When they return, all bets are off as the Prophet exercises his control. Born into a polygamous community in the foothills of New Mexico, Gentry Forrester feels lucky to live among God’s chosen. Here, she lives apart from the outside world and its “evils.” On her thirteenth birthday, Gentry receives a new violin from her father and, more than anything, she wants to play at the Santa Fe Music Festival with her brother, Tanner. But then the Prophet calls from prison and announces he has outlawed music in their community and now forbids women to leave. Determined to play, Gentry and Tanner sneak out. But once they return, the Prophet exercises control from prison, and it has devastating consequences for Gentry and her family. Soon, everything Gentry has known is turned upside down. She begins to question the Prophet’s teachings and his revelations, especially when his latest orders put Gentry’s family in danger. Can Gentry find a way to protect herself and her family from the Prophet and escape the only life she’s ever known? This realistic, powerful story of family, bravery, and following your dreams is a can't-miss debut novel from Melanie Sumrow.

**A Monster Calls** Patrick Ness,Siobhan Dowd,2013-08-27 NOW A #1 NEW YORK TIMES BESTSELLER! An unflinching, darkly funny, and deeply moving story of a boy, his seriously ill mother, and an unexpected monstrous visitor. At seven minutes past midnight, thirteen-year-old Conor wakes to find a monster outside his bedroom window. But it isn’t the monster Conor’s been expecting-- he’s been expecting the one from his nightmare, the nightmare he’s had nearly every night since his mother started her treatments. The monster in his backyard is different. It’s ancient. And wild. And it wants something from Conor. Something terrible and dangerous. It wants the truth. From the final idea of award-winning author Siobhan Dowd-- whose premature death from cancer prevented her from writing it herself-- Patrick Ness has spun a haunting and darkly funny novel of mischief, loss, and monsters both real and imagined.

**The Call** Craig R. Smith,Michael Hyde,2022-01-01 This book is a unique examination of the phenomenon of the call. Characterizing the call as a rhetorical event, the book identifies how speakers can use eloquence in the service of truth. Authors Craig R. Smith and Michael J. Hyde offer the rare combination of a phenomenology of the call linked closely to eloquence and explore this linkage by examining the components of eloquence, including examples of its misuse by George W. Bush and Donald Trump. The bulk of the text examines case studies of eloquence in the service of truth including epideictic, forensic, and deliberative eloquence, with examples drawn from addresses by Barack Obama, Daniel Webster, Ronald Reagan, Margaret Chase Smith, Susan Collins, and Mitt Romney. The authors also examine the Epistles of St. Paul, the writings of St. Augustine, and the preaching of Jonathan Edwards. Finally, the book explores eloquence in filmic narratives and dialogic communication between artists and writers, concluding with a study of the sublime and how it is evoked with awe using the work of Annie Dillard.

**When the President Calls** Simon W. Bowmaker,2019-10-15 Interviews with thirty-five economic policymakers who advised presidents from Nixon to Trump. What is it like to sit in the Oval Office and discuss policy with the president? To know that the decisions made will affect hundreds of millions of people? To know that the wrong advice could be calamitous? When the President Calls presents interviews with thirty-five economic policymakers who served presidents from Nixon to Trump. These officials worked in the executive branch in a variety of capacities—the Council of Economic Advisers, the Office of Management and Budget, the Department of the Treasury, and the National Economic Council—but all had direct access to the policymaking process and can offer insights about the difficult tradeoffs made on economic policy. The interviews shed new light, for example, on the thinking behind the Reagan tax cuts, the economic factors that cost George H. W. Bush a second term, the constraints facing policymakers during the financial crisis of 2008, the differences in work styles between Bill Clinton and Barack Obama, and the Trump administration's early budget process. When the President Calls offers a unique, behind-the-scenes perspective on US economic

policymaking, with specific and personal detail—the turmoil, the personality clashes, the enormous pressure of trying to do the right thing while the clock is ticking. Interviews with Nicholas F. Brady, Lael Brainard, W. Michael Blumenthal, Michael J. Boskin, Stuart E. Eizenstat, Martin S. Feldstein, Stephen Friedman, Jason Furman, Austan D. Goolsbee, Alan Greenspan, Kevin A. Hassett, R. Glenn Hubbard, Alan B. Krueger, Arthur B. Laffer, Edward P. Lazear, Jacob J. Lew, N. Gregory Mankiw, David C. Mulford, John Michael Mulvaney, Paul H. O'Neill, Peter R. Orszag, Henry M. Paulson, Alice M. Rivlin, Harvey S. Rosen, Robert E. Rubin, George P. Shultz, Charles L. Schultze, John W. Snow, Gene B. Sperling, Joseph E. Stiglitz, Lawrence H. Summers, John B. Taylor, Paul A. Volcker, Murray L. Weidenbaum, Janet L. Yellen

*When Heaven Calls* Matt Fraser,2021-11-23 America’s top psychic medium reflects on his life of speaking to Spirit and the lessons he’s learned along the way—from both the living and the dead. Matt Fraser is just an ordinary guy...who happens to talk to dead people. Born into a psychic family, Matt carries on the legacy passed down from his late Grandmother Mary by connecting people to their dearly departed loved ones and delivering messages from the other side. His sold-out live group readings, television appearances, and private readings have allowed him to bring hope and healing to fans from around the world. But people who are not in the habit of talking with the dead have a hard time imagining what his day-to-day life is like. Based on the questions he gets, they seem to think he spends most of his time sitting cross-legged in a trance, maybe hovering a few inches off the ground, leaving his physical body behind as he journeys across the veil to the spirit realm. But it’s not like that at all. Now, in *When Heaven Calls*, Matt opens up about it’s really like to be a psychic medium—including how he discovered his spiritual gift, what it’s like to connect with souls on the other side, what communicating with the dead has taught him about embracing life, and how you can tap into your own intuitive awareness to manifest your dreams, goals, and desires.

**Cold Calls** Charles Benoit,2014 While on suspension, Shelly, Eric, and Fatima, who have nothing else in common, try to identify and stop the person who blackmailed each of them by phone to perform very specific acts of bullying at their high schools.

Calling Bullshit Carl T. Bergstrom,Jevin D. West,2021-04-20 Bullshit isn’t what it used to be. Now, two science professors give us the tools to dismantle misinformation and think clearly in a world of fake news and bad data. “A modern classic . . . a straight-talking survival guide to the mean streets of a dying democracy and a global pandemic.”—Wired Misinformation, disinformation, and fake news abound and it’s increasingly difficult to know what’s true. Our media environment has become hyperpartisan. Science is conducted by press release. Startup culture elevates bullshit to high art. We are fairly well equipped to spot the sort of old-school bullshit that is based in fancy rhetoric and weasel words, but most of us don’t feel qualified to challenge the avalanche of new-school bullshit presented in the language of math, science, or statistics. In *Calling Bullshit*, Professors Carl Bergstrom and Jevin West give us a set of powerful tools to cut through the most intimidating data. You don’t need a lot of technical expertise to call out problems with data. Are the numbers or results too good or too dramatic to be true? Is the claim comparing like with like? Is it confirming your personal bias? Drawing on a deep well of expertise in statistics and computational biology, Bergstrom and West exuberantly unpack examples of selection bias and muddled data visualization, distinguish between correlation and causation, and examine the susceptibility of science to modern bullshit. We have always needed people who call bullshit when necessary, whether within a circle of friends, a community of scholars, or the citizenry of a nation. Now that bullshit has evolved, we need to relearn the art of skepticism.
