**The Electronic Ghosts** Nathan Toms, 2008-05 It is the height of the swinging sixties and Andrew Stein has more important things on his mind than whether there is life after death - that is until he meets Stan, an eccentric old man who is so vehement in his belief in the afterlife that it sparks a flame of curiosity in Stein. Twenty years on, Stein constructs a device to contact an earthbound spirit who calls herself Natasha, without realising the catastrophic chain of events he is about to unleash. Stein finds himself catapulted into the world of EVP (electronic voice phenomenon) which ultimately brings him face to face with supernatural entities. But are these forces benevolent spirits with messages for loved ones or are they malevolent forces, hell-bent on destroying him and all that he holds dear? The novel takes the reader on a roller coaster ride of uncertainty until a crescendo of blood chilling events hurtles towards the terrifying climax.

Dr Cardoso, a senior diplomat, describes the astounding experiences that transformed her life since she started ITC research in 1997. She presents extracts of conversations with her deceased loved ones and other personalities who insisted that they live in another world. **Employee Value Proposition and Organizational Commitment** Tania Lambru, 2012-07 On the background of economic and organizational changes, shifts in employment structures, and entry of Generation Y on the labour market, attracting and retaining talent as well as committing people becomes a real challenge. This work investigates the correlation of Employee Value Proposition (EVP) components with the dimensions of Organizational Commitment (OC), revealing what factors enhance work attractiveness and the result in engaged and dedicated employees. The study breaks down the concept of EVP and separately analyses the influence of each of its components - company, leadership, job, rewards - on the different types of OC - affective, continuance, normative. Based on relevant research questions and course of study, comprehensive literature review, well supported hypotheses and an adequate research context, the findings of this work help executives and Human Resources people understand that they need to carefully tackle commitment issues and develop strategies for enhancing organizational engagement, basing their course of action on the employee individual profile and specific EVP components.

Providing coverage of the concepts that many project management texts ignore, such as the risk response matrix and risk models, the book includes appendices filled with additional reference materials and supporting details that simplifying some of the most complex aspects of risk management.

There have been reports from the construction workers--shadow men, heavy footsteps, voices and other strange claims of paranormal activity. Mr. Clemmons decides to contact the Three Rivers Paranormal Society (TRPS) and have them investigate in an attempt to disprove the reports so the renovation does not fall behind, which would cost Mr. Clemmons thousands of dollars. When TRPS enters the building on Halloween night, what they find is something that they were not bargaining for, and now they must survive, locked inside this horrific place all night while doing battle with this evil, diabolic creature.
