The Artisans and Entrepreneurs of Dongyang County Terry L Cooper, Yinhua Jiang, 2016-09-16 The book represents a continuation of research begun by Cooper in Hong Kong in the early 1970s among expatriate artisan furniture makers and woodcarvers from Dongyang County, Zhejiang Province. He now sets out to investigate the fate of the same craft in the hands of the same folk under totally different socio-economic conditions in their native county in communist People's Republic of China.

The Market and Temple Fairs of Rural China Gene Cooper, 2013-02-01 During the early communist period of the 1950s, temple fairs in China were both suppressed and secularized. Temples were closed down by the secular regime and their activities classified as feudal superstition and this process only intensified during the Cultural Revolution when even the surviving secular fairs, devoted exclusively to trade with no religious content of any kind, were suppressed. However, once China embarked on its path of free market reform and openness, secular commodity exchange fairs were again authorized, and sometimes encouraged in the name of political economy as a means of stimulating rural commodity circulation and commerce. This book reveals how once these secular temple-less temple fairs were in place, they came to serve not only as venues for the proliferation of a great variety of popular cultural performance genres, but also as sites where a revival or recycling of popular religious symbols, already underway in many parts of China, found familiar and fertile ground in which to spread. Taking this shift in the Chinese state's attitudes and policy towards temple fairs as its starting point, *The Market and Temple Fairs of Rural China* shows how state-led economic reforms in the early 1980s created a revival in secular commodity exchange fairs, which were granted both the geographic and metaphoric space to function. In turn, this book presents a comprehensive analysis of the temple fair phenomenon, examining its economic, popular cultural, popular religious and political dimensions and demonstrates the multifaceted significance of the fairs which have played a crucial role in expanding the boundaries of contemporary acceptable popular discourse and expression. Based upon extensive fieldwork, this unique book will be of great interest to students and scholars of Chinese religion, Chinese culture, Chinese history and anthropology.

Crystal Structure, Electronic and Optical Properties of Epitaxial Alkaline Earth Niobate Thin Films Dongyang Wan, 2017-09-18 This impressive thesis offers a comprehensive scientific study of the alkaline earth niobates and describes their nonlinear optical properties for the first time. It explores the crystal structure, electrical properties, optical absorption properties, hot carrier dynamics, nonlinear optical property and strain-induced metal to insulator transition of alkaline earth niobates

using advanced experimental techniques. These alkaline earth niobates can have a strong plasmon resonance in the visible range due to their large carrier density, and this unique property gives rise to the emergent phenomenon of photocatalysis and nonlinear optical properties. This series of intrinsic plasmonic materials based on niobates, can be used as a photocatalyst to split water under sunlight, a novel saturable absorber in the high-power ultrashort pulsed laser system, and as a sensor in microelectromechanical systems.

Prisoners of the Cave Meihuai Ke, 2024-02-26 In The Allegory of the Cave, Plato describes a group of people who have been chained in a cave all their lives, facing a blank wall. They watch shadows projected on the wall from objects passing in front of a fire behind them, and they give names to these shadows. Although they are not accurate representations of the world, these shadows become the prisoners' reality. One prisoner is freed from the cave and, after seeing the natural world, realizes that the shadows are an illusion. He returns to the cave and tells the other prisoner what he has seen. The prisoners of the cave, however, who know only this life would rather see him die than hear the truth, and they sentence him to death. This is the tale told by these volumes. Prisoners of the Cave: Love, Loss, and Survival After the Chinese Communist Revolution is a translated, abridged edition of the original Chinese publication The Dream in Lake Village. The first of two volumes recounts the true stories of villagers living in Nanke, a small lakeside town in southern China, from 1949 to 1999. These stories cover many pivotal, political events from Chinese history, including the Great Leap Forward, Cultural Revolution, Land Reform Movement, Anti-Rightist Campaign, Three Red Banners Movement, Reform and Opening Up, and June Fourth Incident--all of which had huge permanent impacts on Chinese society. Beginning with a kind-hearted widow named Aunt Li, who seeks to find the truth behind the chaos and turmoil of the world, the novel follows the paths of many of her family members, friends, and neighbors. Their stories of suffering, loss, love, and success continuously return to the two threads that run through the entire novel--one of good and one of evil. The progression of their lives reveals that humans are inherently good and that no matter how evil an ideology or practice, it can only pollute an inherently kind and compassionate mind for so long. Evil cannot run rampant forever--eventually, good will triumph.

Billionaire's Beloved Warm Wife Xue ChenMeng,2020-09-26 After two years of marriage, she was forced to divorce. On the day of the divorce, she remarried quickly and quietly. Without knowing anything, she and a man she had known for less than an hour had registered for marriage. She looked at the handsome man in front of her. I think we should get a divorce. This is ridiculous. The man said, Maybe we're the best ones. Why not try it? She had thought it was another absurd marriage, but instead she was filled with happiness. Later on, she found out about this man's identity. He really was no ordinary person! He came back for revenge, with the multinational corporation in his hands. He was swift and decisive, and the crowd was filled with fear and reverence toward him. Originally, he wanted to make use of her, but he had fallen for her. I've saved up all the good luck of my life just to meet you at the right time, Qiao Wei! The luckiest thing in my life is that I haven't missed you, Huo Dongyang! ***

Rare variants in the FBN1 gene are associated with sporadic dilated cardiomyopathy in a Chinese Han population Dongyang Wu,Yang Sun,Chenze Li,Lei Xiao,Jiaqi Dai,Yanghui Chen,Peng Chen,Hong Wang,Bo Yu,Haoran Wei,Rui Li,Xiuli Song,Ting Yu,Leming Shi,Dao Wen Wang,2023-06-25 Introduction: Dilated cardiomyopathy (DCM) represents a diverse set of myocardial diseases characterized by notable genetic heterogeneity. Although over 50 genes have been associated with DCM, these collectively explain 35% of idiopathic DCM cases. Variants in the FBN1 gene encoding fibrillin-1 are primarily linked to connective tissue disorders. Considering the potential of these disorders to impact myocardial tissue, this study probes into the possible association between FBN1 variants and DCM. Aim: The objective of this study was to investigate the association between FBN1 variants and DCM in a Chinese Han population. Methods and Results: We performed whole-exome sequencing (WES) to identify rare FBN1 variants among 1,059 DCM cases and 514 controls. Utilizing a case-control strategy and the optimal sequence kernel association test (SKAT-O), we found a significant enrichment of rare deleterious FBN1 variants in DCM patients (19 of 1,059 vs. 0 of 514, PSKAT-O = 7.49E-04). Clinical characteristics analysis indicated a higher occurrence of atrial fibrillation and a higher rate of implantable cardioverter-defibrillator (ICD) implantation among DCM patients carrying FBN1 variants (FBN1+) compared to non-carriers (FBN1-). However, these FBN1 variants did not significantly affect primary endpoints, defined as cardiac mortality or heart transplantation, yet appeared to increase the risk of secondary endpoints, including all-cause mortality or heart failure recurrence. Conclusion: The findings suggest an association between rare deleterious variants in the FBN1 gene and DCM in a Chinese Han population. Our findings underline the importance of further research to validate these results and elucidate the role of FBN1 in DCM. Potential Impact of the findings: This research provides fresh insights into the potential role of FBN1 rare variants in DCM, pointing to new directions for future genetic studies and potential therapeutic strategies in DCM management.

Assessing Water Rights in China Yahua Wang,2017-09-14 This book presents a model for describing the hierarchical concept of China's water rights structure, one which takes into account pioneering theories on natural resources and environmental institutional economics. It highlights the basic theory of water rights, with a view to helping Chinese policymakers acquire a deeper understanding of water rights and the need for a reform program in the long-term development of water-poor China. To do so, it draws on three main sources: Cheung SNS's "Economic Explanation", Douglas C. North's "New Economic History" and Ray Huang's "Macro History". The book makes two essential contributions: it elaborates the hierarchical water governance structure in China, which originated in the Qin Dynasty that unified the country 2000 years ago and has been employed without interruption ever since; further, it constructs a choice model for water governance structures and advances the logic of making structural choices with minimum transaction costs under constraint conditions, while also explaining the inherent nature of China's choice for the hierarchical structure from the perspectives of management cost and cooperation cost. As such, the book enriches and builds on the theories of the "water governance" school represented by Karl Marx, Karl Wittfogel and Ray Huang, laying the foundation for the further study of water rights theory in contemporary China.
