**Managing Online Forums** Patrick O'Keefe, 2008-04-21 Every day, millions of users log on to their favorite online forums and interact with others to get advice and discuss everything from the latest news and trends to their hobbies, professions, and whatever else strikes their fancy. Administrators have to lead these communities, deal with difficult users, and choose moderators. Legal constraints, spammers, and technical issues can turn the excitement of running an online community into chaos. With the right guidance, however, running forums can be a pleasure. Patrick O'Keefe has spent years developing and managing online communities. Now, he shows readers how to make the right decisions about every aspect of their forums, including: • choosing a name and domain name • picking the right software • deciding on user options like avatars and private messaging • setting guidelines and dealing with violators • ensuring that posts stay on topic • settling online disputes among users • involving users and keeping the site interesting **Managing Online Forums** is the one book that shows site owners and administrators how to create a safe and entertaining community that users will return to again and again.

**Rivers of London** Ben Aaronovitch,2024-01-16 10th Anniversary Edition of Midnight Riot by #1 Sunday Times bestselling author Ben Aaronovitch, the first book in the international bestselling Rivers of London series! Restored to its original British title Rivers of London, this Author's Preferred Edition includes revised text never before seen by US readers and a new introduction by the author. My name is Peter Grant and until recently I was just another probationary constable in that mighty army for justice known to all right thinking people as the Metropolitan Police and by everyone else as the filth. My only concerns in life were avoiding a transfer to the Case

Progression Unit - We do paperwork so other coppers don't have to - and where to get a hot coffee while on late shift. Then one night, in pursuance of a murder inquiry, I tried to take a witness statement from a man who was dead, but disturbingly voluble and that brought me to the attention Chief Inspector Nightingale, the last wizard in Britain. And that, as they say, is where the story really starts. Now I'm in plain clothes and the first apprentice wizard in fifty years, and my world has become somewhat more complicated. Now I'm dealing with nests of vampires in Purley, negotiating a truce between the warring god and goddess of the River Thames and digging up graves in Covent Garden - and that's just the routine stuff. Because there's something festering at the heart of the city I love, a malicious, vengeful spirit that takes ordinary Londoners and twists them into grotesque mannequins to act out its drama of violence and despair. The spirit of riot and rebellion has awakened in the city, and it's fallen to me to bring order out of chaos - or die trying. Which, I don't mind telling you, would involve a hell of a lot of paperwork.

Learning Language and Culture Via Public Internet Discussion Forums Barbara Hanna, Juliana De Nooy, 2009-03-31 Public Internet discussion forums offer vast possibilities for interaction with speakers of other languages, with newspaper websites from many countries proposing forums on a smorgasbord of topics from travel to tertiary education to techno music. These sites provide

opportunities both for authentic foreign language practice, and for developing intercultural competence. Currently, however, public forums are largely ignored by language educators in favour of purpose-built exchanges between learners. The authors investigate the untapped pedagogical potential of these forums. Drawing on examples from English- and French-language media websites, they explore cultural differences in public forum discussion, and propose guidelines for participating effectively and maximising the learning opportunities. Case studies highlight the skills needed to venture beyond learner-to-learner interaction and engage with another culture autonomously, in roles other than that of student. The emphasis on strategies for successful and culturally sensitive interaction in authentic contexts makes the book a valuable tool for teachers and learners of any language.

Forum Josh Wardrip, 2022-03 In an unnamed town, an anonymous narrator scrupulously plans and commits an unspeakable, seemingly random act of mass-casualty violence. With a taut and nonlinear exposition that portrays with devastating precision an enigmatic loner's gradual transition from hedonistic anomie to an increasingly strange and sinister obsession, Josh Wardrip's brilliantly intricate debut novel gleefully dissects the raw existential horror of flophouses, mental hospitals, and everyday life. As a primal howl in the wilderness that doubles as an exquisitely structured puzzle, Forum is a meditation on delusion, interiority, and the sources of evil.

**Forum Shopping Despite Unification of Law** Franco Ferrari, 2021-08-16

According to some commentators, forum shopping is an “evil” that must be eradicated. It has been suggested that the unification of substantive law through international conventions constitutes one way to achieve this outcome. This book shows that the drafting of uniform substantive law convention cannot prevent forum shopping. The reasons are classified into two main categories: convention-extrinsic and convention-intrinsic reasons. The former category comprises those reasons upon which uniform substantive law conventions do not have an impact at all. These reasons range from the costs of access to justice to the bias of potential adjudicators to the enforceability of judgments. The convention-intrinsic reasons, on the other hand, are reasons that relate to the nature and design of uniform substantive law conventions, and include their limited substantive and international spheres of application as well as their limited scope of application, the need to provide for reservations, etc. This book also focuses on another reason why forum shopping cannot be overcome: the impossibility of ensuring uniform applications and interpretations of the various uniform substantive law conventions.
