A Force More Powerful Peter Ackerman, Jack DuVall, 2015-12-01 This nationally-acclaimed book shows how popular movements used nonviolent action to overthrow dictators, obstruct military invaders and secure human rights in country after country, over the past century. Peter Ackerman and Jack DuVall depict how nonviolent sanctions--such as protests, strikes and boycotts--separate brutal regimes from their means of control. They tell inside stories--how Danes outmaneuvered the Nazis, Solidarity defeated Polish communism, and mass action removed a Chilean dictator--and also how nonviolent power is changing the world today, from Burma to Serbia.

FORCE: Dynamic Life Drawing Mike Mattesi, 2017-03-27 Bring your artwork to life with the power of the FORCE! Watch, listen, and follow along as Mike Mattesi demonstrates the fundamental FORCE line and explains dynamic figure drawing techniques through 30 videos that are launched through the book's companion App. Packed with superb, powerfully drawn examples, the updated third edition of FORCE features an all-new section on the FORCE blob, and dozens of fresh illustrations. Mike Mattesi's 10th anniversary edition of FORCE will teach readers how to put thought and imagination to paper. Whether you are an illustrator, animator, comic book artist, or student, you'll learn to use rhythm, shape, and line to bring out the life in any subject. The 10th Anniversary Edition contains numerous improvements. Around 30 videos are embedded within the book and accessible through the FORCE Drawing App. In the App, click on the image of the camera, point your mobile device's camera at the page with the symbol, and then finally tap the video card image floating above the drawing to launch the video. Then sit back and watch the video that shows me creating that drawing and discussing my process. Many new drawings can be found within this edition and the addition of color now further clarifies the theory of FORCE. Key Features The unique, dynamic learning system that has helped thousands of artists enhance their figure drawing abilities Dozens of updated illustrations and all-new content, exclusive to the 3rd edition Select pages can be scanned by your smartphone or other device to pull up bonus video content, enhancing the learning process Companion App: Nearly 50 videos are available on the free FORCE Drawing companion app that can be downloaded through Google Play or the Apple App Store

Concepts of Force Max Jammer, 2012-07-31 This work by a noted physicist traces conceptual development from ancient to modern times. Kepler's initiation, Newton's definition, subsequent reinterpretation — contrasting concepts of Leibniz, Boscovich, Kant with those of Mach, Kirchhoff, Hertz. An excellent presentation. — Science.

The Force Don Winslow, 2017-06-20 Instant New York Times Bestseller Best of 2017 - included on best-of lists by the New York Times, NPR, Barnes & Noble, Publisher's Weekly, LitHub, BookPage, Booklist, TheRealBookSpy.com, the Financial Times (UK) and the Daily Mail (UK) "The Force is mesmerizing, a triumph. Think The Godfather, only with cops. It's that good." — Stephen King The acclaimed, award-winning, bestselling author of The Cartel—voted one of the Best Books of the Year by more than sixty publications, including the New York Times—returns with a cinematic epic as explosive, powerful, and unforgettable as Mystic River and The Wire. Our ends know our beginnings, but the reverse isn't true . . . All Denny Malone wants is to be a good cop. He is "the King of Manhattan North," a highly decorated NYPD detective sergeant and the real leader of "Da Force." Malone and his crew are the smartest, the toughest, the quickest, the bravest, and the baddest, an elite special unit given unrestricted authority to wage war on gangs, drugs and guns. Every day and every night for the eighteen years he's spent on the Job, Malone has served on the front lines, witnessing the hurt, the dead, the victims, the perps. He's done whatever it takes to serve and protect in a city built by ambition and corruption, where no one is clean—including Malone himself. What only a few know is that Denny Malone is dirty: he and his partners have stolen millions of dollars in drugs and cash in the wake of the biggest heroin bust in the city's history. Now Malone is caught in a trap and being squeezed by the Feds, and he must walk the thin line between betraying his brothers and partners, the Job, his family, and the woman he loves, trying to survive, body and soul, while the city teeters on the brink of a racial conflagration that could destroy them all. Based on years of research inside the NYPD, this is the great cop novel of our time and a book

only Don Winslow could write: a haunting and heartbreaking story of greed and violence, inequality and race, crime and injustice, retribution and redemption that reveals the seemingly insurmountable tensions between the police and the diverse citizens they serve. A searing portrait of a city and a courageous, heroic, and deeply flawed man who stands at the edge of its abyss, *The Force* is a masterpiece of urban living full of shocking and surprising twists, leavened by flashes of dark humor, a morally complex and utterly riveting dissection of modern American society and the controversial issues confronting and dividing us today.

FORCE: Drawing Human Anatomy Mike Mattesi, 2017-01-06 The newest book in Michael Mattesi's *Force Drawing* series takes movement to the next level. *Force: Drawing Human Anatomy*, explores the different facets of motion and the human body. As opposed to the memorization technique, Mattesi stresses the function of each body part and how gravity relative to different poses affects the aesthetics and form of muscle. The chapters are divided by the different parts of the body, thus allowing the reader to concentrate on mastery one body part at a time. Color coded images detail each muscle and their different angles. Special consideration is given to anatomy for animation, allowing the reader to create a character that is anatomically accurate in both stillness and motion. Key Features Detailed visual instruction includes colourful, step-by-step diagrams that allow you to easily follow the construction of an anatomically correct figure. Clearly organized and color coded per regions of the body's anatomy, a clarity of design for better reader understanding. Learn how anatomy is drawn and defined by the function of a pose. Visit the companion website for drawing demonstrations and further resources on anatomy.

Power vs. Force David R. Hawkins, M.D., Ph.D., 2014-01-30 An internationally bestselling must-read for those on a personal development path from world-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness, David Hawkins, M.D., Ph.D. Dive deep into the realms of consciousness with Dr. David Hawkins' groundbreaking masterpiece, *Power vs. Force*, a roadmap to understanding human behavior and emotions. [A] beautiful gift of writing . . . [Dr. David Hawkins] spreads joy, love, and compassion through what he writes. The fruit of these three is peace, as you know . . . — Mother Teresa Imagine—what if you had access to a simple yes-or-no answer to any question you wished to ask? A demonstrably true answer. Any question . . . think about it. — from the Foreword We think we live by forces we control, but in fact we are governed by power from unrevealed sources, power over which we have no control. — from the author's Preface The universe holds its breath as we choose, instant by instant, which pathway to follow; for the universe, the very essence of life itself, is highly conscious. Every act, thought, and choice adds to a permanent mosaic; our decisions ripple through the universe of consciousness to affect the lives of all. — from *Power vs. Force* . . . particularly timely . . . a significant contribution to understanding and dealing with the problems we face today. — Lee Iacocca Overwhelming! A masterpiece! A lifetime work! — Sheldon Deal, President, International College of Applied Kinesiology "Love is more powerful than hatred; truth sets us free; forgiveness liberates both sides; unconditional love heals; courage empowers; and the essence of Divinity/Reality is peace." — David R. Hawkins, M.D., Ph.D. In this life-changing motivational book you'll learn how to: · Tap into the genius consciousness that lies within us all. · Master your emotions and harness your inner power. · Make better decisions and have more peace. · Understand the energy dynamics that influence your life. *Power vs. Force* stands tall among motivational books, self-development books, and spiritual books, offering inspiration and guidance to all who seek it. Its profound insights and practical wisdom make it an encouraging book to cultivate a more conscious and fulfilling life. Unleash your potential, rise above your limitations, embrace the genius within, and begin your journey toward success and emotional mastery today.

Air Force Posture Statement United States. Dept. of the Air Force,

Ballistic Force Don Pendleton,2014-01-15 IRON FIST A raid on Korean gang activity in California takes a dangerous turn into a world crisis, when Mack Bolan uncovers intelligence involving North Korea's nuclear weapons program. A group of high-level defectors from the Project Kanggye Nuclear Team— scientists with firsthand knowledge of North Korean missile strike capabilities—is being systematically abducted back to their homeland. RADICAL STATE Unable to stop the kidnappers before they complete their mission, Bolan and elite Stony Man team members track the enemy to the Changchon Mountains, where North Korea's despotic leader is about to achieve preemptive strike capability with enough hidden nuclear warheads to sprout mushroom clouds all across America.

Advanced Force Operations Usmc Command USMC Command and Staff College,2014-12-04 The Marine Corps effective execution of advanced force operation (AFO) are a critical component in the Marine Corps role in transitioning from pre-crisis activities (PCA) to crisis response. AFO are core mission to the MAGTF and consist of Clandestine Reconnaissance and surveillance (R&S); joint reception, staging, onward movement, and integration of forces (JRSOI); information operations, terminal guidance; and limited direct action operation. Although Marine Corps has in fact developed comprehensive MAGTF capabilities, it would benefit from having AFO specific doctrine and operation concepts. This Doctrine would guide its conduct and synchronize its effects

Prelude to the Total Force Charles Joseph Gross,1985 This volume is a study of the origins and evolution of the Air National Guard. This history was written during 1978-1979 by the author as part of his doctoral program in military history. The expanding role of the Guard and its close cooperation with the Air Force are the author's themes, explaining the rise of the Guard to the prominence it plays in today's air operations.

The Enlisted Force Structure United States. Department of the Air Force,1986

Necessary Force Phil Ward,2014-05-19 Maj. John Randal is back in Book VI in the Raiding Forces Series. He travels to the RAF Base located at Habbaniya sixty miles south of Bagdad to see Lt. Pamala Plum-Martin be awarded her pilots wings from the flying school located there. RAF Habbaniya is a base that the war has passed by, senior officers at the end of their career are assigned as well as pilots who are not considered good enough for combat flying or pilots who have become combat fatigued from flying combat tours and need a rest. Maj. Randal, the MI-6 senior officer Jim 'Baldie' Taylor and Lt. Penelope Honeycutt-Parker fly into the RAF Base the same day the Iraqi rebels of the Golden Square lay the place to siege by occupying the heights just outside the perimeter wire. They find themselves in a situation that is described to Maj. Randal in terms an American can understand...this is 1836 and you just checked in to the Hotel Alamo. What happens next is an action packed story of a battle that has been lost to history.

Customary International Law on the Use of Force Enzo Cannizzaro,Paolo Palchetti,2005-11-01 This book comes out at a time of grave uncertainty about the content and the very existence of international legal restraints on the use of force, in the international community as well as among legal scholars. The time is therefore ripe for an in-depth analysis on the methodological issues which constitute the basic bricks on which the legal discourse about the state of the law must be built. By offering the result of an open and frank discussion about the methodology of determining the law on the use of force at a time of perplexity, this timely book constitutes an invaluable contribution to legal analysis.

Air Force Research Review United States. Air Force. Systems Command,1971

The Rise and Fall of the Fifth Force Allan Franklin,Ephraim Fischbach,2016-03-03 This book provides the reader with a detailed and captivating account of the story where, for the first time, physicists ventured into proposing a new force of nature beyond the four known ones - the electromagnetic, weak and strong forces, and gravitation - based entirely on the reanalysis of existing experimental data. Back in 1986, Ephraim Fischbach, Sam Aronson, Carrick Talmadge and

their collaborators proposed a modification of Newton's Law of universal gravitation. Underlying this proposal were three tantalizing pieces of evidence: 1) an energy dependence of the CP (particle-antiparticle and reflection symmetry) parameters, 2) differences between the measurements of G, the universal gravitational constant, in laboratories and in mineshafts, and 3) a reanalysis of the Eötvös experiment, which had previously been used to show that the gravitational mass of an object and its inertia mass were equal to approximately one part in a billion. The reanalysis revealed that, contrary to Galileo's position, the force of gravity was in fact very slightly different for different substances. The resulting Fifth Force hypothesis included this composition dependence and also added a small distance dependence to the inverse-square gravitational force. Over the next four years numerous experiments were performed to test the hypothesis. By 1990 there was overwhelming evidence that the Fifth Force, as initially proposed, did not exist. This book discusses how the Fifth Force hypothesis came to be proposed and how it went on to become a showcase of discovery, pursuit and justification in modern physics, prior to its demise. In this new and significantly expanded edition, the material from the first edition is complemented by two essays, one containing Fischbach's personal reminiscences of the proposal, and a second on the ongoing history and impact of the Fifth Force hypothesis from 1990 to the present.
