Wishnia,2014-08-14 Slices of life beyond the tourist's view. By turns funny, tough, and somber, the twenty-one helpings of New York attitude in Fresh Slices reveal neighborhoods both rich and poor, where old-timers desperately protect their secrets and brand-new arrivals indulge dangerous appetites. There is as much variety in the tones, settings, and approaches as in Gotham itself, and yet each of these crime stories also reflects the city's most infectious and unifying principle, that special combination of adaptability and assertiveness dished out more often than any pizza or street meat. In this, Fresh Slices' second edition, urban short stories offer action-packed mystery that moves from cozy to noir. The sleuths, police officers and investigators who grapple with crime in these pages are richly drawn and engagingly authentic. Written by local members of the New York / Tri-State chapter of Sisters in Crime the anthology and edited by Agatha nominee Terrie Farley Moran, Fresh Slices is second in the Murder New York series and features tales from the most ethnically diverse and densely populated city in America.

Recognition Axel Honneth,2020-10-22 The idea that we are mutually dependent on the recognition of our peers is at least as old as modernity. Across Europe, this idea has been understood in different ways from the very beginning, according to each country's different cultural and political conditions. This stimulating study explores the complex history and multiple associations of the idea of 'Recognition' in Britain, France and Germany. Demonstrating the role of 'recognition' in the production of important political ideas, Axel Honneth explores how our dependence on the recognition of others is sometimes viewed as the source of all modern, egalitarian morality, sometimes as a means for fostering socially beneficial behavior, and sometimes as a threat to 'true' individuality. By exploring this fundamental concept in our modern political and social self-understanding, Honneth thus offers an alternative view of the philosophical discourse of modernity.
