**Bang! ((repackage))** Sharon Flake, 2018-10-16 Bang! Guns really sound like that, you know. Bang! And people bleed from everywhere, and blood is redder than you think. And little kids look funny in caskets. That's 'cause they ain't meant to be in one, I guess. Mann is only thirteen, yet he has already had to deal with more than most go through in a lifetime. His family is still reeling from the tragic shooting death of his little brother, Jason, each person coping with grief in his or her own way. Mann's mother has stopped eating and is obsessed with preserving Jason's memory, while his father is certain that presenting a hard edge is the only way to keep his remaining son from becoming a statistic. Mann used to paint and ride horseback, but now he's doing everything he can to escape his emotions: getting involved in fights at school, joyriding at midnight, and much worse. His father, at his wit's end, does the only thing he thinks will teach his son how to be a man: he abandons him and his friend Kee-Lee in the woods, leaving them to navigate their way home, alone. Now Mann, struggling to find his way back to civilization, must also reconcile himself to the realities of a world that has stolen his little brother, and that isn't even sure it still wants Mann in it. One wrong turn and it could all be over for him, too. Bang.

**Bang** Barry Lyga, 2017-04-18 Fans of 13 Reasons Why will find a lot to like in Lyga's latest. --Entertainment Weekly This is Where it Ends, Hate List, and Forgive Me, Leonard Peacock readers will appreciate this heartbreaking novel about living with your worst mistake, from New York Times bestselling author Barry Lyga. Sebastian Cody did something horrible, something no one--not even Sebastian himself--can forgive. At the age of four, he accidentally shot and killed his infant sister with his father's gun. Now, ten years later, Sebastian has lived with the guilt and horror for his entire life. With his best friend away for the summer, Sebastian has only a new friend, Aneesa, to distract him from his darkest thoughts. But even this relationship cannot blunt the pain of his past. Because Sebastian knows exactly how to rectify his childhood crime and sanctify his past. It took a gun to get him into this. Now he needs a gun to get out. Unflinching and honest, Bang is the story of one boy and one moment in time that cannot be reclaimed, as true and as relevant as tomorrow's headlines.

*The Big Bang Book* Asa Stahl, 2020 Introduces the concept of the big bang and the immensity of the universe in picture book format.

**Bang: A Novel** Daniel Peña, 2018-01-31 Uli's first flight, a late-night joy ride with his brother, changes their lives forever when the engine stops and the boys crash land, with "Texas to the right and Mexico to the left." Before the accident, Uli juggled his status as both an undocumented immigrant and a high school track star in Harlingen, Texas, desperately hoping to avoid being deported like his father. His mother Araceli spent her time waiting for her husband. His older brother Cuauhtémoc, a former high-school track star turned drop-out, learned to fly a crop duster, spraying pesticide over their home in the citrus grove. After the crash, Cuauhtémoc wakes up bound and gagged, wondering where he is. Uli comes to in a hospital, praying that it's on the American side of the border. And their mother finds herself waiting for her sons as well as her missing husband. Araceli knows that she has to go back to the country she left behind in order to find her family. In Mexico, each is forced to navigate the complexities of their past and an unknown world of deprivation and violence. Ruthless drug cartels force Cuauhtémoc to fly drugs. "If a brick goes missing, Cuauhtémoc dies. If a plane goes missing, Cuauhtémoc dies. If Cuauhtémoc goes missing, they find Cuauhtémoc (wherever he's at) and Cuauhtémoc dies." If they can't find him, they will kill his mother. They have photos of her in Matamoros to prove they can enforce the threat. Meanwhile, Uli returns to his family's home in San Miguel and finds a city virtually abandoned, devastated by battles between soldiers, cartels and militias that vie for control. Vividly portraying the impact of international drug smuggling on the innocent, Peña's debut novel also probes the loss of talented individuals and the black market machines fed with the people removed and shut out of America. Ultimately, Bang is a riveting tale about ordinary people forced to do dangerous, unimaginable things.

**Bang Bang** Theo Gangi, 2012-04-24 Stickup kid (n.): an urban gunslinger who preys on other criminals, often stealing already stolen property, using violence and intimidation. Izzy picks a bad time to have a conscience crisis. As a stick up kid in New York's underworld, he has a good thing going--robbing the worst drug lords in the city and leaving no witnesses behind. It is a game of high risk and high reward. There is just one problem: Izzy is in his thirties now, and for good reason, there is no such thing as a stickup man. When a job gets botched, leaving Izzy's psychotic partner guilty of yet another homicide, Izzy knows what he is supposed to do--kill the remaining witness or be killed himself. But a bystander named Eva seems different from others he has done before. Is she the exception to Izzy's number one rule? Izzy has never jacked himself into a problem he could not jack himself out of. But that was before. Now, on the unforgiving streets of New York City--where the skyline stretches out like a graveyard--there is a war on and there is no room for mistakes. His ex-partner is hellbent on revenge and is no longer acting alone. And as bodies start to fall around Izzy, he is left to take on both his enemies and his inner demons face first in a battle that has no questions, no conversation. Just bang bang. In this explosive debut, Theo Gangi redefines the crime thriller, delivering a pulse-pounding, white-knuckle ride through gritty back rooms, where justice is sealed with gunfire, no one can be trusted, and being innocent can get you killed. Theo Gangi is a superb craftsman. His work displays diverse characters and wonderful dialogue that would make Elmore Leonard stand up and applaud. He is new talent that has finally arrived. --Eric Jerome Dickey, New York Times bestseller author Theo Gangi portrays the people of the criminal world not only in a way that brings them to vivid life, but life felt at the extreme, out where suffering, pity, even tenderness and love have their own stark reality. --David Plante, author of Age of Terror Theo Gangi's first novel Bang Bang is a classic extreme thriller, with some surprising literary subtleties, and a level of Escherian interlocking that would make Tarantino's head spin. --Madison Smartt Bell, of All Soul's Rising, a National Book Award finalist Gritty and gripping, full of tense moments and sharp prose, Bang Bang is a debut worthy of attention. With the ear of a poet, the insight of a psychologist, and the attitude of a true New Yorker, Theo Gangi brings empathy and pathos to every gangsterfied

page. --Adam Mansbach, author of *Angry Black White Boy* Theo Gangi attended Goucher College, and is a recent graduate of Columbia's MFA writing program. His writing has appeared in *The Greensboro Review* and *The Columbia Spectator*. A New York native, he now lives in Harlem.

The Universe Verse James Lu Dunbar,2014 This rhyming comic book explains the scientific concepts surrounding the origin of the universe, life on Earth and the human race, from the Big Bang to the scientific method.

**Bang!** Sharon G. Flake,2007-08 A teenage boy must face the harsh realities of inner-city life, a disintegrating family, and destructive temptations as he struggles to find his identity as a young man.

The Bang ... ,1909

*The Stuff of Stars* Marion Dane Bauer,2020-10-06 In an astonishing unfurling of our universe, Newbery Honor winner Marion Dane Bauer and Caldecott Honor winner Ekua Holmes celebrate the birth of every child. Before the universe was formed, before time and space existed, there was . . . nothing. But then . . . BANG! Stars caught fire and burned so long that they exploded, flinging stardust everywhere. And the ash of those stars turned into planets. Into our Earth. And into us. In a poetic text, Marion Dane Bauer takes readers from the trillionth of a second when our universe was born to the singularities that became each one of us, while vivid illustrations by Ekua Holmes capture the void before the Big Bang and the ensuing life that burst across galaxies. A seamless blend of science and art, this picture book reveals the composition of our world and beyond – and how we are all the stuff of stars.

*Picture This* Molly Bang,2000-07 Using the tale of Little Red Riding Hood as an example, Bang uses boldly graphic artwork to explain how images and their individual components work to tell a story that engages the emotions. 3-color.

**Kiss Kiss, Bang Bang** Ashley,Jaquavis,2011-06-08 When a set-up goes wrong and Six finds herself sleeping with the enemy, who will she choose, the man she loves, or the man she's supposed to hate? Detroit hustlers Free and Six have been together seven years, but their relationship has been nothing but drama. Free hasn't been faithful and Six has taken out her hurt by physically hurting the other women. Free ends up in jail for three years, and when he's sprung, he's not happy to learn that Six has been living the high-life on his dime and blown through \$100,000! Then Six gets entangled in one of Free's schemes and finds herself in a role almost too good to be true—posing as the woman of another man who actually treats her with respect. Though you can bet there won't be a happily ever after for anyone involved. . . .

**BANG!** Matt Kindt,2020-12-01 A great #\$\$^ed up blend of James Bond and Tintin.--Keanu Reeves From New York Times bestselling *Mind MGMT* creator MATT KINDT and *Quantum Age*'s WILFREDO TORRES comes a brand-new pulp-inspired tale of action, mystery, and altered reality. A best-of the-best secret agent with memories he couldn't possibly possess, a mystery writer in her 80s who spends her retirement solving crimes, a man of action with mysterious drugs that keep him ahead of a constant string of targeted disasters, a seemingly omnipotent terrorist organization that might be behind it all . . . And they're all connected to one man: a science-fiction author with more information than seems possible, whose books may hold the key to either saving reality or destroying it. Collects BANG! #1-#5, along with all covers, a sketchbook section, and pinups by Matt Kindt. What *Knives Out* did for whodunits *Bang!* does for 007-style spy adventures by flipping sexist and culturally condescending tropes on their head.--DEADLINE HOLLYWOOD I will literally read anything by Matt Kindt or Wilfredo Torres. Put them together and it's magic. Skip dinner and buy this book--Mark Millar A top secret agent, an elderly crime fiction writer who also solves crimes, members of a sprawling terrorist organization, and a drug-fueled action hero find themselves inexplicably linked to a sci-fi author whose novels could hold the key to saving all of reality...or destroying it.--io9 I #\$\$^ing love this comic! it's literally everything I want out of one of my favorite creators!! Congrats to the entire team. This is how you make comics!--Brian Michael Bendis What does a secret agent with false memories, a sci-fi author who knows more than he should, and a global secret organization have in common? They're the opening threads to what Matt Kindt and Wilfredo Torres have in store with their first collaboration from Dark Horse Comics, BANG!--NEWSARAMA BANG is a fun, twisty spy thriller with a great meta-twist.--Jay Faerber Matt Kindt has demonstrated his skill at trippy genre storytelling in past work like *Ether* and *Mind MGMT*, while Wilfredo Torres' dynamic art is perfectly suited for both spy action and meta-fictive revelations.... Fascinating.--ENTERTAINMENT WEEKLY I love Matt Kindt and I love Wilfredo Torres, so it's no surprise that I loved BANG! It's like the weirdo, mind-bending James Bond story I didn't know I wanted.--Jeff Lemire Thanks to Kindt and Torres we finally have our Idris Elba - James Bond, and it's exactly as cool as you imagined.--Jeff Parker Imagine James Bond being abducted by David Lynch and forced into a maze that shifts with every step forward. The ground is unsteady. The walls of reality move. This is the world of Bang!, a spy thriller expertly conducted by Kindt and Torres, a mystery box that truly starts off with a... Well. You know. --Van Jensen

**A Little Book about the Big Bang** Tony Rothman,2022-03-01 A concise introduction to the greatest questions of modern cosmology. What came before the big bang? How will the universe evolve into the future? Will there be a big crunch? Questions like these have no definitive answers, but there are many contending theories. In *A Little Book about the Big Bang*, physicist and writer Tony Rothman guides expert and uninitiated readers alike through the most compelling mysteries surrounding the nature and origin of the universe. Cosmologists are busy these days, actively researching dark energy, dark matter, and quantum gravity, all at the foundation of our understanding of space, time, and the laws governing the universe. Enlisting thoughtful analogies and a step-by-step approach, Rothman breaks down what is known and what isn't and details the pioneering experimental techniques scientists are bringing to bear on riddles of nature at once utterly basic and stunningly complex. In Rothman's telling, modern cosmology proves to be an intricate web of theoretical predictions confirmed by exquisitely precise observations, all of which make the theory of the big bang one of the most solid edifices ever constructed in the history of science. At the same time, Rothman is careful to distinguish established physics from speculation, and in doing so highlights current controversies and avenues of future exploration. The idea of the big bang is now almost a century old, yet with each new year comes a fresh enigma. That is scientific progress in a nutshell: every groundbreaking discovery, every creative explanation, provokes new and more fundamental questions. Rothman takes stock of what we have learned and encourages readers to ponder the mysteries to come.

Bang Norah McClintock,2007-03-01 Quentin and JD have been friends forever. Even after JD gets in trouble Quentin stands by him. Hanging out together Quentin learns JD has a gun and when they are caught in a robbery JD uses the gun—with deadly results. Trying to cover up the crime and escape detection, Quentin gets in even deeper than he expected and learns that the only person he can trust is himself. Especially when his freedom—and his future—is at stake.

**Bang!** Michael Rubino,2011-10-11 Bang! And that was it, the beginning of everything. So begins this beautifully illustrated, panoramic story of evolution. Author and illustrator Michael Rubino conveys not only the facts but also the excitement of the scientific explanation of our world, from the origin of the universe in the big bang to the present reality of our planet, teeming with life but threatened by overpopulation and pollution. Parents looking for an easy-to-understand guide to the scientific worldview for their children will find the perfect source here. The formation of stars and galaxies; the origin of our solar system and planet Earth; the epochal march of life from single-celled organisms through sponges, worms, insects, fish, dinosaurs, birds, and early mammals; and the evolution of the first humans from their simian cousins—it's all here. This book is an eloquent blend of art and science that tells the most important story so far known.

**Bang!!** Brian May,Chris Lintott,Patrick Moore,2021-09-30 In 2006, rock legend and experienced amateur astronomer Brian May joined the legendary expert Sir Patrick Moore and astrophysicist Professor Chris Lintott to tell the story of the universe from the moment time and space came into existence at the Big Bang, through to the infinite future and the ultimate fate that awaits us. Following the spectacular success of the original book, Brian and Chris have got together again to extend and update the information in this accessible introduction to the history of the universe. Many of the pictures of the universe obtained by instruments such as the Hubble Space Telescope or the Very Large Telescope in Chile are beautiful enough to be considered works of art in their own right and this book presents them in context, and uses extraordinary new artworks to explain the mind-blowing theories from the cutting edge of astronomy in a way that everyone can understand. Fully revised and updated throughout, this new edition also contains an entire new chapter as well as more than 100 new photographs and illustrations.

*Big Bang* David Bowman,2019-01-15 Set in the 1950's, this epic, Warholian novel presents a brilliant and wholly original take on the years leading up to the Kennedy assassination. Where were you when you first heard President Kennedy had been shot? This is a question most people can answer, even if the answer is I wasn't born yet. In this epic novel, David Bowman makes the strong case that the shooting on November 22nd, 1963 was the major, defining turning point that catapulted the world into an entirely new stratosphere. It was the second big bang. In this hilarious, lightning-fast historical novel, Bowman follows the most famous couples of the decade as their lives are torn apart by post-war's new normal. We see Lucille Ball's bizarre interrogation by the House UnAmerican Activities Committee and Jackie Onassis' moonlight cruise with Frank Sinatra . We follow Norman Mailer and Arthur Miller as they attempt to get quickie divorces together at a loophole resort in Nevada and watch a young Howard Hunt snoop around South America with the newly founded CIA. A young Jimi Hendrix, now the epitome of counterculture cool, tries his luck as a clean cut army recruit. Written with an almost documentary film like intensity, BIG BANG is a posthumous work from the award-winning author of Let the Dog Drive. A riotous account of a country, perhaps, at the beginning of the end.
