Virginal Sexuality and Textuality in Victorian Literature Lloyd Davis,1993-01-01 This book examines the figure of the virgin, a symbol central to many aspects of society and sexuality in nineteenth-century England, and its effects on the Victorian literary imagination. Studying the virgin as a social, sexual, and literary phenomenon, the volume contributes to current critical accounts of the relations among the body and language, gender, and discourse. These essays explore the ways in which virginity is not a natural ideal but a complex cultural and literary sign. The authors rethink the virginal as a textual counter-example to the idealization of □natural sexuality.□

Oracle Shell Scripting Jon Emmons,2007 With the expert techniques discussed in this book, Oracle database administrators can automate routine tasks to save time and money and better monitor the flow of work. Using shell scripts—an indispensable tool on UNIX and Linux—any number of commands can be combined and executed either simultaneously or sequentially. More than 50 working shell scripts for both beginners and experts give Oracle professionals a fantastic head-start on automating their administration duties and are easily modifiable for any environment. Topics include the history of shells and shell scripting, detailed step-by-step instructions on building shell scripts, how to tell when things are working right, and how to effectively monitor the system for failures.

THE AMIABLE ISABELLA, MUNOS, CLAIMANT v. , 19 U.S. 1 (1821) ,1821 File No. 900

IBM WebSphere DataPower SOA Appliance Handbook Bill Hines,2008 Using many real-world examples, the authors systematically introduce the services available on DataPower devices, especially the big three: XML Firewall, Web Service Proxy, and Multi-Protocol Gateway. They also present thorough and practical guidance on day-to-day DataPower management, including, monitoring, configuration build and deploy techniques.--BOOK JACKET.

The Obsidian Oracle Troy Denning,2011-09-27 Two former friends seek a powerful ancient oracle—one for good; one for evil—in this fourth Prism Pentad novel that explores the harsh world of Dark Sun The Dark Lens is an ancient oracle that can harvest the magic of the sun, hidden by the last dwarven knights for the sake of a new world. With it, Tithian of Tyr can evolve into a true sorcerer-king. Only Agis of Asticles, who covets the lens to destroy the Dragon Borys, stands between Tithian and his desire. For either man to survive the quest, the hatred between them must be vanquished. If not, they risk falling prey to the beast-headed giants who guard the Obsidian Oracle.

Call of the Syron Alyssa Bukowski,2021-10-21 A princess born into a war-torn galaxy. Two ancient beings with the power of suns. A mortal bounty hunter. And a dark prince, whose shadow blankets the galaxy. Aladella, princess of Prytha, never imagined she would step foot off of her home planet. Especially, after the brutal murder of her sister and father. With the Darions invasion growing closer with every passing day, Aladella has no other choice than to run. Escaping the Darion with the help of a masked bounty hunter/pilot, she finds herself in the company of those she once thought would leave her for dead. With her new unlikely crew, Aladella discovers long-hidden secrets and a magic that was once thought to be gone forever. Now she must balance her heart and her head as the galaxy is thrown into chaos around her. After having visions of her mother's death, Aladella must return home with her rag-tag team of misfits in an effort to stop Darious and his army of silent soldiers. But, as Aladella learns more about the magic of a Syron, she realizes she may be the last hope in the fight against the Darion.

Hit 1957 Bryce Carlson,2016-04-05 Crime is down in Los Angeles—at least, on the surface. Mickey Cohen has been quiet since his release from prison and the LAPD has seemingly regained control of the city. But the underground is a different story. Det. Harvey Slater and company have spent the last two years focused on Domino and his Syndicate’s unrelenting infiltration, but no matter how many people the hit squad kills, the real fight for Los Angeles rages on. Meanwhile, Slater’s being hounded by Internal Affairs, Bonnie Brae is missing, and everything is falling apart at the seams. The next entry in the Harvey Award-nominated series, Hit: 1957 takes us later in the seminal decade of change for the LAPD—familiar faces, new threats, and more sharp, smart noir. Even if you missed out on the first series, if you’re a fan of crime comics like Parker, Criminal, and Tumor, Hit: 1957 is in your wheelhouse.

Cultural Factors in Systems Design Robert W. Proctor,Shimon Y. Nof,Yuehwern Yih,2011-10-25 Cultural factors, in both the narrow sense of different national, racial, and ethnic groups, and in the broader sense of different groups of any type, play major roles in individual and group decisions. Written by an international, interdisciplinary group of experts, Cultural Factors in Systems Design: Decision Making and Action explores innovations in the understanding of how cultural differences influence decision making and action. Reflecting the diverse interests and viewpoints that characterize the current state of decision making and cultural research, the chapter authors represent a variety of disciplines and specialize in areas ranging from basic decision processes of individuals, to decisions made in teams and large organizations, to cultural influences on behavior. Balancing theoretical and practical perspectives, the book explores why the best laid plans go awry, examining conditions that can yield unanticipated behaviors from complex, adaptive sociotechnical systems. It highlights the different ways in which East Asians and Westerners make decisions and explores how to model and investigate cultural influences in interpersonal interactions, social judgment, and decision making. The book also reviews decision field theory and examines its implications for cross cultural decision making. With increasing globalization of organizations and interactions among people from various cultures, a better understanding of how cultural factors influence decision making and action is a necessity. Much is known about decision processes, culture and cognition, design of products and interfaces for human interaction with machines and organizational processes, however this knowledge is dispersed across several disciplines and research areas. Presenting a range of current research and new ideas, this volume brings together previously scattered research and explores how to apply it when designing systems that will be used by individuals of varied backgrounds.

The Great British Recording Studios Howard Massey,2015-10-01 (Book). The Great British Recording Studios tells the story of the iconic British facilities where many of the most important recordings of all time were made. The first comprehensive account of British recording studios ever published, it was written with the cooperation of the British APRS (Association of Professional Recording Services, headed by Sir George Martin) to document the history of the major British studios of the 1960s and 1970s and to help preserve their legacy. The book surveys the era's most significant British studios (including Abbey Road, Olympic, and Trident), with complete descriptions of each studio's physical facilities and layout, along with listings of equipment and key personnel, as well as details about its best-known technical innovations and a discography of the major recordings done there. Seamlessly interweaving

narrative text with behind-the-scenes anecdotes from dozens of internationally renowned record producers and a wealth of photographs (many never published before), this book brings to life the most famous British studios and the people who created magic there. Meticulously researched and organized, The Great British Recording Studios will inform and inspire students of the recording arts, music professionals, casual music fans, and anyone interested in the acoustically pristine facilities, groundbreaking techniques, and innovative artists and technicians that have shaped the course of modern recording.

Unveiling the Magic of Words: A Review of "EchoUp"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "EchoUp," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book is central themes, examine its distinctive writing style, and assess its profound affect the souls of its readers.
