🔍 **THE TRANSFORMATION OF RUSSIA’S ARMED FORCES** Roger N. McDermott,2016-03-17 At no time since the end of the Cold War has interest been higher in Russian security issues and the role played in this by the modernization of Russia’s Armed Forces. The continued transformation of its Armed Forces from Cold War legacy towards a modern combat capable force presents many challenges for the Kremlin. Moscow’s security concerns domestically, in the turbulent North Caucasus, and internationally linked to the Arab Spring, as well as its complex relations with the US and NATO and its role in the aftermath of the Maidan Revolution in Ukraine in 2014 further raises the need to present an informed analytical survey of the country’s military, past, present and future. This collection addresses precisely the nature of the challenges facing Russian policymakers as they struggle to rebuild combat capable military to protect Russian interests in the twenty-first century. This book was based on a special issue of the Journal of Slavic Military Studies.

🔍 **THE MARCUS GARVEY AND UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION PAPERS, VOL. I** Robert A. Hill,Marcus Garvey,Universal Negro Improvement Association,1983-11-04 Africa for the Africans was the name given in Africa to the extraordinary black social protest movement led by Jamaican Marcus Mosiah Garvey (1887-1940). Volumes I-VII of the Marcus Garvey and Universal Negro Improvement Association Papers chronicled the Garvey movement that flourished in the United States during the 1920s. Now, the long-awaited African volumes of this edition (Volumes VIII and IX and a forthcoming Volume X) demonstrate clearly the central role Africans played in the development of the Garvey phenomenon. The African volumes provide the first authoritative account of how Africans transformed Garveyism from an external stimulus into an African social movement. They also represent the most extensive collection of documents ever gathered on the early African nationalism of the inter-war period. Here is a detailed chronicle of the spread of Garvey’s call for African redemption throughout Africa and the repressive colonial responses it engendered. Volume VIII begins in 1917 with the little-known story of the Pan-African commercial schemes that preceded Garveyism and charts the early African reactions to the UNIA. Volume IX continues the story, documenting the establishment of UNIA chapters throughout Africa and presenting new evidence linking Garveyism and nascent Namibian nationalism.

🔍 **INNOVATIVE INTERNET SECRETS** Doug Knell,2018-01-11 There are so many secrets packed in here, I have to wonder if the Illuminati will have this author assassinated - Derrick Mennings, Marxist Internet Weekly Digest Written by an engineering expert with comprehensive knowledge of SEO marketing, computers, and the best Belgian beers to drink with them. Preview the book to enter enlightenment. Give Me A Couple Of Hours And I’ll Turn You Into An Internet Wizard! There are other Internet secrets books and they work as excellent paperweights and have some therapeutic benefits, too: you can use them to put you to sleep. This book is not to be equated with all those boring-as-all-hell books with dubious internet insights and SEO tips. Trust us: what you know about the internet isn’t as much as you think you know. Beyond the basics, how clued in are you really about the internet? You probably know more about Bangladesh (which ain’t much, right?) than you do about web development, link building, and search engine optimization. The internet may play an integral role in our lives, yet in informal testing, close to 92% of internet users scored no more than basic competence with it. Less than 16% had any legitimate knowledge of SEO marketing. I can hear you from here: basic competence is good enough for me. Why would I want or need to do more than that? You can use the Google or Bing search engine (but lazily, not with any genuine optimization), get around the Gmail and Hotmail interfaces, buy an airline ticket at Expedia, order a book at Amazon, and post an update at Facebook. Is that mastery when anyone can do that? Complacency never does anyone any favors. If the complacent had won out, we’d still believe the world is flat and airplane flight is impossible. Do you really need to be told that the internet is one of those things you cannot afford to be complacent about? Your livelihood, your identity, your social networks, your ability to distinguish yourself from the competition will all one day be measured by the breadth and depth of your internet skills. Development of the web hasn’t stood still. Should your skills? Every single one of these internet secrets will shoot your internet productivity into the stratosphere and leave you head and shoulders above your peers. We’re not naive to think you don’t know any of these secrets, but we’re confident you don’t know about most of them. Any of these 100+ internet insights will more than make up for the book’s cost * Keep your computer and other devices protected: the best anti-virus & malware tools internet tools you should install to keep your computer, mobile phone, and tablet from being crippled. * Set up sharable internet networks wherever you happen to be, like standing in front of Buckingham Palace. * Start building your favorite link bookmarks across all internet browsers and platforms. * Avoid internet scams. * Download and view internet videos offline. Video streaming sucks bandwidth from your 4G plan. * Keep your identity safe. * Transfer large files. * Set up online music libraries so you can listen to your music anywhere, anytime. * Shop on the internet for the absolute best prices. * View web sites optimally on any device. * Remember your passwords for any site and situation. * And much, much more. Some of these internet secrets you could discover if you knew where to look, but it would take you months to collect the same knowledge you’ll find here. Other internet tools we’ve picked up from years of experience. You won’t find those gems anywhere else. Dump your other SEO books and for-idiots web development guides. You will not find another internet book this practical or enjoyable for any price. The new internet isn’t going anywhere, but you should. Let’s get going, with us as your guide along this infinitely more diverse information superhighway.
