Getting There Gillian Zoe Segal, 2015-04-14 "The highest achievers share some of their lowest moments, and there is much wisdom to be gained from those struggles. Captivating, thought-provoking." –David Faber, CNBC The path to success is rarely easy or direct, and good mentors are hard to find. In *Getting There*, thirty leaders in diverse fields share their secrets to navigating the rocky road to the top. In an honest, direct, and engaging way, these role models describe the obstacles they faced, the setbacks they endured, and the vital lessons they learned. They dispense not only essential and practical career advice, but also priceless wisdom applicable to life in general. *Getting There* is for everyone—from students contemplating their futures to the vast majority of us facing challenges or seeking to reach our potential. "Kudos to Gillian Zoe Segal for assembling this remarkable group of visionaries and helping them all tell their stories without filters or false bravado. *Getting There* is both empowering and illuminating." –Piper Kerman, New York Times—bestselling author of *Orange Is the New Black* "Life-changing, real-world advice." –Vanity Fair "Reading *Getting There* is like having an intimate, one-on-one talk with some of the world's most fascinating and accomplished people. You will be taken aback by their honesty, entertained by their anecdotes, and, most of all, learn invaluable lessons about both business and life. This book is fantastic—you will not be able to put it down!"—JJ Ramberg, bestselling author of *It's Your Business* "Somehow, Gillian Zoe Segal has

gotten these leaders to share their stories in a unique, authentic, and revealing way.” –Robert Steven Kaplan, former president and CEO of the Federal Reserve Bank of Dallas

Getting In Paris H. Grey, David G.

Oppenheimer, 2023-05-26 An empowering guide for students in STEMM that demystifies the process of securing undergraduate research experiences. Conducting research is an important foundation for many undergraduates on STEMM career paths. But landing an extremely competitive research spot that is also an enriching experience involves knowing how to present yourself effectively and an awareness of your goals and expectations. In this book, an expert lab manager and a longtime principal investigator share their secrets for obtaining these coveted positions. Offering advice to students in a wide variety of STEMM fields at both research-intensive universities and primarily undergraduate institutions, *Getting In* helps students navigate the hidden curriculum of academia, unofficial rules that disproportionately affect first-generation college students and those from low-income backgrounds and communities historically underrepresented in science. The authors provide not only an overview of STEMM research and lab opportunities but also specific strategies for the entire application process—including how to write emails that get noticed by busy professors, how to ask for a research position during office hours, and interview questions to prepare for—so students can claim their place in research settings. With its emphasis on the many interpersonal and

professional benefits of research experiences, Getting In equips all STEMM undergrads with the tools they need both to secure these valued positions and to develop habits that will build productive relationships with their future research mentors. As an undergrad, Getting In will help you: determine how much time you can spend on research by evaluating your current activity level and goals. find the time to do research without giving up your social life or risking your GPA. avoid common mistakes in the search, application, or interview that make it harder to find a research experience. write emails that get you noticed by busy professors by customizing the included templates. prepare for tough interview questions so you'll impress the interviewer with your answers, and be able to determine if the position is right for you. As a research mentor, Getting In will help your students: navigate the hidden curriculum of finding a research experience in science, technology, engineering, math, and medicine (STEMM). set realistic expectations for their research experience. understand why conducting research requires effort and will include some failure and other challenges. be active participants in their success in the lab.

Getting Things Done David Allen, 2015-03-17 The book Lifehack calls The Bible of business and personal productivity. A completely revised and updated edition of the blockbuster bestseller from 'the personal productivity guru'—Fast Company Since it was first published almost fifteen years ago, David Allen's Getting Things Done has become one of the most influential business books of its

era, and the ultimate book on personal organization. "GTD" is now shorthand for an entire way of approaching professional and personal tasks, and has spawned an entire culture of websites, organizational tools, seminars, and offshoots. Allen has rewritten the book from start to finish, tweaking his classic text with important perspectives on the new workplace, and adding material that will make the book fresh and relevant for years to come. This new edition of *Getting Things Done* will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

The Book of Getting Even Benjamin Taylor, 2008-05-20 Son of a rabbi, budding astronomer Gabriel Geismar is on his way from youth to manhood in the 1970s when he falls in love with the esteemed and beguiling Hundert family, different in every way from his own. Over the course of a decade-long drama unfolding in New Orleans, Philadelphia, New York, Chicago, and the Wisconsin countryside, Gabriel enters more and more passionately and intimately into the world of his elective clan, discovering at the inmost center that he alone must bear the full weight of their tragedies, past and present. Yet *The Book of Getting Even* is funny and robust, a novel rich in those fundamentals we go to great fiction for: the exploration of what is hidden, the sudden shocks, the feeling at last of life laid bare.

Getting Smart Tom Vander Ark, 2011-09-20 A comprehensive look at the promise and potential of online learning In our digital age, students have

dramatically new learning needs and must be prepared for the idea economy of the future. In *Getting Smart*, well-known global education expert Tom Vander Ark examines the facets of educational innovation in the United States and abroad. Vander Ark makes a convincing case for a blend of online and onsite learning, shares inspiring stories of schools and programs that effectively offer personal digital learning opportunities, and discusses what we need to do to remake our schools into smart schools. Examines the innovation-driven world, discusses how to combine online and onsite learning, and reviews smart tools for learning. Investigates the lives of learning professionals, outlines the new employment bargain, examines online universities and smart schools. Makes the case for smart capital, advocates for policies that create better learning, studies smart cultures.

Getting It Published William P. Germano, 2010-10-21 Since 2001 William Germano's *Getting It Published* has helped thousands of scholars develop a compelling book proposal, find the right academic publisher, evaluate a contract, handle the review process, and, finally, emerge as published authors. But a lot has changed in the past seven years. With the publishing world both more competitive and mor...

The Essential Guide to Getting Your Book Published Arielle Eckstut, David Henry

Sterry,2010-11-04 Now updated for 2015! The best, most comprehensive guide for writers is now revised and updated, with new sections on ebooks, self-publishing, crowd-funding through Kickstarter, blogging, increasing visibility via online marketing, micropublishing, the power of social media and author websites, and more—making The Essential Guide to Getting Your Book Published more vital than ever for anyone who wants to mine that great idea and turn it into a successfully published book. Written by experts with twenty-five books between them as well as many years' experience as a literary agent (Eckstut) and a book doctor (Sterry), this nuts-and-bolts guide demystifies every step of the publishing process: how to come up with a blockbuster title, create a selling proposal, find the right agent, understand a book contract, and develop marketing and publicity savvy. Includes interviews with hundreds of publishing insiders and authors, including Seth Godin, Neil Gaiman, Amy Bloom, Margaret Atwood, Leonard Lopate, plus agents, editors, and booksellers; sidebars featuring real-life publishing success stories; sample proposals, query letters, and an entirely updated resources and publishers directory.

Getting Culture Regan A. R. Gurung,Loreto R. Prieto,2023-07-03 How do we educate our students about cultural diversity and cultural differences, and eliminate cultural ignorance, stereotyping, and prejudice? What are the conceptual issues involved in reaching this goal? How can we integrate these perspectives in disciplinary and diversity courses, and the curriculum?This book is

a resource for answering these questions. Within the framework of current scholarship and discussion of essential concepts, it offers practical techniques, and empirically proven “best practices” for teaching about diversity. The book opens with a conceptual framework, covering such issues as distinguishing teaching to a diverse audience from teaching about diversity and contrasting the incorporation of culture across the curriculum with tokenistic approaches. Subsequent chapters identify classroom practices that can optimize students’ learning, especially those from culturally diverse backgrounds; describe feminist principles of education that promote learning for all students; and address principles of effective on-line instruction for diverse populations. The book is intended for faculty integrating diversity into existing courses, and for anyone creating courses on diversity. The ideas and suggestions in the text can be incorporated into any class that includes a discussion of diversity issues or has a diverse student enrollment. The contributors offer pragmatic and tested ways of overcoming student misconceptions and resistance, and for managing emotional responses that can be aroused by the discussion of diversity. The editors aim to stimulate readers’ thinking and inspire fresh ideas. The book further provides teachers of diversity with a range of effective exercises, and attends to such issues as teacher stress and burnout. This book can also serve to inform and guide department chairs and other administrators in the design and implementation of diversity

initiatives.

Getting Straight A's Gordon W. Green, 1993 This is a proven system for achieving excellence in college and graduate school by becoming test-wise and making the system work for you. The methods presented here apply to any subject or discipline and will accommodate almost any personal lifestyle.

It's Getting Scot in Here Suzanne Enoch, 2019-02-26 The first in a wickedly seductive new Scottish historical romance series from New York Times bestselling author Suzanne Enoch! "It's time to fall in love with Suzanne Enoch." – Lisa Kleypas *HAPPILY-EVER-AFTER* London socialite Amelia-Rose Baxter is nobody's fool. Her parents may want her to catch a title, but she will never change who she is for the promise of marriage. Her husband will be a man who can appreciate her sharp mind as well as her body. A sophisticated man who loves life in London. A man who considers her his equal—and won't try to tame her wild heart... *IN THE HIGHLANDS* Rough, rugged Highlander Niall MacTaggart and his brothers know the rules: the eldest must marry or lose the ancestral estate, period. But Niall's eldest brother just isn't interested in the lady his mother selected. Is it because Amelia-Rose is just too. . . Free-spirited? Yes. Brazen? Aye. Surely Niall can find a way to soften up the whip-smart lass and make her the perfect match for his brother for the sake of the family. *JUST GOT A WHOLE LOT HOTTER*. Instead it's Niall who tempts Amelia-Rose, despite her reservations about barbarian Highlanders. Niall finds the lass nigh irresistible as well,

but he won't make the mistake his father did in marrying an Englishwoman who doesn't like the Highlands. Does he have what it takes to win her heart? There is only one way to find out...

Getting Risk Right Geoffrey C. Kabat, 2016-11-22
Do cell phones cause brain cancer? Does BPA threaten our health? How safe are certain dietary supplements, especially those containing exotic herbs or small amounts of toxic substances? Is the HPV vaccine safe? We depend on science and medicine as never before, yet there is widespread misinformation and confusion, amplified by the media, regarding what influences our health. In *Getting Risk Right*, Geoffrey C. Kabat shows how science works—and sometimes doesn't—and what separates these two very different outcomes. Kabat seeks to help us distinguish between claims that are supported by solid science and those that are the result of poorly designed or misinterpreted studies. By exploring different examples, he explains why certain risks are worth worrying about, while others are not. He emphasizes the variable quality of research in contested areas of health risks, as well as the professional, political, and methodological factors that can distort the research process. Drawing on recent systematic critiques of biomedical research and on insights from behavioral psychology, *Getting Risk Right* examines factors both internal and external to the science that can influence what results get attention and how questionable results can be used to support a particular narrative concerning an alleged public health threat. In this book, Kabat provides a much-needed antidote to what has been

called an epidemic of false claims.

Getting to the Heart of Science Communication Faith Kearns, 2021-05-11 Scientists today working on controversial issues from climate change to drought to COVID-19 are finding themselves more often in the middle of deeply traumatizing or polarized conflicts they feel unprepared to referee. It is no longer enough for scientists to communicate a scientific topic clearly. They must now be experts not only in their fields of study, but also in navigating the thoughts, feelings, and opinions of members of the public they engage with, and with each other. And the conversations are growing more fraught. In *Getting to the Heart of Science Communication*, Faith Kearns has penned a succinct guide for navigating the human relationships critical to the success of practice-based science. This meticulously researched volume takes science communication to the next level, helping scientists to see the value of listening as well as talking, understanding power dynamics in relationships, and addressing the roles of trauma, loss, grief, and healing.

Getting Ready for the Wedding Les Parrott, Leslie L. Parrott, 1997-12-23 This book will pinpoint specific concerns of engaged couples and provide accessible answers to their concern in the form of ten essays by various authors.

New York Characters Gillian Zoe Segal, 2001 Pays tribute to the wonderful collection of characters that are responsible for making New York a vibrant, diverse, and thrilling place, from local celebrities and famous personalities to extremely odd individuals, including Dancin' Larry, the

president of Coney Island's Polar Bear Club, the original Soup Nazi, and former mayor Ed Koch.

Getting There Stephen B. Goddard, 1996-11-15 From the glory days of the railroad to today's gridlocked, six-lane highway, *Getting There* dramatizes America's shift from rail to road transportation, how it has robbed Americans of the choice of travel options enjoyed by Europeans, and why it threatens the nation's economic future. Stephen B. Goddard reveals how government joined automakers and roadbuilders to nearly destroy the rails, and why the 21st century will witness high-tech remedies and a railroad resurgence.

Getting Even Evelyn Murphy, E.J. Graff, 2006-10-10 In a book sure to explode into public debate, *Getting Even* reveals why the wage gap between men and women is not going away on its own.

Getting It Alex Sanchez, 2007-10-09 Hoping to impress a sexy female classmate, fifteen-year-old Carlos secretly hires gay student Sal to give him an image makeover, in exchange for Carlos's help in forming a Gay-Straight Alliance at their Texas high school.

Getting Beyond "I Like the Book" Vivian Maria Vasquez, 2010 *Getting Beyond I Like the Book: Creating Space for Critical Literacy in k-6 Classrooms* (second edition) draws you into life in classrooms where students and teachers together use critical literacy as a framework for taking on local and global issues like racism and gender using books and everyday texts such as school posters and advertisements. This expanded second edition includes the following features: (1) Two additional content areas chapters--science and

social studies--to emphasize that critical literacy is not just a part of the literacy curriculum; (2) a new chapter on new technologies such as websites, videos, and podcasts and their impact on critical literacy; and (3) a fresh focus interspersed throughout the book on multimedia literacy and using multimedia text sets. In addition, reflection questions at the end of each chapter can help you connect the ideas in this book with your experiences.
