Jeffery M. Leonard

Creation Gore Vidal,2018-08-22 Once again the incomparable Gore Vidal interprets and animates history -- this time in a panoramic tour of the 5th century B.C. -- and embellishes it with his own ironic humor, brilliant insights, and piercing observations. We meet a vast array of historical figures in a staggering novel of love, war, philosophy, and adventure . . . There isn't a page of CREATION that doesn't inform and very few pages that do not delight. -- John Leonard, The New York Times

The Creation of the World and Other Business Arthur Miller,1973 THE STORY: Dividing his play into three questions on the human dilemma, the author begins with a charming and gently humorous retelling of Adam and Eve (and God) in the Garden of Eden. After their expulsion from paradise, Eve gives birth to Cain,

Creation Rediscovered Jeffery M. Leonard,2021-10-05 Creation Rediscovered, by Jeffery M. Leonard, guides readers through a contextual reading of the Bibles creation stories. Over the last two centuries, few subjects have generated as much controversy for Christians as has creation. The whethers, whens, and hows of creation have often become a battlefield in which the pitched forces of competing sidesDarwinists and creationists, young-earthers and old, figurativists and literalistshave struggled for the upper hand. Like most battles, this fight has tended to inflict a fair amount of collateral damage along the way. This is especially true for those put in the terrible position of feeling they have had to choose between the Bible they have fallen in love with and the science they have studied. In this book, Jeffery Leonard writes to fellow travelers in the faith who want to take the biblical text seriously, while at the same time appreciate sciences exploration of what we consider to be Gods creation. It is his contention that setting the Bibles creation texts back within their ancient context allows us to do both of these things. Indeed, Leonard believes that when we reread what the Bible has to say about creation in its original setting, we find meaning in the text far more profound than what we have previously imagined. Key points and features: • Written by a Bible scholar • Unique, timely, and fresh interpretation • Helps readers see the Bibles creation stories as vessels of healing and hope in Gods larger plan for humanity • Attempts to redirect Christians to read the ancient creation stories within the context in which they were written

Creation and Doxology Gerald L. Hiestand,Todd Wilson,2018-10-23 The doctrine of creation is crucial to the Christian faith, but it has often been maligned, misinterpreted, or ignored. Some, such as pagan philosophers and Gnostics, have tended to denigrate the goodness of the material world. More recently, new questions have emerged regarding human origins in light of the Darwinian account of evolution. What does it mean today to both affirm the goodness of God's creation and anticipate the new creation? The Center for Pastor Theologians (CPT) seeks to assist pastors in the study and production of biblical and theological scholarship for the theological renewal of the church and the ecclesial renewal of theology. Based on the third annual CPT conference, this volume brings together the reflections of church leaders, academic theologians, and scientists on the importance—and the many dimensions—of the doctrine of creation. Contributors engage with Scripture and scientific theory, draw on examples from church history, and delve into current issues in contemporary culture in order to help Christians understand the beginning and ending of God's good creation. Based on annual CPT conferences, the volumes in the Center for Pastor Theologians series bring together the reflections of pastors and theologians who desire to make ongoing contributions to the wider scholarly community for the renewal of both theology and the church.

If Creation Is a Gift Mark Manolopoulos,2009-02-13 What if our world were considered a gift? Extending postmodern gift theory to ecological and ecotheological concerns, Mark Manolopoulos explores how creation—the what-is—can be seen as a gift. Creation, when viewed in a radically egalitarian way, is the matrix of all material things—human, otherwise-than-human, or humanly manufactured. Utilizing and critiquing the work of Jacques Derrida and Jean-Luc Marion, Manolopoulos argues that the gift is an irresolvable paradox marked by the contradictory elements of excess (gratuity, linearity) and exchange (gratitude, return). Philosophical and theological reflections on the gift become entangled in its paradoxical tension, but ultimately both aspects must be respected and reflected. When it comes to the creation-gift, we should vacillate between responses like letting-be, enjoyment, utility, and return. Elegantly written and thought-provoking, If Creation Is a Gift both contributes to the ongoing debate on the gift and provides a fresh philosophical and theological consideration of the environmental crisis.

After the Beginning Anthony L. Edridge,2012-06-27 A new and inspiring view of creation and the Flood After the Beginning offers compelling insight about God’s purpose for an eternal loving relationship with mankind that was made in His image. This theme is revealed in Genesis with the creation of Adam and Eve, with the animals named by Adam, and with the animals that were saved on the ark. From creation through the Flood, Dr. Edridge concludes that the creatures described in Genesis had emotional capability, such as mammals and birds. Further consideration of species that should be included in the creation narrative leads to agreement between the biblical sequence of creation and the scientific chronology of the fossil record and the early stages of the Earth’s development. Dr. Edridge examines different flood models to determine if they are consistent with biblical parameters and scientific scrutiny. Based on documented flood records and geological events, he proposes a new catastrophic Flood Model that meets both qualitative and quantitative requirements for the most likely flooded area, the cradle of civilization. This model is unique, providing a viable mechanism that caused the Flood to subside, but which agrees with the biblical description.

Creation and Evolution Siegfried Wiedenhofer,2008 Documents the proceedings of the remarkable conference on the topic of Creation and Evolution by Pope Benedict XVI in 2006 at the papal summer residence, Castel Gandolfo, featuring papers that were presented from the fields of natural science, philosophy, and theology, and the subsequent discussion in which Pope Benedict XVI participated.

The 7 Days of Creation Mindy MacDonald,2004 Very simple text describes how God created the stars, sun, animals, man, and trees.

To Begin With, God Created-- Karl Löning,Erich Zenger,2000 This book is an attempt to bring the parts of the divided yet unified Christian Bible into dialogue with one another in respect to the theology of Creation so that the total biblical tradition can once again come alive. Creation is the Alpha and Omega of a theology that takes seriously the Jewish dimension of Christianity. The special appeal of this project, which is indebted to the Christian-Jewish dialogue, is that here an Old Testament scholar and a New Testament scholar together produce a book in which their differing perspectives are in constant encounter.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. What is Creation Science? Henry Morris,Gary Parker,2018-10-05 Explore the truth of science and faith... and what it means to you! Uncover evidences of Creation in living systems Unravel the questions of Creation and the laws of science Understand the vanishing case for evolution science Many Christians are not aware that many legitimate scientists embrace the Genesis explanation of origins. In What is Creation Science?, two of the most respected members of that group have given us the benefit of their knowledge. The book itself, though technical in places, is remarkably clear, and its focus is on a fair dialogue of the issues. So much so that many thousands of readers have taken to heart Dr. Parker's challenge, to Think About It! The creation/evolution question is not an issue that concerns only biologists on the one hand and religious people on the other. In one way or another, the issue permeates every field of academic study and every aspect of national life. It deals with two opposing basic worldviews - two philosophies of origins and destinies, of life and meaning. Consequently, it is (or should be) of special concern to everyone.

Biblical Geology Daniel G. McCrillis, Th. D.,2014-09-06 In this book, we will discover the most accurate account of creation as taught from Scripture and verified by science. We will leave no stone unturned as we venture through the following fields of study: Stratigraphy, Meteorology, Obliquity, Dinosaurs, The Fossil Record, Star Light, Greek, Hebrew, Angelology, Creation, the Fall, History, and Theology. In this book, the Gap Theory Model of Creation will not only take the stand, but give answers to all the charges it has been accused of by the Young Earth Creation Science Movement (YECSM). Furthermore, the Gap Theory will provide a workable model that functions properly with both the Bible and Geology. See in this amazing book how the Bible reached out thousands of years ahead of the YECSM, Modern Science, and Geology providing Answers to the following questions: · Does Let, Made, Formed, and Create all mean the same thing? · Does Replenish in Genesis 1:27 mean “fill”? · Does Genesis 1:2 really describe an unformed and unfilled earth? · Were angels really created in the Six-Day Narrative? · Does the Bible really say that the material universe was created in the Six-Day Narrative? · Was Adam immortal before his fall? · Is there a workable model in Biblical Creation for Modern Geology? · Did the Geologic Column form in the Noahic Flood? · Is the YECSM from within or without Mainline Christianity? · Does our Creation Doctrine affect other doctrines? · Is Creation a part of God’s qualitative attributes, or is it just limited to the Six-Day Narrative? · Is it logical or illogical to propagate an Appearance of Age Theory when defending a Young Earth? · Did the Bible writers teach an Old or Young Earth? · When was the Creation made subject to vanity? Pre- or Post- Fall? · Could the early Church have grasped modern-day interpretations of Creation? · Are the leaders of the YECSM qualified to represent Christianity to the world’s intellectual communities? A Must for Every Person in the Ministry!
