The Book of Extraordinary Deaths Cecilia Ruiz, 2018-10-23 A welcome dose of dark humor for these dark times, from acclaimed illustrator Cecilia Ruiz The Book of Extraordinary Deaths introduces readers to the bizarre demises of thinkers, writers, monarchs, artists, and notable nobodies throughout history. Beginning in the seventh century BC with the unusual death of Draco and journeying chronologically to the present day, Ruiz's playfully sinister giftbook illustrates and describes the infamous deaths of these unfortunate souls. From stories of the hot-air balloon duel that claimed a Frenchman's life to the fatal wardrobe malfunction of famed dancer Isadora Duncan, The Book of Extraordinary Deaths is a uniquely clever and gorgeously rendered meditation on life's ironies and mysteries. With Ruiz's witty descriptions and rich, captivating illustrations, her characters come to life on the page even as they shuffle off this mortal coil.

18 Tiny Deaths Bruce Goldfarb, 2020-02-04 A captivating blend of history, women in science, and true crime, 18 Tiny Deaths tells the story of how one woman changed the face of forensics forever. Frances Glessner Lee, born a socialite to a wealthy and influential Chicago family in the 1870s, was never meant to have a career, let alone one steeped in death and depravity. Yet she developed a fascination with the investigation of violent crimes, and made it her life's work. Best known for creating the Nutshell Studies of Unexplained Death, a series of dollhouses that appear charming—until you notice the macabre little details: an overturned chair, or a blood-spattered comforter. And then, of course, there are the bodies—splayed out on the floor, draped over chairs—clothed in garments that Lee lovingly knit with sewing pins. 18 Tiny Deaths, by official biographer Bruce Goldfarb, delves into Lee's journey from grandmother without a college degree to leading the scientific investigation of unexpected death out of the dark confines of centuries-old techniques and into the light of the modern day. Lee developed a system that

used the Nutshells dioramas to train law enforcement officers to investigate violent crimes, and her methods are still used today. The story of a woman whose ambition and accomplishments far exceeded the expectations of her time, 18 Tiny Deaths follows the transformation of a young, wealthy socialite into the mother of modern forensics... Eye-opening biography of Frances Glessner Lee, who brought American medical forensics into the scientific age...genuinely compelling. -Kirkus Reviews A captivating portrait of a feminist hero and forensic pioneer. -Booklist

Deaths of Despair and the Future of Capitalism Anne Case, Angus Deaton, 2021-03-02 A New York Times Bestseller A Wall Street Journal Bestseller A New York Times Notable Book of 2020 A New York Times Book Review Editors' Choice Shortlisted for the Financial Times and McKinsey Business Book of the Year A New Statesman Book to Read From economist Anne Case and Nobel Prize winner Angus Deaton, a groundbreaking account of how the flaws in capitalism are fatal for America's working class Deaths of despair from suicide, drug overdose, and alcoholism are rising dramatically in the United States, claiming hundreds of thousands of American lives. Anne Case and Angus Deaton explain the overwhelming surge in these deaths and shed light on the social and economic forces that are making life harder for the working class. As the college educated become healthier and wealthier, adults without a degree are literally dying from pain and despair. Case and Deaton tie the crisis to the weakening position of labor, the growing power of corporations, and a rapacious health-care sector that redistributes working-class wages into the pockets of the wealthy. This critically important book paints a troubling portrait of the American dream in decline, and provides solutions that can rein in capitalism's excesses and make it work for everyone.

A Thousand Little Deaths Laura LeMoon, 2020-11-03 I am a wounded soldier in enemy lands and I don't think / when you come home, mouth dripping with honey / that you knew my story. *A Thousand Little Deaths* is a story molded from experience and thrown into verse. For many, poetry is a method of healing, a method of activism, a method of releasing all the pain you've held inside of you in a single burst. LeMoon offers us this brief chapbook of her life in an attempt to share a journey not many are familiar with, taking on existential issues such as death and how absurd life can be when it throws the impossible at you. It's a test of endurance, throwing readers into a world most have probably only seen through television or stereotyped novels. It's a hard read. It's an essential read. And the moment you open up it's pages, LeMoon's words will go right for your gut, sending you spiraling as you move along with her journey.

Little Deaths Emma Flint, 2017-01-17 It's 1965 in a tight-knit working-class neighborhood in Queens, New York, and Ruth Malone -- a single mother who works long hours as a cocktail waitress -- wakes to discover her two small children, Frankie Jr. and Cindy, have gone missing. Later that day, Cindy's body is found in a derelict lot a half mile from her home, strangled. Ten days later, Frankie Jr.'s decomposing body is found. Immediately, all fingers point to Ruth. As police investigate the murders, the detritus of Ruth's life is exposed. Seen through the eyes of the cops, the empty bourbon bottles and provocative clothing which litter her apartment, the piles of letters from countless men and Ruth's little black book of phone numbers, make her a drunk, a loose woman -- and therefore a bad mother. The lead detective, a strict Catholic who believes women belong in the home, leaps to the obvious conclusion: facing divorce and a custody battle, Malone took her children's

lives. Pete Wonick is a rookie tabloid reporter who finagles an assignment to cover the murders. Determined to make his name in the paper, he begins digging into the case. Pete's interest in the story develops into an obsession with Ruth, and he comes to believe there's something more to the woman whom prosecutors, the press, and the public have painted as a promiscuous femme fatale. Did Ruth Malone violently kill her own children, is she a victim of circumstance -- or is there something more sinister at play? Inspired by a true story, *Little Deaths*, like celebrated novels by Sarah Waters and Megan Abbott, is compelling literary crime fiction that explores the capacity for good and evil in us all.

Death in Yellowstone Lee H. Whittlesey, 2014-01-07 The chilling tome that launched an entire genre of books about the often gruesome but always tragic ways people have died in our national parks, this updated edition of the classic includes calamities in Yellowstone from the past sixteen years, including the infamous grizzly bear attacks in the summer of 2011 as well as a fatal hot springs accident in 2000. In these accounts, written with sensitivity as cautionary tales about what to do and what not to do in one of our wildest national parks, Whittlesey recounts deaths ranging from tragedy to folly—from being caught in a freak avalanche to the goring of a photographer who just got a little too close to a bison. Armchair travelers and park visitors alike will be fascinated by this important book detailing the dangers awaiting in our first national park.

Migrant Deaths in the Arizona Desert Raquel Rubio-Goldsmith, Celestino Fernández, Jessie K. Finch, Araceli Masterson-Algar, 2016-10-25 *Migrant Deaths in the Arizona Desert* addresses the tragic results of government policies on immigration. The book's central question is why are migrants dying on our

border? The authors constitute a multidisciplinary group reflecting on the issues of death, migration, and policy.

Death at the Ballpark Robert M. Gorman, David Weeks, 2015-10-13 When we think of baseball, we think of sunny days and leisurely outings at the ballpark--rarely do thoughts of death come to mind. Yet during the game's history, hundreds of players, coaches and spectators have died while playing or watching the National Pastime. In its second edition, this ground-breaking study provides the known details for 150 years of game-related deaths, identifies contributing factors and discusses resulting changes to game rules, protective equipment, crowd control and stadium structures and grounds. Topics covered include pitched and batted-ball fatalities, weather and field condition accidents, structural failures, fatalities from violent or risky behavior and deaths from natural causes.

Death Notice Todd Ritter, 2010-10-12 Perry Hollow, Pennsylvania, has never had a murder. At least not as long as Kat Campbell has been police chief. And the first is brutal. George Winnick, a farmer in his sixties, is found in a homemade coffin on the side of the highway with his lips sewn shut and his veins and arteries drained of blood and filled with embalming fluid. Chilling as that is, it becomes even more so when Kat finds that the Perry Hollow Gazette obituary writer, Henry Goll, received a death notice for Winnick before he was killed. Soon after, the task force from the Pennsylvania Bureau of Investigation shows up and everything takes an irreversible turn for the worse. Nick Donnelly, head of the task force, has been chasing the Betsy Ross Killer, so named because he's handy with a needle and thread, for more than a year. Winnick seems to be his fourth victim. Or is he? Kat has never handled a murder case before, but she's not about to sit by while someone terrorizes

her sleepy little town or her own son. But will her efforts be enough to stop a killer and bring calm to Perry Hollow? A portrait of a small town in turmoil, where residents fear for their lives, Todd Ritter's *Death Notice* is a gripping debut from a terrific new talent in crime fiction.

The Many Deaths of Virginia Tech Chuck Marsh, 2012-03-23 Virginia Tech is America's Cursed College, home to horrifying events from hit-and-runs to students being shot in the woods; prison escapes to public self-mutilations; police officers being gunned down to public beheadings; and of course, the notorious mass shooting that killed 33 people. But why is Virginia Tech the most infamous university in the United States? What is the reason for Virginia Tech's many tragedies? Chuck Marsh has written the only book of its kind: a gripping and frightening account of the Hokie Horrors. *The Many Deaths of Virginia Tech* is a spellbinding chronicle -- an expose -- of an oversized American university locked in a death-struggle with itself -- or with unseen forces. This book takes the reader on a tour through the many crimes and calamities at Virginia Tech in the past decade: a no-holds-barred account of an out-of-control hunger for violence at an American university.

The Kids' Book about Death and Dying Eric E. Rofes, 1985 Fourteen children offer facts and advice to give young readers a better understanding of death.

Death by Living N. D. Wilson, 2013-05-14 A poetic portrait of faith, futility, and the joy of this mortal life. In this astoundingly unique book, bestselling author N.D. Wilson reminds each of us that to truly live we must recognize that we are dying. Every second we create more of our past--more decisions, more breathing, more love and more loathing, all of it slides by into the gone as we race to grab at more moments, at more memories made and already fading. We are all authors, creators of our own pasts, of the books

that will be our lives. We stare at the future or obsess about the present, but only the past has been set in stone, and we are the ones setting it. When we race across the wet concrete of time without purpose, without goals, without laughter and love and sacrifice, then we fail in our mortal moment. We race toward our inevitable ends without artistry and without beauty. All of us must pause and breathe. See the past, see your life as the fruit of providence and thousands of personal narratives. What led to you? You did not choose where to set your feet in time. You choose where to set them next. Then, we must see the future, not just to stare into the fog of distant years but to see the crystal choices as they race toward us in this sharp foreground we call the present. We stand in the now. God says create. Live. Choose. Shape the past. Etch your life in stone, and what you make will be forever.
