Berkeley Charles Wollenberg,2008-01-23 A sweeping panorama of Berkeley by one of California's finest historians. Wollenberg knows this city like no one else, and he has the rare capacity to link a compelling local narrative to larger currents in American politics, economics and culture. This book has no rivals. Anyone who cares about Berkeley—and there are many—will devour it with pleasure.—Richard Walker, Professor of Geography, University of California, Berkeley

**Greenes' Guide to Educational Planning:The Public Ivies** Howard Greene,Matthew W. Greene,2001-08 Information is provided about thirty public colleges and universities at which students can receive an Ivy League education at a fraction of the price of Harvard, Yale, and Princeton. --book cover.

**Lust for Life** Irving Stone,2018-08-09 Lust for Life is the classic fictional re-telling of the incredible life of Vincent Van Gogh. Vincent is not dead. He will never die. His love, his genius, the great beauty he has created will go on forever, enriching the world... He was a colossus... a great painter... a great philosopher... a martyr to his love of art. Walking down the streets of Paris the young Vincent Van Gogh didn't feel like he belonged. Battling poverty, repeated heartbreak and familial obligation, Van Gogh was a man plagued by his own creative urge but with no outlet to express it. Until the day he picked up a paintbrush. Written with raw insight and emotion, follow the artist through his tormented life, struggling against critical discouragement and mental turmoil and bare witness to his creative journey from a struggling artist to one of the world's most celebrated artists.

**Intellectual Property and Entrepreneurship** Gary D. Libecap,2004-04-27 The papers in this volume represent some of the leading work on intellectual property. They address the question of how to create incentives to develop new technologies and how to protect those technologies once developed from theft. They also ask when valuable property might be developed even under weak ownership conditions. Other papers address how firms balance the trade offs in considering costly patent litigation and they examine the antitrust implications. Although issues of intellectual property rights would seem to be ones of interest only to obscure groups of academics and lawyers, they have become topics of everyday discussion among the regular population. Alleged copyright infringements by people downloading music from the internet and accompanying threats of prosecution as well as charges of strategic patenting to harm competitors in recent high profile antitrust cases have placed intellectual property into public and political debate. The incentives provided by secure property rights for promoting research and development, investment, production, and exchange are well known. These are the major arguments for patents, copyrights and other forms of intellectual property.

**Anywhere but Here** Mona Simpson,2011-05-25 A national bestseller—adapted into a movie starring Natalie Portman and Susan Sarandon—Anywhere But Here is the heart-rending tale of a mother and daughter. A moving, often comic portrait of wise child Ann August and her mother, Adele, a larger-than-life American dreamer, the novel follows the two women as they travel through the landscape of their often conflicting ambitions. A brilliant exploration of the perennial urge to keep moving, even at the risk of profound disorientation, Anywhere But Here is a story about the things we do for love, and a powerful study of familial bonds.
