Well we have before, and the results were disappointing to say the least. Yes, we found a few exercises and drills that were designed to aid us on our journey of badminton fitness, but we found nothing that even closely resembled a long-term workout plan with scientific evidence to back-up those exercises and drills. So, we decided to take things into our own hands! We developed our very own fitness and footwork eBook with the help of Malaysian Ex-professional: Goh Jian Hao, and coaches from all around the world! In the introduction, we analyse the physiology of badminton players, and the upper-body strokes and lower-body movements used in badminton. With this in mind, we define 6 aspects of performance in badminton: aerobic capacity, flexibility, explosive strength, speed, muscle endurance and agility. All of our workouts and training programmes in our eBook have been tagged with the specific aspects of badminton performance it is designed to target. We've also got a great warm-up and cool-down routine for you in our introduction to make sure you're ready for whatever the workouts may throw at you!
