in 2012. BPO is highly IT-enabled, and on a growth trajectory that impacts across functions of major, medium and small enterprises, including procurement, human resources, accounting and finance, sales, marketing, legal, asset management and key administrative processes. Despite this size and spread, BPO services and the ability of clients to manage their providers, are still evolving and have a mixed record. In the course of their research, the authors have found only 20% of outsourcing arrangements are world-class performers. A further 25% are 'good', 40% are 'OK' and 15% are 'poor'. This book pinpoints and describes in detail the effective practices that characterize the top global BPO performers, including Microsoft, BP, EMC and TalkTalk. The authors provide case illustrations and

examples throughout of how world-class practices were generated and evolved, and how they can be applied to real life settings and problem areas.

*Business Process Outsourcing* V Anandkumar, Subhasish Biswas, 2008-05-15 A nascent industry in the 1990s, business process outsourcing (BPO) has taken India by storm. While this industry has been enmeshed in bad press and myths, the fact remains that it has proved to be an engine of economic growth for India over the last one decade. V. Anandkumar (VAK) and Subhasish Biswas have provided an insider's perspective that will be an invaluable read for the 150,000 'BPOites' that enter this industry every year from second and third-tier cities, and to those that are already working in the industry. This in-depth understanding of the BPO industry is also invaluable for business partners and industry leaders—for those who aim to set up a BPO, or for those keen to sustain the workforce in an industry known for its high attrition rate. The authors have dispelled myths while focusing on challenges, opportunities, and solutions from the perspectives of the employee, employer, and customer. How the industry has touched lives of thousands of youth and turned India into a global superpower makes this a compelling read for all those with a wider interest in the power of transformation.

**Business Process Outsourcing Relationships in Swiss Banking** Roman Seidl, 2007 The outsourcing market, especially Business Process Outsourcing (BPO), is growing every year. For decades, companies have successfully used outsourcing to generate significant savings. However, discussions with any employee will reveal some resentment of outsourcing. The aim of the study has been first to improve the understanding of some salient difficulties in Business Process Outsourcing relationships, with special reference to the perceived challenges of managing and monitoring Service Legal Agreements in Swiss banking, and second to assist outsourcing banks and service providers in

formulating and managing their outsourcing contracts. The study was designed to obtain, through interviews, descriptions and perceptions of experts in Swiss Banking Business Process Outsourcing. Given the nature of the topic but also because of practical constraints, the investigator elected to use a qualitative, interpretative, social constructionist research framework. An extensive review of the literature revealed that a variety of definitions of in- and out-sourcing exist. Some of these terms were used in academic writings and the business press interchangeably and had to be defined. Twenty-two practitioners were interviewed. The data were analysed and interpreted with the help of qualitative analysis software (NVivo). Subsequently, I compared my findings with those of the literature reviewed. Furthermore, a gap in the literature, namely that it generally does not deal with the perceived quality of the relationship, could be addressed and practical approaches for managing BPO relationships are suggested.
