Despicable Stories Isaías Ramos García,2019-11-13 Narrative

is a literary style that describes perfectly this tales collection. This texts, written in prose, narrate a series of episodes that happen to one or more characters. They are explained by the

author in first person, and seen from his particular point of view. The author appears directly involved in the stories that, although aren't real, are based on some of the author's personal experiences. What the stories have in common is a particular way of narrating and describing the author's feelings when facing the crude personal reality, something that at the end leaves the reader with a bittersweet smile.

The Modern Compendium of Despicable Jerks John Prescott, 2014-04-02 This compendium is a highly opinionated, occasionally bogus representation of the most egregious modern examples of both common irritating folks and the rich and powerful who demean others while enriching themselves. It also includes real villains. See if you can tell the difference. The subjects of this book barely scratch the surface of the total number of jerks worldwide. However, they are excellent examples of those who often wallow in a putrid pool of self-aggrandizement. This effort is offered in the same loathsome spirit by equal opportunity offenders and is intended to be all in fun, but not necessarily fun for all. If you haven't got anything nice to say about anybody, come sit next to me. - Alice Roosevelt Longworth
