Flights Olga Tokarczuk, 2018-08-14 WINNER OF THE NOBEL PRIZE IN LITERATURE WINNER OF THE MAN BOOKER INTERNATIONAL PRIZE NATIONAL BOOK AWARD FINALIST FOR TRANSLATED LITERATURE A visionary work of fiction by A writer on the level of W. G. Sebald (Annie Proulx) A magnificent writer. – Svetlana Alexievich, Nobel Prize-winning author of Secondhand Time A beautifully fragmented look at man's longing for permanence.... Ambitious and complex. – Washington Post From the incomparably original Polish writer Olga Tokarczuk, *Flights* interweaves reflections on travel with an in-depth exploration of the human body, broaching life, death, motion, and migration. Chopin's heart is carried back to Warsaw in secret by his adoring sister. A woman must return to her native Poland in order to poison her terminally ill high school sweetheart, and a young man slowly descends into madness when his wife and child mysteriously vanish during a vacation and just as suddenly reappear. Through these brilliantly imagined characters and stories, interwoven with haunting, playful, and revelatory meditations, *Flights* explores what it means to be a traveler, a wanderer, a body in motion not only through space but through time. Where are you from? Where are you coming in from? Where are you going? we call to the traveler. Enchanting, unsettling, and wholly original, *Flights* is a master storyteller's answer.

Vesper Flights Helen Macdonald, 2020-08-25 The New York Times-bestselling author of *H is for Hawk* explores the human relationship to the natural world in this “dazzling” essay collection (Wall Street Journal). In *Vesper Flights*, Helen Macdonald brings together a collection of her best loved essays, along with new pieces on topics ranging from nostalgia for a vanishing countryside to the tribulations of farming ostriches to her own private vespers while trying to fall asleep. Meditating on notions of captivity and freedom, immigration and flight, Helen invites us into her most intimate experiences: observing the massive migration of songbirds from the top of the Empire State Building, watching tens of thousands of cranes in Hungary, seeking the last golden orioles in Suffolk’s poplar forests. She writes with heart-tugging clarity about wild boar, swifts, mushroom hunting, migraines, the strangeness of birds’ nests, and the unexpected guidance and comfort we find when watching wildlife.

Book of Flights J. M. G. Le Clezio, 2015-05-18 Young Man Hogan's journey begins in the dazzling streets of a nameless necropolis, and leads across fleeting landscapes – deserts, seas, mountains, islands, cities and great plains – to countless entertainments and adventures in four continents. It is an exploration and a celebration, glittering and exuberant, of the writer's art and of life itself.

White Flights Jess Row, 2019-08-06 A bold, incisive look at race and reparative writing in American fiction, by the author of *Your Face in Mine* *White Flights* is a meditation on whiteness in American fiction and culture from the end of the civil rights movement to the present. At the heart of the book, Jess Row ties “white flight”—the movement of white Americans into segregated communities, whether in suburbs or newly gentrified downtowns—to white writers setting their stories in isolated or emotionally insulated landscapes, from the mountains of Idaho in Marilynne Robinson’s *Housekeeping* to the claustrophobic households in Jonathan Franzen’s *The Corrections*. Row uses brilliant close readings of work from well-known writers such as Don DeLillo, Annie Dillard, Richard Ford, and David Foster Wallace to examine the ways these and other writers have sought imaginative space for themselves at the expense of engaging with race. *White Flights* aims to move fiction to a more inclusive place, and Row looks beyond criticism to consider writing as a reparative act. What would it mean, he asks, if writers used fiction “to approach each other again”? Row turns to the work of James Baldwin, Dorothy Allison, and James Alan McPherson to discuss interracial love in fiction, while also examining his own family heritage as a way to interrogate his position. A moving and provocative book that includes music, film, and literature in its arguments, *White Flights* is an essential work of cultural and literary criticism.

Five Flights Up Toni Schlesinger, 2012-04-17 A flop house, a pumping station, a maid's room, a homeless center, a former brothel, a Richard Meier building, a circus trailer, a sail boat, a skyscraper, buildings named Esther and Loraine—just a few of the places New Yorkers call home. For the past eight years writer Toni Schlesinger has been bringing us these conversation places in her weekly column in the Village Voice. Arrow's Flight Mercedes Lackey, 1987-09-01 Follows the adventures of Talia as she travels the land as a Herald of Valdemar in the second book in the classic epic fantasy Arrows trilogy Talia could scarcely believe that she had finally earned the rank of full Herald. Yet though this seemed like the fulfillment of all her dreams, it also meant she would face trials far greater than those she had previously survived. For now Talia must ride forth to patrol the kingdom of Valdemar, dispending Herald's justice throughout the land. But in this realm beset by dangerous unrest, enforcing her rulings would require all the courage and skill Talia could command—for if she misused her own special powers, both she and Valdemar would pay the price!

Free Flight James Fallows, 2008-11-05 The troubles of the airline system have become acute in the post-terrorist era. As the average cost of a flight has come down in the last twenty years, the airlines have survived by keeping planes full and funneling traffic through a centralized hub-and-spoke routing system. Virtually all of the technological innovation in airplanes in the last thirty years has been devoted to moving passengers more efficiently between major hubs. But what was left out of this equation was the convenience and flexibility of the average traveler. Now, because of heightened security, hours of waiting are tacked onto each trip. As James Fallows vividly explains, a technological revolution is under way that will relieve this problem. *Free Flight* features the stories of three groups who are inventing and building the future of all air travel: NASA, Cirrus Design in Duluth, Minnesota, and Eclipse Aviation in Albuquerque, New Mexico. These ventures should make it possible for more people to travel the way corporate executives have for years: in small jet planes, from the airport that's closest to their home or office directly to the airport closest to where they really want to go. This will be possible because of a product now missing from the vast array of flying devices: small, radically

inexpensive jet planes, as different from airliners as personal computers are from mainframes. And, as Fallows explains in a new preface, a system that avoids the congestion of the overloaded hub system will offer advantages in speed, convenience, and especially security in the new environment of air travel.

The Lost Soul Olga Tokarczuk,2021-07-20 A beautifully illustrated meditation on the fullness of life for readers of all ages by by Nobel Prize-winning novelist Olga Tokarczuk. Olga Tokarczuk’s *The Lost Soul*, an experimental fable illustrated by Joanna Concejo and translated by Antonia Lloyd-Jones, resonates with our current moment. . . . What a striking, and lovely, material object it is. –New York Times *The Lost Soul*, by Olga Tokarczuk and illustrator Joanna Concejo, is a quiet meditation on happiness, following a busy man who loses his soul. . . It pours a childlike sense of wonder into a once-upon-a-time tale that is already resonating with adults around the world. –The Guardian *The Lost Soul* is a deeply moving reflection on our capacity to live in peace with ourselves, to remain patient, attentive to the world. It is a story that beautifully weaves together the voice of the Nobel Prize-winning Polish novelist Olga Tokarczuk and the finely detailed pen-and-ink drawings of illustrator Joanna Concejo, who together create a parallel narrative universe full of secrets, evocative of another time. Here a man has forgotten what makes his heart feel full. He moves to a house away from all that is familiar to him to wait for his soul to return. Once upon a time there was a man who worked very hard and very quickly, and who had left his soul far behind him long ago. In fact his life was all right without his soul—he slept, ate, worked, drove a car and even played tennis. But sometimes he felt as if the world around him were flat, as if he were moving across a smooth page in a math book that was covered in evenly spaced squares... –from *The Lost Soul* *The Lost Soul* is a sublime album, a rare delicacy that will delight readers young and old. You must find a place of your own, sit there quietly and wait for your soul. Winner of the Bologna Ragazzi Award, Special Mention 2018, Prix de l'Union Internationale pour les Livres de Jeunesse (IBBY), The White Raven (IJB Munich), and the Łódź Design Festival Award.

The history of aviation is full of accounts of history's most spectacular flights. But what about the ones from which someone failed to return? - A celebrated millionaire--who also happened to be the world's foremost aviator--lifted off in a small plane one clear morning in 2007 and disappeared. - The glamorous son of a beloved fallen president took off on a hazy summer night in 1999 and plunged himself and two others into the Atlantic Ocean. - A US Navy blimp landed one Sunday morning in 1942 in the middle of a city street in California with no one aboard. Some of these non-returns occurred because of errors in judgment; others were intentional, and some resulted from causes still unknown. Get the full, meticulous account of the fascinating people involved in these flights, the mistakes they made, and the ways in which their flight of no return affected the world. Pilot and aviation writer Steven A. Ruffin covers the entire 230-year span of manned flight in all types of aircraft through war and peace. Balloons, blimps, biplanes, jets, and spaceships have all suffered mishaps over the years.
