The Unsung Song Scott Alisauskas,2020-12-22 It's a good thing you found this book when you did. As it is written for you, the person who loves music and lyrics and putting the two together to create beautiful works of art. The book you are holding in your hands right now is one of the most dynamic expressions of the modern-day poet--otherwise known as a lyricist. Herein lies not just words, but words that captivate your senses, catapult your imagination, and palpitate sensations you never knew you had. These lyrical twists and turns tell stories that make you laugh, pull at your heartstrings, push your imagination to the brim of existence, and takes you on a journey to the center of your mind. Listen as a whirlwind of characters come to life before your ears and eyes. "It's just another hungry day in our hometown of thieves, begging the blind for some sweet sunshine..." "All is lost if nothing's found." "She was a butterfly by day and a firefly by night" "Take me to your island before all my passion drowns" "I've been waiting for your lonely tides to capture seasons out of time. Fold your gentle majesty into lone soliloquies." There are also eighty songs, inspired by Jim Morrison, and fifty songs worth of lyrics inspired by Emily Dickinson, and a tribute to others' section. Let these musical-lyrical rhymes be your guiding light on your way toward shining your own light.

People Power Aaron Schutz,Mike Miller,2015-04-27 Saul Alinsky, according to Time Magazine in 1970, was a prophet of power to the people, someone who has possibly antagonized more people . . . than any other living American. People Power introduces the major organizers who adopted and modified Alinsky's vision across the United States: - Fred Ross, Cesar Chavez, Dolores Huerta, and the Community Service Organization and National Farm Workers Association --Nicholas von Hoffman and the Woodlawn Organization --Tom Gaudette and the Northwest Community Organization --Ed Chambers, Richard Harmon, and the Industrial Areas Foundation --Shel Trapp, Gale Cincotta, and

National People's Action --Heather Booth, Midwest Academy, and Citizen Action --Wade Rathke and ACORN Weaving classic texts with interviews and their own context-setting commentaries, the editors of People Power provide the first comprehensive history of Alinsky-based organizing in the tumultuous period from 1955 to 1980, when the key organizing groups in the United States took form. Many of these selections--previously available only on untranscribed audiotapes or in difficult-to-read mimeograph or Xerox formats--appear in print here for the first time.

*Literacy in African American Communities* Joyce L. Harris, Alan G. Kamhi, Karen E. Pollock, 2014-04-08 This volume explores the unique sociocultural contexts of literacy development, values, and practices in African American communities. African Americans--young and old--are frequently the focus of public discourse about literacy. In a society that values a rather sophisticated level of literacy, they are among those who are most disadvantaged by low literacy achievement. Literacy in African American Communities contributes a fresh perspective by revealing how social history and cultural values converge to influence African Americans' literacy values and practices, acknowledging that literacy issues pertaining to this group are as unique and complex as this group's collective history. Existing literature on literacy in African American communities is typically segmented by age or academic discipline. This fragmentation obscures the cyclical, life-span effects of this population's legacy of low literacy. In contrast, this book brings together in a single-source volume personal, historical, developmental, and cross-disciplinary vantage points to look at both developmental and adult literacy from the perspectives of education, linguistics, psychology, anthropology, and communication sciences and disorders. As a whole, it provides important evidence that the negative cycle of low literacy can be broken by drawing on the literacy experiences found within African American communities.

*Letter upon Vaccination to George Dale, Esq* Henry Strickland Constable, 1871

*Old Ruff, the Trapper; or, The Young Fur-Hunters* Edward Sylvester Ellis, 2022-06-03 Could it be Maquesa? was the next question that came to the mind of Harry, when he took occasion at the same instant to throw a sidelong glance at the other two, in the hope that possibly he could recognize one of them as the chief. But the scrutiny through the glass had not been complete enough to enable him to do this. He believed that all three of his visitors had been in the canoes at that time, but whether either of them was the Blackfoot for whom he and the old hunter had been so persistently searching for many days, and for whom the trapper was hunting this very moment, whether he was one of the three, he could only conjecture. *Fertility and Chromosome Pairing* Christopher Bob Gillies, 1989-08-31 This book discusses the nature of meiotic chromosome pairing effects which may play a role in the determination of fertility. In particular, data and illustrations from the application of recently developed electron microscopic spreading techniques will allow researchers in related fields to come to grips with the recent advances in the cytogenetics of meiotic chromosome pairing behavior. Topics dealt with include meiotic and synaptonemal complex behavior in humans and mice with a variety of chromosomal and genetic abnormalities, sex chromosome pairing in mammals and birds, the significance for fertility or pairing in mammals and birds, the significance for fertility of XY pairing and crossing over, the effects of hybridity on pairing and fertility in plants, and the genetic control of synaptonemal complex formation and crossing over in polyploids. This is a timely reference book for graduate level medical and veterinary students, and scientists in the field of genetics and cell biology.

*The Games Do Count* Brian Kilmeade, 2008-12-13 What do Henry Kissinger, Jack Welch, Condoleezza Rice, and Jon Bon Jovi have in common? They have all reached the top of their respective professions, and they all credit sports for teaching them the lessons that were fundamental to their success. In his years spent interviewing and profiling celebrities, politicians, and top businesspeople, popular sportscaster and Fox & Friends cohost Brian Kilmeade has discovered that nearly everyone shares a love of sports and has a story about how a game, a coach, or a single moment of competition changed his or her life. These vignettes have entertained, surprised, and inspired readers nationwide with their insight into America's most respected and well-known personalities. Kilmeade presents more than seventy stories straight from the men and women themselves and those who were closest to them. From competition to camaraderie, individual achievement to teamwork, failure to success, the world of sports encompasses it all and enriches our lives. The Games Do Count reveals this simple and compelling truth: America's best and brightest haven't just worked hard -- they've played hard -- and the results have been staggering!

**The Slackers Guide to U.S. History** Don Stewart, John Pfeiffer, 2009-09-18 What does Miley Cyrus have in common with Sacagawea? How could Steve Jobs have helped Eisenhower? What does the moon landing have to do with the Hilton sisters? In less time than it takes to recite the preamble to the Constitution, most Americans can spout off all their U.S. history knowledge. (Hint: it starts with "In 1492" and ends with "sailed the ocean blue.") That's because most history books are as interesting as the phone book--and have the same number of pages. The average Joe (the guy who TiVo'd John Adams on HBO but won't make Colonial Williamsburg his next vacation spot) needs a witty and edgy history book--and he has it, with this guide. Hysterical authors--and self-described slackers--Don Stewart and John Pfeiffer give readers the bare minimum on important events such as: The Civil War (the war that pitted brother vs. brother--about the bruthas) The expedition of Lewis and Clark (the ultimate road trip) The Boston Tea Party (not much of a party unless that tea was from Long Island) The assassination of JFK (one vacation that ended particularly badly) Combining current pop culture references and accessible historical information, this satirical book catches readers up on what they slept through in History 101.
