Tim Johnston

The Current Tim Johnston, 2019-01-22 "The Current is a rare creature: a gripping thriller and page-turner but also a masterwork of mood and language—a meditation on memory and time. You'll want to go fast at the same time you'll be compelled to savor each and every word." —Ivy Pochoda, author of *Wonder Valley* Tim Johnston, whose breakout debut *Descent* was called "astonishing," "dazzling," and "unforgettable" by critics, returns with *The Current*, a tour de force about the indelible impact of a crime on the lives of innocent people. In the dead of winter, outside a small Minnesota town, state troopers pull two young women and their car from the icy Black Root River. One is found downriver, drowned, while the other is found at the scene—half frozen but alive. What happened was no accident, and news of the crime awakens the community's memories of another young woman who lost her life in the same river ten years earlier, and whose killer may still live among them. Determined to find answers, the surviving young woman soon realizes that she's connected to the earlier unsolved case by more than just a river, and the deeper she plunges into her own investigation, the closer she comes to dangerous truths, and to the violence that simmers just below the surface of her hometown. Grief, suspicion, the innocent and the guilty—all stir to life in this cold northern town where a young woman can come home, but still not be safe. Brilliantly plotted and unrelentingly propulsive, *The Current* is a beautifully realized story about the fragility of life, the power of the past, and the need, always, to fight back.

Magnetic Current Edward Leedskalnin, 1945 This writing is lined up so when you read it you look East, and all the description you will read about magnetic current, it will be just as

good for your electricity. Following is the result of my two years' experiment with magnets at Rock Gate, seventeen miles Southwest from Miami, Florida. Between Twenty-fifth and Twenty-sixth Latitude and Eightieth and Eighty-first Longitude west. This book contains all 105 original illustrations and diagrams.

Tide and Current Carol Araki Wyban, 1992-09-01 Tide and Current chronicles ten years in the life of author and artist Carol Araki Wyban, during which she lived with, learned about, and came to love the fishponds of Hawai'i. In lyric prose and art, the book captures the essence of the timeless ecological truths she discovered. The author relates her experiences from the viewpoint of an entrepreneur, but one with a deep commitment to the past and to the legacy given to us by the ancient Hawaiians regarding the use of fishponds as food production systems. Unlike other native cultures that hunted and gathered over vast territories, the Hawaiians developed renewable, sustainable, and comprehensive management of their natural resources in the islands' limited space. They were innovators who took a great step from catching fish to raising fish. With drawings and photographs, tables and graphs, Wyban presents not only the daily routine of life at a commercial fishpond, but also an in-depth look at how the Hawaiians managed their resources, the technology they developed, and the myths, legends, and kapu associated with the fishponds. Their inventiveness has important implications for us today and for nurturing future generations.

The California Current Stan Ulanski, 2016-02-13 The California Current--part of the large, swirling North Pacific gyre--flows slowly southward along the west coast of North America, stretching nearly 2,000 miles from southern British Columbia to the tip of Baja California in Mexico. To a casual observer standing on the shore, the vast current betrays no discernible signs, yet life abounds just over the horizon. Stan Ulanski takes us into the

water on a journey through this magnificent, unique marine ecosystem, illuminating the scientific and biological marvels and the astonishing array of flora and fauna streaming along our Pacific coast. The waters of the California Current yield a complex broth of planktonic organisms that form the base of an elaborate food web that many naturalists have compared to the species-rich Serengeti ecosystem of Africa. Every year, turtles, seals, fish, and seabirds travel great distances to feast in the current's distinct biological oases and feeding sites. Apex predators, such as the California gray whale, humpback whale, salmon shark, and bluefin tuna, undertake extensive north-south migrations within the current to find enough to eat. The California Current energizes us to celebrate and protect a marine ecosystem integral to the myriad fisheries, coastal communities, and cultures of the Pacific coast.

Testing the Current William McPherson,2013-01-08 Growing up in a small upper Midwestern town in the late 1930s, young Tommy MacAllister is scarcely aware of the Depression, much less the rumblings of war in Europe. For his parents and their set, life seems to revolve around dinners and dancing at the country club, tennis dates and rounds of golf, holiday parties, summers on the Island, and sparkling occasions full of people and drinks and food and laughter. But curious as he is and impatient to grow up, Tommy will soon come to glimpse the darkness that lies beneath so much genteel complacency: hidden histories and embarrassing poor relations; the subtle (and not so subtle) slighting of the “help”; the mockery of President Roosevelt; and “the commandment they talked least about in Sunday school,” adultery. In *Testing the Current* William McPherson subtly sets off

his wide-eyed protagonist's perspective with mature reflection and wry humor and surrounds him with a cast of vibrant characters, creating a scrupulously observed portrait of a place and time that will shimmer in readers' minds long after the final page is turned.

Descent Tim Johnston, 2015-01-06 A Breakout NEW YORK TIMES Bestseller A USA Today Bestseller An Indie National Bestseller "Outstanding . . . The days when you had to choose between a great story and a great piece of writing? Gone." —Esquire "The story unfolds brilliantly, always surprisingly . . . The magic of his prose equals the horror of Johnston's story; each somehow enhances the other . . . Read this astonishing novel." —The Washington Post "Tim Johnston's high-wire literary thriller . . . will leave you gasping." —Vanity Fair "A riveting literary thriller of the can't-stop-turning-the-page, stay-up-all-night variety." —Alice LaPlante, author of *A Circle of Wives* The Rocky Mountains have cast their spell over the Courtlands, a young family from the plains taking a last summer vacation before their daughter begins college. For eighteen-year-old Caitlin, the mountains loom as the ultimate test of her runner's heart, while her parents hope that so much beauty, so much grandeur, will somehow repair a damaged marriage. But when Caitlin and her younger brother, Sean, go out for an early morning run and only Sean returns, the mountains become as terrifying as they are majestic, as suddenly this family find themselves living the kind of nightmare they've only read about in headlines or seen on TV. As their world comes undone, the Courtlands are drawn into a vortex of dread and recrimination. Why weren't they more careful? What has happened to their daughter? Is she alive? Will they ever know? Caitlin's disappearance, all the more devastating for its mystery, is the beginning of the family's harrowing journey down increasingly divergent

and solitary paths until all that continues to bind them together are the questions they can never bring themselves to ask: At what point does a family stop searching? At what point will a girl stop fighting for her life? Written with a precision that captures every emotion, every moment of fear, as each member of the family searches for answers, *Descent* is a perfectly crafted thriller that races like an avalanche toward its heart-pounding conclusion, and heralds the arrival of a master storyteller.

The Humboldt Current Aaron Sachs, 2007-07-31 A masterly and beautifully written account of the impact of Alexander von Humboldt on nineteenth-century American history and culture The naturalist and explorer Alexander von Humboldt (1769-1859) achieved unparalleled fame in his own time. Today, however, he and his enormous legacy to American thought are virtually unknown. In *The Humboldt Current*, Aaron Sachs traces Humboldt's pervasive influence on American history through examining the work of four explorers—J. N. Reynolds, Clarence King, George Wallace, and John Muir—who embraced Humboldt's idea of a chain of connection uniting all peoples and all environments. A skillful blend of narrative and interpretation that also discusses Humboldt's influence on Emerson, Whitman, Thoreau, Melville, and Poe, *The Humboldt Current* offers a colorful, passionate, and superbly written reinterpretation of nineteenth-century American history.

Breaking Into the Current Louise Teal, 2016-12-15 In 1973, Marilyn Sayre gave up her job as a computer programmer and became the first woman in twenty years to run a commercial boat through the Grand Canyon. Georgie White had been the first, back in the 1950s, but it took time before other women broke into guiding passengers down the Colorado River. This book profiles eleven of the first full-season Grand Canyon boatwomen,

weaving together their various experiences in their own words. Breaking Into the Current is a story of romance between women and a place. Each woman tells a part of every Canyon boatwoman's story: when Marilyn Sayre talks about leaving the Canyon, when Ellen Tibbets speaks of crew camaraderie, or when Martha Clark recalls the thrill of white water, each tells how all were involved in the same romance. All the boatwomen have stories to tell of how they first came to the Canyon and why they stayed. Some speak of how they balanced their passion for being in the Canyon against the frustration of working in a traditionally male-oriented occupation, where today women account for about fifteen percent of the Canyon's commercial river guides. As river guides in love with the Canyon and their work, these women have followed their hearts. I've done a lot, says Becca Lawton, but there's been nothing like holding those oars in my hands and putting my boat exactly where I wanted it. Nothing.

The Current Economy Canay Özden-Schilling, 2021-06-15 Electricity is a quirky commodity: more often than not, it cannot be stored, easily transported, or imported from overseas. Before lighting up our homes, it changes hands through specialized electricity markets that rely on engineering expertise to trade competitively while respecting the physical requirements of the electric grid. *The Current Economy* is an ethnography of electricity markets in the United States that shows the heterogenous and technologically inflected nature of economic expertise today. Based on ethnographic fieldwork among

market data analysts, electric grid engineers, and citizen activists, this book provides a deep dive into the convoluted economy of electricity and its reverberations throughout daily life. Canay Özden-Schilling argues that many of the economic formations in everyday life come from work cultures rarely suspected of doing economic work: cultures of science, technology, and engineering that often do not have a claim to economic theory or practice, yet nonetheless dictate forms of economic activity. Contributing to economic anthropology, science and technology studies, energy studies, and the anthropology of expertise, this book is a map of the everyday infrastructures of economy and energy into which we are plugged as denizens of a technological world.

Catching the Current Jenny Patrick,2012-05-01 A terrific historical novel full of compelling events, vivid communities and the irresistible character of Conrad Rasmussen. In this companion novel to the bestselling Denniston novels, the free spirit is pitted against the forces of tradition. On the run from an unfortunate 'indiscretion', young Conrad Rasmussen finds refuge in the North Island of New Zealand under the employ of the famous (or notorious) Dane, Bishop Monrad. However Conrad - a talented and impetuous Faroeman, known in bestselling author Jenny Patrick's Denniston novels as Con the Brake - finds he cannot escape his past. This is Conrad's story, and that of the unusual woman

Anahuia. It is a tale of new lands and old songs, of seafaring and war and the search for love. It is also the story of the Faroe Islands and of Denmark's early connection with New Zealand.
