Catcher Peter Morris,2009-04-16 Today the baseball catcher is a familiar but uninspiring figure. Decked out in the so-called tools of ignorance, he stolidly goes about his duty without attracting much attention. But it wasn't always that way, as Peter Morris shows in this lively and original study. In baseball's early days, catchers stood a safe distance back of the batter. Then the introduction of the curveball in the 1870s led them to move up directly behind home plate, even though they still wore no gloves or protective equipment. Extraordinary courage became the catcher's most notable requirement, but the new positioning also demanded that the catcher have lightning-fast reflexes, great hands, and a cannon for a throwing arm. With so great a range of needed skills, a special mystique came to surround the position, and it began to seem that a good catcher could single-handedly make the difference between winning and losing.

Backstop William F. McNeil,2005-12-13 It's often said that catcher is the most important, most demanding defensive position in baseball. This view explains why so many light-hitting catchers have enjoyed long--and by all accounts successful--major league careers. Yet arguments over the all-time greats invariably privilege offensive standouts, and even among these players batting statistics are more likely than fielding numbers to affect ranking. So what, historically, have been the expectations for major league catchers, and who stands as the greatest in a more balanced view of offensive and defensive contributions? In Part I of this book, the history of catching and catchers is discussed in detail, with attention to the most celebrated players of each era. In Part II, the author employs sabermetric formulas to rank the 50 greatest catchers since 1920, when changes to the rules, the parks, and the ball dramatically changed the way baseball was played. Also included is a chapter on catchers of the 19th century, deadball era, and Negro Leagues, whose career statistics are either incomplete, inaccurate, or produced under markedly different playing conditions and rules.

Gabby Hartnett William F. McNeil,2015-02-18 Gabby Harnett is believed by many to be the greatest catcher of all time. This work chronicles Hartnett's life from his early years in Millville, Massachusetts, through his twenty-year career with the Chicago Cubs as player and manager, his time in various capacities in the minor leagues and with the New York Giants and Kansas City Athletics, to his post-major league career as a businessman in Chicago. His childhood, early baseball experiences with the local team and with a nearby prep school, and his first professional baseball season with the Worcester Boosters of the Eastern League are covered in detail. Hartnett's major league career as the catcher for the Cubs is well-documented, including his near career-ending arm injury in 1929, the 1932 World Series that featured Babe Ruth's legendary called shot, and Hartnett's famous homer in the gloamin against the Pittsburgh Pirates that propelled Chicago to the 1938 National League pennant. The author also compares Hartnett's statistics to those of his famous contemporaries, Mickey Cochrane and Bill Dickey, on a year-by-year basis.

The Cy Young Catcher Doug Wedge,Charlie O'Brien,2015-03-10 During fifteen seasons in the major leagues, Charlie O'Brien was battery-mate to thirteen pitchers who won the Cy Young Award, presented each year by the Baseball Writers Association of America. To put that accomplishment in perspective, Hall of Fame catchers Johnny Bench and Yogi Berra each worked with only one Cy Young winner during their careers. Legendary hurlers caught by O'Brien include such greats as Roger Clemens, Dwight Gooden, Bret Saberhagen, and Steve Bedrosian. O'Brien's The Cy Young Catcher, written with Doug Wedge, includes up-close views of the thirteen Cy Young Award-winning pitchers at their best . . . and occasionally at their worst. O'Brien shares an inside perspective on how catchers talk to umpires, what it's like to be on the receiving end of a 90-mph fastball, and how it feels to be in a clutch situation when the World Series is on the line. This authentic, down-to-earth memoir will not only delight baseball fans of all stripes, it will also provide keen insights into what separates the game's greatest competitors from the also-rans.

The Catcher in the Rye J. D. Salinger,2010 The Catcher in Rye is the ultimate novel for disaffected youth, but it's relevant to all ages. The story is told by Holden Caulfield, a seventeen- year-old dropout who has just been kicked out of his fourth school. Throughout, Holden dissects the 'phony' aspects of society, and the 'phonies' themselves- the headmaster whose affability depends on the wealth of the parents, his roommate who scores with girls using sickly-sweet affection. Lazy in style, full of slang and swear words, it's a novel whose interest and appeal comes from its observations rather than its plot intrigues (in conventional terms, there is hardly any plot at all). Salinger's style creates an effect of conversation, it is as though Holden is speaking to you personally, as though you too have seen through the pretences of the American Dream and are growing up unable to see

the point of living in, or contributing to, the society around you. Written with the clarity of a boy leaving childhood, it deals with society, love, loss, and expectations without ever falling into the clutch of a cliché

Josh Gibson Hallie Murray,2019-07-15 Josh Gibson, sometimes known as the black Babe Ruth for his skill at bat, was a power hitter and catcher in the Negro Leagues. He played on the Homestead Grays and Pittsburgh Crawfords between 1930 and 1946. Gibson died tragically from a brain tumor in 1947, just months before Jackie Robinson broke the baseball color barrier. Though he was never able to join an MLB team due to discrimination, Gibson is often considered to have been one of the best catchers and sluggers in baseball's history.

Catcher's Keeper J. D. Spero,2014-03-01 What if Holden Caulfield was around when John Lennon was shot?In 1980 John Lennon was killed by Mark David Chapman, who believed he was Holden Caulfield, narrator of the classic *The Catcher in the Rye*. After the shooting, Chapman remained on the scene calmly reading the book, which he later offered to police as his statement. *Catcher's Keeper* asks the question, “What if Holden could have met Chapman, learned of his plan, and tried to prevent the assassination?”
