Rosina Ehmann

Fire Stephen J. Pyne, 2019-08-12 Over vast expanses of time, fire and humanity have interacted to expand the domain of each, transforming the earth and what it means to be human. In this concise yet wide-ranging book, Stephen J. Pyne—named by Science magazine as “the world’s leading authority on the history of fire”—explores the surprising dynamics of fire before humans, fire and human origins, aboriginal economies of hunting and foraging, agricultural and pastoral uses of fire, fire ceremonies, fire as an idea and a technology, and industrial fire. In this revised and expanded edition, Pyne looks to the future of fire as a constant, defining presence on Earth. A new chapter explores the importance of fire in the twenty-first century, with special attention to its role in the Anthropocene, or what he posits might equally be called the Pyrocene.

Fire with Fire Destiny Soria, 2021-06-08 Raised to be fierce dragon slayers, two sisters end up on opposite sides of the impending war when one sister forms an unlikely, magical bond with a dragon in this standalone YA contemporary fantasy that's perfect for fans of *Slayer* and *Sorcery of Thorns*. Dani and Eden Rivera were both born to kill dragons, but the sisters couldn't be more different. For Dani, dragon slaying takes a back seat to normal high school life, while Eden prioritizes training above everything else. Yet they both agree on one thing: it's kill or be killed where dragons are concerned. Until Dani comes face-to-face with one and forges a rare and

magical bond with him. As she gets to know Nox, she realizes that everything she thought she knew about dragons is wrong. With Dani lost to the dragons, Eden turns to mysterious and alluring sorcerers to help save her sister. Now on opposite sides of the conflict, each sister will do whatever it takes to save the other. But the two are playing with magic that is more dangerous than they know, and there is another, more powerful enemy waiting for them both in the shadows.

Forest Fire Creates Inferno Louise Spilsbury, Richard Spilsbury, 2017-12-15
Forest fires can happen naturally, but the truth is that people cause them, too, often to terrible consequences. Readers learn how they start in both cases as well as how these fires spread, the damage they cause the environment, and how firefighters fight them on the ground and in the air. Case studies of recent forest fires, including the 2016 fires in California, provide readers with real-life examples to encourage connections between the book's STEM content and social studies concepts of conservation, community engagement, and the huge project of cleaning up a natural disaster like a forest fire.

Young Men and Fire Norman MacLean, 2017-05-01
National Book Critics Circle Award Winner: "The terrifying story of the worst disaster in the history of the US Forest Service's elite Smokejumpers." –Kirkus Reviews A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service's elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years, Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in this extraordinary book. Alongside Maclean's now-canonical *A River Runs Through It* and *Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This edition of Maclean's later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul. "A moving account of humanity, nature, and the perseverance of the human spirit." –Library Journal "Haunting." –The Wall Street Journal "Engrossing." –Publishers Weekly

The Strand Theatre Fire: The 1941 Brockton Tragedy and the Fallen Thirteen James E. Benson &

Nicole B. Casper,2017-03-06 On March 10, 1941, at 12:38 a.m., the Brockton Fire Department responded to Fire Alarm Box 1311, which was pulled for a fire at the Strand Theatre. Fire Alarm dispatched the deputy chief, three engine companies, a ladder company and Squad A. Within six minutes, a second alarm was struck. Less than one hour after the first alarm, the roof of the Strand collapsed, and what appeared to be a routine fire turned into a disaster that killed thirteen firefighters and injured more than twenty others. The disaster marks one of the largest losses of life to firefighters from a burning building collapse in the United States. Jim Benson and Nicole Casper chronicle this devastating tragedy and celebrate the community's heroes and resilience in the face of adversity.

Another popular platform for Fire books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some

notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
