**Carl Sagan**

*Contact* Carl Sagan, 2016-12-20 Pulitzer Prize-winning author and astronomer Carl Sagan imagines the greatest adventure of all—the discovery of an advanced civilization in the depths of space. In December of 1999, a multinational team journeys out to the stars, to the most awesome encounter in human history. Who—or what—is out there? In *Cosmos*, Carl Sagan explained the universe. In *Contact*, he predicts its future—and our own.

**Emergency Contact** Mary H. K. Choi, 2019-04-09 “Smart and funny, with characters so real and vulnerable, you want to send them care packages. I loved this book.” —Rainbow Rowell From debut author Mary H.K. Choi comes a compulsively readable novel that shows young love in all its awkward glory—perfect for fans of *Eleanor & Park* and *To All the Boys I’ve Loved Before*. For Penny Lee, high school was a total nonevent. Her friends were okay, her grades were fine, and while she’d somehow landed a boyfriend, they never managed to know much about each other. Now Penny is heading to college in Austin, Texas, to learn how to become a writer. It’s seventy-nine miles and a zillion light years away from everything she can’t wait to leave behind. Sam’s stuck. Literally, figuratively, emotionally, financially. He works at a café and sleeps there too, on a mattress on the floor of an empty storage room upstairs. He knows that this is the god-awful chapter of his life that will serve as inspiration for when he’s a famous movie director but right this second the seventeen bucks in his checking account and his dying laptop are really testing him. When Sam and Penny cross paths it’s less meet-cute and more a collision of unbearable awkwardness. Still, they swap numbers and stay in touch—via text—and soon become digitally inseparable, sharing their deepest anxieties and secret dreams without the humiliating weirdness of having to, you know, see each other.

*Contact!: A Book of Encounters* Jan Morris, 2010-04-19 A delightful and hilarious companion for anyone taking a trip and an indispensable work for any fan of Jan Morris. With her travel chronicles unparalleled in twentieth-century literature, Jan Morris’s legendary books on Venice, Manhattan, and Trieste have made her one of our most beloved writers. Now reflecting back on over half a century, Morris has decided to write not about the destinations but about the people she has encountered. Whether writing as James or later as Jan, Morris introduces us to a panoply of memorable characters—the Sherpa guide who first scaled Mt. Everest, the lascivious Manhattan cabbie, and the proverbial spy in the raincoat. She provides insightful portraits of the famous, such as Harry Truman and Jordan’s King Hussein, and glimpses of the infamous, including Adolf Eichmann. Recalling human encounters on six continents, she paints a vibrant, funny, and moving picture of humanity. Ultimately, no figure comes into clearer focus than Morris herself, an astonishing chronicler of the human spectacle. *Contact!* is one book you’ll want to carry with you wherever you go.

**Full-Contact Leadership** Edward Flood, Anthony Avillo, 2017-07-17 Full-Contact Leadership is written for men and women who hold leadership positions or aspire to leadership roles in the fire service. There are many leadership positions in the fire service, but not all of them are held by leaders. Leadership has very little to do with the color of your helmet, the bling on your collar, the stripes on your sleeve, the title on your door, the order of march, or the crease in your pants. Full-contact leadership is a commitment to drawing out the very best within others and allowing the very best in others to be expressed as excellence. Full-contact leadership is a career-long, ever-challenging, never-ending, self-initiated, self-sustained personal research, development, and improvement program. Full-contact leadership is never about you; it’s always about them. In *Full-Contact Leadership*, Chiefs Flood and Avillo examine what makes a leader and, more importantly, what makes a leader effective in today’s fire service. This text discusses the various types of leaders, how they

communicate, discipline, delegate, motivate, and set expectations for the people they lead. Flood and Avillo also take a hard look at what hinders or blocks effective leadership and what steps to take to foster and instill leadership in your department.

**Illegal Contact** Santino Hassell, 2017-08-15 The rules of the game don't apply off the field in this first Barons novel. New York Barons tight end Gavin Brawley is suspended from the team and on house arrest after a video of him brawling goes viral. Gavin already has a reputation as a jerk with a temper on and off the field—which doesn't help him once he finds himself on the wrong side of the law. And while he's been successful professionally, he's never been lucky when it comes to love. Noah Monroe is a recent college grad looking for a job—any job—to pay off his mounting student debt. Working as Gavin's personal assistant/babysitter seems like easy money. But Noah isn't prepared for the electrifying tension between him and the football player. He's not sure if he'd rather argue with Gavin or tackle him to the floor. But both men know the score, and neither is sure what will happen once Gavin's timeout is over...

Making Contact Alan Steinfeld, 2021-05-04 I feel it is one of the best approaches I have found to grasp the most jarring enigma humanity has ever faced. —George Noory, host of Coast to Coast AM “We cannot separate the earth from its greater cosmic environment. What is needed is a new story and Alan Steinfeld's Making Contact is part of that story.” —Deepak Chopra, Author, Total Meditation How can we prepare for an event that is literally beyond anything humanity has ever faced? Making Contact presents multiple perspectives on what no longer can be denied: UFOs and their occupants are visiting our world. The book answers questions which remain in the wake of the recent Pentagon's disclosures as to who and why these beings are here. The volume contains original writings by the leading experts of the phenomena such as: Linda Moulton Howe, Earthfiles reporter, Whitley Strieber best-selling author of Communion, Professor John E. Mack, former head of the Harvard Medical school of psychiatry and an alien abduction investigator, Darryl Anka internationally known for his communication with the extraterrestrial Bashar, Nick Pope, former UK Ministry of Defense UFO investigator, Grant Cameron expert on American presidents and UFOs, Drs. J.J. and Desiree Hurtak, globalists and founders of the worldwide organization, The Academy for Future Science, Caroline Cory, director of Superhuman and ET: Contact, Mary Rodwell, author of the New Human about star-seed children, Henrietta Weekes, actress and writer, expressing the poetic aspects of making contact. Alan Steinfeld, contributes and curates the collection with 30 years of experience with the subject. The Foreword by George Noory of Coast to Coast AM kicks off the volume with his veteran overview of the need to wake up to the “new realities of extraterrestrial existence.” At this critical juncture in the government's official acknowledgement of the reality of UFOs/UAPs, scientists, politicians and mainstream news outlets have no idea what to make of these startling revelations or the outpouring of sightings and “contact” experiences currently being reported on a global scale. The book stands as the most comprehensive clarification to date on the intent and intelligence behind the phenomena. The variety of viewpoints expressed in the volume provide a solid foundation for the “preparation” of the greatest challenge to ever face humankind. Making Contact stands as the essential handbook for embracing the most exalted moment in history: Meeting the cosmic others.

Contact Susan Grant, 2017-08-22 During a late-night transoceanic flight, an airline officer finds her plane has been taken over by aliens. Now a dark stranger who has known nothing but duty becomes the only person on board she can trust.

*Point of Contact* Melanie Hansen, 2018-03-01 Only love can heal an impossibly broken heart There'd forever been a thread running through Trevor Estes's life—his son, Riley, strong and constant like a heartbeat. But when Riley is killed in combat, everything in Trevor's life unravels into a mess he doesn't know how to mourn. Then Jesse Byrne, Riley's friend and platoon mate, arrives on Trevor's

doorstep with a box of Riley's things. Jesse's all-too-familiar grief provides an unlikely source of comfort for Trevor: knowing he's not alone is exactly what he needs. Trevor never imagined he'd find someone who fills his heart with hope again. As the pair celebrate Riley's memory, their unique bond deepens into something irreplaceable—and something neither man can live without. But diving into a relationship can't be so simple. Being together means Trevor risking the last link he has to his son...leaving Jesse to wonder if he'll ever be enough, or if Trevor will always be haunted by the past. This book is approximately 120,000 words One-click with confidence. This title is part of the Carina Press Romance Promise: all the romance you're looking for with an HEA/HFN. It's a promise! **Your First Contact** Sheldon Nidle,Sandara (Spirit),2000-01-01

Perpetual Contact James Everett Katz,Mark Aakhus,2002-03-21 The spread of mobile communication, most obtrusively as cell phones but increasingly in other wireless devices, is affecting people s lives and relationships to a previously unthought-of extent. Mobile phones, which are fast becoming ubiquitous, affect either directly or indirectly every aspect of our personal and professional lives. They have transformed social practices and changed the way we do business, yet surprisingly little serious academic work has been done on them. This book, with contributions from the foremost researchers in the field, will be the first study of the impact of the mobile phone on contemporary society from a social scientific perspective. Providing a comprehensive overview of mobile phones and social interaction, it comprises an introduction covering the key issues, a series of unique national studies and a final section examining specific issues.

*The Challenge of Contact* Phillip H. Krapf,2001 Phillip Krapf continues his story of the secret deliberations between a race of alien observers called the Verdants, and some 850 world leaders known as ambassadors, an interplanetary liason that will soon lead to a formal and public announcement of contact. This book chronicles the dramatic events of Krapf's second sojourn on the Verdant craft which occured in 1999.

**Electrical Contacts** Paul G. Slade,2017-12-19 Covering the theory, application, and testing of contact materials, *Electrical Contacts: Principles and Applications, Second Edition* introduces a thorough discussion on making electric contact and contact interface conduction; presents a general outline of, and measurement techniques for, important corrosion mechanisms; considers the results of contact wear when plug-in connections are made and broken; investigates the effect of thin noble metal plating on electronic connections; and relates crucial considerations for making high- and low-power contact joints. It examines contact use in switching devices, including the interruption of AC and DC circuits with currents in the range 10mA to 100kA and circuits up to 1000V, and describes arc formation between open contacts and between opening contacts. Arcing effects on contacts such as erosion, welding, and contamination are also addressed. Containing nearly 3,000 references, tables, equations, figures, drawings, and photographs, the book provides practical examples encompassing everything from electronic circuits to high power circuits, or microamperes to mega amperes. The new edition: Reflects the latest advances in electrical contact science and technology Examines current research on contact corrosion, materials, and switching Includes updates and revisions in each chapter, as well as up-to-date references and new figures and examples throughout Delivers three new chapters on the effects of dust contamination, electronic sensing for switching systems, and contact phenomena for micro-electronic systems (MEMS) applications With contributions from recognized experts in the field, *Electrical Contacts: Principles and Applications, Second Edition* assists practicing scientists and engineers in the prevention of

costly system failures, as well as offers a comprehensive introduction to the subject for technology graduate students, by expanding their knowledge of electrical contact phenomena.

**Contact Warhol** Peggy Phelan, Richard Meyer, 2018-10-23 Andy Warhol's daily practice of photography during the last decade of his life, examined and documented for the first time. "A picture means I know where I was every minute. That's why I take pictures." —Andy Warhol From 1976 until his death in 1987, Andy Warhol was never without his camera. He snapped photos at discos, dinner parties, flea markets, and wrestling matches. Friends, boyfriends, business associates, socialites, celebrities, passers by: all captured Warhol's attention—at least for the moment he looked through the lens. In a way, Warhol's daily photography practice anticipated our current smart phone habits—our need to record our friends, our families, and our food. Warhol printed only about 17 percent of the 130,000 exposures he left on contact sheets. In 2014, Stanford's Cantor Center for the Arts acquired the 3,600 contact sheets from the Warhol Foundation. This book examines and documents for the first time these contact sheets and photographs—Warhol's final body of work Peggy Phelan and Richard Meyer analyze the contact sheets, never before seen, and their importance in Warhol's oeuvre. Accompanying their text and other essays are reproductions of contact sheets, photographs, and other visual material. The contact sheets present Warhol's point of view, unedited; we know where he was every minute because a photograph remembers it. Copublished with the Cantor Arts Center

**Making Contact** Virginia Satir, 1976 Brings into focus how you can have better communication with yourself and with others through the contact of eyes, ears, feeling, speech, thought, movement, and actions. Satir shows how we can use all of these elements; uses techniques developed in her workshops to make clear what habits and experiences influence you in subtle ways; with ideas for enhancing self-esteem.

**Electric Contacts** Ragnar Holm, 2013-06-29 This book is a completely revised and rewritten edition of Electric Contacts Handbook published in 1958. A large number of new investigations are considered, and many of the basic theories are revised in detail and even in general. The body of information had to be limited as it was not advisable to increase the volume of the book. In particular, no attempt was made to cover all of the practical applications. They appear as examples following concentrated explanations of basic phenomena. As in several branches of technology, the solutions of problems arising in the field of electric contacts involve insight into various disciplines of physics. It is felt that reviews of some of those topics, especially adapted to electric contact phenomena, are welcome to many readers. For example, chapters have been devoted to the structure of carbon, the band theory of electric conduction in solids, certain problems in statistics, and the theory of the electric arc. As regards arc problems, new ideas have been introduced. In order to make the main text less cumbersome, such reviews are presented as appendices. Throughout this edition, the mksa-unit system is used in accord with the latest recommendation for standardization of units in scientific and technical writings. The chapter

History of Early Investigations on Contacts forming Part IV in the preceding edition of 1958 has not been repeated in this book.

**Language Contacts at the Crossroads of Disciplines** Lea Meriläinen,Heli Paulasto,Helka Riionheimo,2015-01-12 This volume offers a cross-disciplinary insight into language contact research, bringing together fresh empirical and theoretical studies from various fields concerning different dimensions of language contact and variation, second language acquisition and translation. In the present-day world of globalization, population mobility and information technology, the themes of multilingualism and contact-induced language change are as topical as ever, and research on language contacts and cross-linguistic influence has expanded rapidly during the last few decades. Along with the increasing specialization of related disciplines, their research perspectives, methods and terminology have become dispersed, although language contact phenomena themselves can rarely be confined within the scope of a single discipline. This collection of articles creates dialogue between researchers from different scientific backgrounds, thus viewing language contact phenomena from a broader perspective. When language contact is re-defined to include the mental or cognitive level of contact between different languages and varieties in the minds of language learners or translators, salient links are created between the different disciplines dealing with this subject matter.
