September Shoes José Cruz González, 2006 Cast: 2m., 3w. (with doubling.) *September Shoes* is a visually evocative, lyrical play about four people in search of redemption. On a visit to their childhood home in the desert town of Dolores, Gail and Alberto, a middle-aged couple, struggle to come to terms with the past, including Gail's relationship with her Aunt Lily and the accidental death of Alberto's sister, Ana, 30 years before. Two local residents, Huilo, a cemetery groundsman, and Cuki, a hotel maid, deal with their own losses in unusual ways. Slowly, each of their heart-wrenching tales comes to light until, with gorgeous simplicity, all four realize that they are inextricably bound together. Approximate running time: 1 hour, 40 minutes. Area staging.--Publisher's website.

Cuki a través de la Historia María Nieves Angulo Salazar, 2021-04-08 –¡Qué agradable es compartir la vida con Cukín! –exclama doña Trifona cada vez que mira a su chow chow, cómodamente tumbado en su cestita o degustando chuletas y bollitos (manjares apropiados para un perro de capricho, como él dice). –¡Qué horrible es compartir la vida con Cukazo! –regruñe don Esculapio cuando pelea con su perro para obligarlo a salir de paseo o quitarle el mando de la tele. Pero hay algo en lo que sí están de acuerdo don Escu, doña Trifo e incluso Cuki: en que don Genaro Petrusco, un amigo de la familia que siempre se presenta en su casa a las horas de las comidas, es un pelmazo y no hay quien lo aguante... Especialmente desde que ganó en una tómbola una máquina del tiempo en la que los llevará a recorrer algunas de las principales civilizaciones de la Antigüedad.

Proto-Japanese Bjarke Frellesvig, John Whitman, 2008-03-13 Proto-Japanese is the reconstructed language stage from which all later varieties of Japanese, including Ryukyuan, descend. It has been studied both as an end in itself (as the genetic code of the Japanese language) and as part of endeavors to clarify the genetic affiliation of Japanese. Based on the state of the field, especially as represented in Samuel E. Martin's seminal work *The Japanese Language Through Time* (1987), this volume singles out key areas in the reconstruction of proto-Japanese where salient progress has been or promises to be made since Martin. Contributions were invited from scholars working on the following areas: segmental phonology, use of dialect evidence, accent, morphology, and syntax. While the book first of all presents new research which advances our understanding of proto-Japanese, it also gives an overview over the state of the art in the field and its main issues.

Hybrid Imaging and Visualization Joseph Awange, Béla Paláncz, Lajos Völgyesi, 2019-11-27 The book introduces the latest methods and algorithms developed in machine and deep learning (hybrid symbolic-numeric computations, robust statistical techniques for clustering and eliminating data as well as convolutional neural networks) dealing not only with images and the use of computers, but also their applications to visualization tasks generalized by up-to-date points of view. Associated algorithms are deposited on iCloud.

Stars, Cars and Crystal Meth Jack Sutherland, 2016-03-15 Jack Sutherland, the narrator and protagonist of this

memoir has, you might say, led a charmed life in the face of seeming damnation. A confirmed alcoholic in his early teens, by his twenties he was PA and bodyguard to the Hollywood stars most notably Michael Stipe, Ru Paul and Mickey Rourke. His work took him to exotic destinations around the world and bizarre encounters and requests. It also led him back to a smorgasbord of lethal addictions: alcohol, marijuana, ecstasy and perhaps most damaging of all crystal meth and the crazed chem sex that characterises its use. On the shores of death's coastline, a nine stone skeleton in a frame that once boasted the shape and tone of a bodybuilder, Jack is saved. By his father, one of the literary world's most esteemed personalities: John Sutherland. A son's memoir told through the prism and prose of a father will surely take its place among the classics of contemporary addiction and recovery stories like *A Portrait of an Addict as a Young Man* and *Another Bullshit Night in Suck City*. *Stars, Cars & Crystal Meth* lifts the lid on the shadow world of the Hollywood PA with grim but ultimately inspiring honesty.

The Crusades and the Military Orders Zsolt Hunyadi, József Laszlovszky, Central European University. Dept. of Medieval Studies, 2001-01-01 Proceedings of a conference on a theme, the 34 essays by specialists from 15 countries prevent various facets of the struggles waged for the possession of the Holy Land between the 10th and 13th centuries, and of the activities of the military orders elsewhere in Europe.

An Indonesian-English Dictionary John M. Echols, Hassan Shadily, John U. Wolff, 1989 This dictionary is meant primarily as a tool for English speakers who need to know Indonesian and who deal with Indonesian writings. The aim has thus been to give comprehensive coverage to forms a foreigner might run across in Indonesian readings, from this era or from the past, but excluding classical Malay literature, Much of the Indonesian written production (written and otherwise) contains slangy, colloquial, and regional forms, and we have not excluded such forms. On the other hand we have confined the listing of dialectical forms only to those likely to be widely known...The dictionary should also be useful to Indonesians who wish to learn English equivalents of Indonesian words, but it has not been developed primarily for that purpose, because many English words can only be defined by a sequence of Indonesian words. from Introduction.

Business Transformation for a Sustainable Future Samuel Petros Sebhatu, Bo Enquist, Bo Edvardsson, 2021-09-05 Interconnecting the concepts of sustainability, innovation and transformation, this book explains how organizations have successfully transformed themselves and wider society to foster a more sustainable future, and identifies the difficulties and challenges along the way. Part of the Principle of Responsible Management Education (PRME) series, the book promotes a strong voice for meeting sustainability challenges for transformative change in a globalized world through business education and practice. A transition to a more sustainable way of doing business can only be attained by combining technology with profound system innovations and lifestyle changes. The chapters in the book, each written by a strong and well-recognized team of researchers in the field, open up the discussion about a new partnership between sustainability, innovation, and transformation that includes the global society (big world), the biosphere (small planet), and also requires a deep mind shift. The book presents cases from business (including Ikea and Eataly) and other service networks including the Base of the

Pyramid (BoP), and illustrates how these organizations have transformed themselves for a sustainable future. The research perspectives are macro (policies and legislation), meso (institutional practices) and micro (business practices and individual behavior). This book is where research meets real-world business and societal practice. The chapters are grounded in business research, specifically the interdependencies between sustainability, innovation, and transformation, which makes for a robust basis for describing, explaining, and understanding the complex challenges faced by business and society in the 21st century. The book is intended for graduate- and postgraduate-level students and executive education with implications for practitioners. Furthermore, it contributes to multidisciplinary research in the field of interaction between business and society with a view to extending the firm-centric view to encompass a broader, systemic, and dynamic understanding of business and societal transformation.

Hindi Teacher For English Speaking People Ratnakar Narale, 2009-01-01 Hindi is one of the world's main language, with over 650 million speakers in India, and millions more on every continent. There are many primers that teach children who can already speak Hindi-how to read and write their language. As the title Hindi Teacher for English Speaking People suggests, Dr. Ratnakar Narale has written this book with a different audience in mind: English speakers of all ages who want to learn Hindi from scratch. This audience includes many kinds of people: the inhabitants of non-Hindi-speaking parts of India; Canadians, Americans, and West Indians whose ancestors came from India, but whose first language is English. This logically arranged book is filled with virtually thousands of examples, and each dialogue is designed with the view of its practical value for the targeted people. Along the way, hundreds of new words and the frequent exercises let the student learn to speak and write Hindi sentences almost without much effort. This practical 'Teach Yourself' manual closes with exercises in correcting faulty sentences, reading dialogues, telling the time, and writing letters. There are also useful lists of proverbs, synonyms and antonyms, and so on. Dr. Narale has been careful to draw most of the examples from words and concepts that are familiar to Westerners. This emphasizes that Hindi is a world language, and not merely an Indian one. Truly practical, comprehensive and easy to understand reference manual for classroom study to learn Hindi.

Uchumataqu Katja Hanns, 2008 This book is the first comprehensive grammatical description of Uchumataqu, the language of the Uru of Lake Titicaca in north-western Bolivia. Uchumataqu forms part of the isolated language family Uru-Chipaya but has been influenced to differing degrees by Aymara, Quechua, and Spanish. The Uchumataqu language became extinct around 1950. Although several researchers had documented the language during the first half of the twentieth century, much of the material remained unstudied. This book is the first to take into consideration every previous study of the Uchumataqu language. The grammatical description is based on former publications and archive material and seeks to describe Uchumataqu as comprehensively as possible. It includes a description of the phonological system of Uchumataqu as well as a presentation of its morphological processes. The nominal and verbal systems are discussed in detail. Particular attention is paid to the complex person-marking system of Uchumataqu, of which person-marking clitics are a vital part that distinguishes Uchumataqu from the

neighbouring Aymara and Quechua language. Another important issue are nominalisation and subordination strategies as well as adjectives which form a word class of its own. The relationship of Uchumataqu with the surrounding Aymara and Quechua language, and particularly the way in which influence on Uchumataqu was exerted, are described in detail. The appendices contain a transcription of the afore unpublished manuscripts of Max Uhle and Walter Lehmann on Uchumataqu as well as a comparative and diachronic dictionary. This book is aimed at linguists from all disciplines but is of equal interest to anthropologists, Americanists, historical linguists, typologists, and linguists with a special interest in Andean studies. It is not only an important contribution to the study of Andean languages and their interrelationship, but also an account for the descendants of the last Uchumataqu speakers of their lost language.

Loan-Words in Indonesian and Malay Russell Jones, This impressive book is the result of decades of meticulous scholarly work by various specialists with an intimate knowledge of Indonesian, Malay and the foreign languages that provided so many loan-words for Indonesian and Malay. For about 20,000 words the original donor language is given, such as Sanskrit, Arabic, Persian, Chinese, Portuguese, Dutch and English. For all lovers of Indonesian and Malay this book is essential reading that will continue to amaze and enrich you. Loan-words in Indonesian and Malay contains a tremendous wealth of information and is admirable as a consolidated reference work compiled with great precision, and indispensable for anyone interested in the subject.

Serial Verbs Claire Lefebvre, 1991-08-09 The papers in this volume offer several analyses of verb serialization written within various theoretical frameworks: grammatical, comparative and cognitive/functional. They cover a wide range of language families. All authors address two basic questions about verb serialization: First, what is the structure and thematic constitution of the construction? The answers to this question cover the spectrum of the options that are available in current grammatical theory. Second, what aspect of the grammar differentiates between languages which have serial constructions and those which do not? The specific proposals made by the authors are discussed by R. Larson in the concluding paper. Larson opens new perspectives for research on verb serialization by posing the following question: what analogues for verb serialization can be found in the more familiar grammatical apparatus of English? It is suggested that verb serialization finds a clear parallel in the secondary predicate structures of English.
