Theodor Christlieb

Christian America? Christian Smith, 2000 This extensive study of American evangelicals explores the beliefs, values, commitments and goals of the ordinary men and women who make up this often misunderstood religious group.

What Is Christianity? Gail Ramshaw, 2013-07-01 With over twenty years in the classroom, Gail Ramshaw frames this new introduction to Christianity survey text around the basic questions students ask. Taking a broad social-scientific approach and integrating historical context, she anchors each chapter in phenomenological theory and teases out the answers to each chapters question by surveying the history, doctrine, practices, and convictions of Christianity. Written for students with little to no background in Christianity, the book contains student-friendly learning helps including chapter summaries, photos and charts, I am a Christian statements that illustrate the diversity of practice and belief, study questions, suggestions for further exploration in both books and film, a glossary, and an index.

What's the Least I Can Believe and Still be a Christian?

Martin Thielen, 2013-01-01 Pastor and author Martin Thielen has compiled a list of ten things people need to believe, and ten things they don't, in order to be a Christian. This lively and engaging book will be a help to seekers as well as a comfort to believers who may find themselves questioning some of the assumptions they grew up with. With an accessible, storytelling style that's grounded in solid biblical scholarship, Thielen shows how Christians don't need to believe that sinners will be left behind to burn in hell or that it's heresy to believe in evolution. And while we must always take the Bible seriously, we don't always have to take it literally. At the same time, Christians do need to believe in Jesus-his life, his teachings, his death and resurrection, and his vision for the world. A great benefit of those beliefs is that they provide promising answers to life's most profound questions, including: Where is God? What matters most? What brings fulfillment? What

about suffering? Is there hope? Thielen articulates centrist, mainline Christianity in a way that's fresh and easy to understand, and offers authentic Christian insights that speak to our deepest needs. This new edition includes a leader's guide, previously only available online, and a new introduction from the author that reflects on the book's reception. The leader's guide features unique and easily implemented aids for carrying out a seven-week, congregation-wide initiative that will help local churches reach out to their communities. Christian Socialism Philip Turner, 2022-05-26 Christian Socialism arose in England in the mid-nineteenth century as a response to the philosophy of 'political economy' - now commonly called neoliberalism. Seeking not institutional change or nationalisation, but a reform of the moral underpinnings of society, it refuted the assumption that people are essentially selfish, competitive individuals seeking nothing but personal happiness. Although they did not deny the presence of selfishness, its proponents believed that the social nature of humankind lies deeper than such egotism and conflict, and pursued a society built on this belief. Less prominent now than at the time of its inception, Christian Socialism nevertheless continues into the twenty-first century, its goal nothing less than a new society built upon the virtues of equality, fellowship, cooperation, service and justice. Philip Turner's careful exposition traces the history of this strand of Anglican political thought and restores confidence in its message for the future.

Rooted and Grounded Steven Croft ,2019-08-30 Beginning in New Testament times, there is a time-honoured tradition of forming new Christians in the essentials of faith: catechesis. This volume aims to uncover the riches of this tradition for all who teach and preach the faith today, and well as animate it: St Augustine wrote that joy should be the prime characteristic of those who teach the faith. Six outstanding theologians and

historians open up the tradition of catechesis for today's church: • Alister McGrath explores the role of the creeds in catechesis; • Susan Gillingham, Professor of the Hebrew Bible, looks at the Psalms in Christian formation; • Jennifer Strawbridge, Associate Professor of New Testament, reflects on catechesis in the early church; • Carole Harrison, Lady Margaret Professor of Divinity, offers lessons from the patristic period; • Sarah Foot, Regius Professor of Ecclesiastical History, draws lessons from the Anglo Saxon missions to Europe; • Simon Jones, Chaplain of Merton College and member of the Liturgical Commission, links formation and liturgy; • Steven Croft shows how this great tradition can be revitalised today.

CHRISTIAN RELIGION.,1840

Lit! Tony Reinke,2011-09-09 I love to read. I hate to read. I don't have time to read. I only read Christian books. I'm not good at reading. There's too much to read. Chances are, you've thought or said one of these exact phrases before because reading is important and in many ways unavoidable. Learn how to better read, what to read, when to read, and why you should read with this helpful guide from accomplished reader Tony Reinke. Offered here is a theology for reading and practical suggestions for reading widely, reading well, and for making it all worthwhile.

Early Christian Letters for Everyone Wright Tom,2011-11-15 Writing in an accessible and anecdotal style, Tom Wright opens up to us the wisdom of the letters of James, Peter, John and Judah (Jude). A vital resource for every church and every Christian, these letters are full of clear practical advice for Christians. Written for those new to the faith, they warn of the dangers and difficulties a young Christian community would face both within and without, while revelling in the delight of budding faith, hope and life. Today, these letters are just as relevant as they were two thousand years ago. They continue to help Christians to live with genuine faith in a complex modern age.

Art, Craft, and Theology in Fourth-Century Christian Authors Morwenna Ludlow,2020-10 Art, Craft, and Theology in Fourth-Century Christian Authors analyses Christian Greek literature in the fourth century in order to emphasise the style, ingenuity, and craftsmanship demonstrated by the authors of such texts. It considers the way these 'wordsmiths' used classical literature techniques to strengthen their theological writings.

Testimony Thomas G. Long,2004-08-10 In this groundbreaking book, Thomas G. Long—a theologian and

respected authority on preaching—explores how Christians talk when they are not in church. Testimony breaks the stained-glass image of religious language to show how ordinary talking in our everyday lives— talk across the backyard fence, talk with our kids, talk about politics and the events of the day—can be sacred speech. In a world of spin, slick marketing, mindless chatter, and easy deceptions, Testimony shows that the hunger for truthful, meaningful, and compassionate speech is ultimately grounded in truth about God.

Christians and Evolution R J Berry, 2014-11-19 The debate surrounding creation and evolution divides Christians, particularly evangelicals. It has been a stumbling block for young Christians and a point of contention for the new Atheists. Professor R. J Berry assembles a wide range of distinguished contributors, all convinced, committed and orthodox Christian believers, each of whom has undertaken a conceptual journey, based on sound science and careful theology, from a creationist position to one in which God's creation and the processes of evolution are properly and credibly integrated. Christians and Evolution is a luminous volume that offers a pathway for doubters, sceptics and conservative Christians to embrace the overall scientific consensus of the evolutionary approach, while holding solidly and without reservation to the doctrines of God's creation and God's omnipotence. This text is a must-read for anyone interested in the creation v evolution debate.

A Theology of Christian Counseling Jay E. Adams, 2010-08-10 Connecting sound biblical doctrine to the practice of effective counseling. Jay E. Adams—vocal advocate of a strictly biblical approach to counseling and author of the highly influential book *Competent to Counsel*—firmly believes that the Bible itself provides all the principles needed for understanding and engaging in holistic counseling. But in order to bring the practice of counseling—whether by professional therapists or by the church—under biblical guidance, we first have to deepen our

understanding of Scripture. A Theology of Christian Counseling is the connection between solid theology (the study of God) and its practical application. Each of its sections are devoted to increasing our understanding of counseling's potential by looking at it through the lens of doctrines such as: Prayer (and the doctrine of God). Human Sin (and the doctrine of Man). Redemption (and the doctrine of Salvation). Forgiveness (and the doctrine of Sanctification). No counseling system that is based on some other foundation can begin to offer what Christian counseling offers...No matter what the problem is, no matter how greatly sin has abounded, the Christian counselor's stance is struck by the far-more-abounding nature of the grace of Jesus Christ in redemption. What a difference this makes in counseling! (Jay E. Adams). With this book, you'll gain insight into the rich theological framework that supports and directs your approach to how you help people change.

Knowing Who You Are Malcolm J. Gill, 2015-06-10

Throughout the history of the church, many excellent books have been written addressing the theological significance of Christian identity. Such works have delineated important doctrines such as adoption, justification, and sanctification. While these studies of being in Christ have been fruitful, and numerous, they have often neglected one of the most useful tools in understanding Christian identity, namely, the use of metaphor. A search of Scripture reveals that Jesus and his apostles frequently utilized images from everyday life to illustrate spiritual truths about our identity. In this fresh work, *Knowing Who You Are* invites the reader to explore eight lesser-known images of Christian identity found in the New Testament. Among others, the author investigates how being a Christian is like being a boxer in ancient Corinth, a citizen in Philippi, a farmer in Galilee, and a sheep in a flock. This engaging assessment of first-century images will draw the reader in and leave them challenged, encouraged, and often surprised as they discover afresh what it means to be Christian.

Pilgrim The Commandments Sharon Ely Pearson,Robert Atwell,Paula Gooder,Steven Croft,Stephen Cottrell,2016-03-01
Pilgrim is a teaching and discipleship resource that helps inquirers and new Christians explore what it means to travel through life with Christ. A Christian course for the twenty-first century, Pilgrim offers an approach of participation, not persuasion. Following the practice of the ancient disciplines of biblical reflection and prayer with quotes from the Christian tradition throughout the ages, Pilgrim assumes little or no knowledge of the Christian faith. Individuals or small groups on the journey of discipleship in the Episcopal tradition can use Pilgrim at any point. There are many different aspects to helping people learn about the Christian faith. We have taken as our starting point Jesus' summary of the commandments. We are called to offer our lives to God through loving God with all our mind, soul, strength, and heart, and to love our neighbor as ourselves. Learning about Christian faith and growing in Christian faith is about more than what we believe. It's also about the ways in which we pray and develop our relationship with God, about the way we live our lives and about living in God's vision for the Church and for the world. Course 3. The Commandments: Following Jesus is about the way we behave as well as what we believe. So how should Christians behave and how should we live? This part of Pilgrim explores that question through one of the core texts of the Christian faith: the Commandments. We look in Session 1 at the two commandments Jesus uses to summarize the whole of the Old Testament law: the call to love God and to love our neighbor as ourselves. In Sessions 2-6, we explore the Ten Commandments themselves.

Confronting a Controlling God Catherine M.

Wallace,2016-08-24 Christianity has lost control of its brand. That matters even for nonbelievers because Christian symbolism

permeates Western culture. It shapes the source code for how we think about ourselves and what we expect from one another. If God is all-controlling, then human control is divinely sanctioned. Our efforts to control one another have cosmic legitimacy--the legitimacy claimed by fundamentalists pursuing a political agenda that has nothing to do with Jesus of Nazareth. But if God is defined as compassion and loving-kindness, then Christianity calls the faithful to compassion and radical hospitality. Wallace traces the backstory of this vitally important tension all the way back to competing translations of Moses's argument with the burning bush, arguing for a Copernican turn in which the spiritual encounter with compassionate Presence lies at the heart of Christianity.
