A Global Call to Prayer Germaine Copeland,2010-06-21 New from the author of the bestselling Prayers That Avail Much series comes this much needed book on prayer based on 2 Chronicles 7:14 If my people, which are called by my name, shall humble themselves and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sins, and will...

Global Call Center Employees in India Mayank Kumar Golpelwar,2015-10-23 Mayank Kumar Golpelwar analyses why Business Process Outsourcing (BPO) units and their young employees found themselves to be the target of severe criticism from India's middle classes. Using social and organizational psychological frameworks as well as ethnographic and variance analytic research, the author takes a look at the validity of the criticism against the BPO industry. He uses the framework of cultural theories to analyze and present the gap between the mainstream Indian culture and its rapidly emerging and globalized BPO sub-culture.

Redesigning The World Sam Pitroda,2021-04-26 The world was last designed seventy-five years ago, about the same time that Sam Pitroda was born. This design has outlived its utility. Hyperconnectivity and the COVID-19 pandemic offer a unique opportunity to redesign the world to take humanity to the next level. Redesigning the world is not about looking at it from the point of view of liberal or conservative; left or right; capitalism or socialism; public or private; democracy, dictatorship or monarchy; open or closed systems; rich or poor; urban or rural; east or west; white, brown, black or yellow. This proposed redesign of the world has the planet and its people at the centre; it is built on the foundations of sustainability, inclusion, equality, equity and justice so that everyone on earth can enjoy peace and prosperity. It is not an idealist or utopian vision, but one with humanity at its core. This book is about reshaping the world to meet the future challenges of our planet and our people.

Death by China Peter Navarro,Greg Autry,2011-05-05 The world's most populous nation and soon-to-be largest economy is rapidly turning into the planet's most efficient assassin. Unscrupulous Chinese entrepreneurs are flooding world markets with lethal products. China's perverse form of capitalism combines illegal mercantilist and protectionist weapons to pick off American industries, job by job. China's emboldened military is racing towards head-on confrontation with the U.S. Meanwhile, America's executives, politicians, and even academics remain silent about the looming threat. Now, best-selling author and noted economist Peter Navarro meticulously exposes every form of Death by China, drawing on the latest trends and events to show a relationship spiraling out of control. Death by China reveals how thousands of Chinese cyber dissidents are being imprisoned in Google Gulags; how Chinese hackers are escalating coordinated cyberattacks on U.S. defense and America's key businesses; how China's undervalued currency is damaging the U.S., Europe, and the global recovery; why American companies are discovering that the risks of operating in China are even worse than they imagined; how China is promoting nuclear proliferation in its pursuit of oil; and how the media distorts the China story--including a Hall of Shame of America's worst China apologists. This book doesn't just catalogue China's abuses: It presents a call to action and a survival guide for a critical juncture in America's history--and the world's. Publisher's note - in this book various quotes and viewpoints are attributed to a 'Ron Vara'. Ron Vara is not an actual person, but rather an alias created by Peter Navarro in order to present his views and opinions.

The Global Call To Marketplace Ministry Dwann Holmes,2020-04-30 We are now in a season where it has become popular to use the coined phrase Marketplace Ministry. But many believers still aren't quite sure what marketplace ministry is and isn't. While everyone is called to the great commission, there is a unique group of Kingdom Believers who fit into a broad yet very specific category that includes: SoloPreneurs, Entrepreneurs, Serial Business Developers, Music & Arts Professionals and more. These believers though passionate about excellence in their career have often been disenfranchised because of how they've been misappropriately labeled and judged inside the walls of the church. In this poignant prophetic pocket-guide Dwann Holmes takes believers on a unique explorative journey regarding ministry outside the walls of the church. Though this book will indeed release confirmation if you are still searching for answers regarding your marketplace ministry calling, it also provides insight and revelation for 5-fold ministry leaders who need a better understanding of how to effectively receive and affirm, these non-traditional ministers. Yes, there is a Global Call to Marketplace Ministry that more and more believers will soon answer in this 21st century.

A global call to action for gender-inclusive data collection and use Rajeev Colaço,Stephanie Watson-Grant,2021-12-01 The global data community has made—and is continuing to make—enormous strides toward collecting, analyzing, and using sex-disaggregated data to improve international development programs. Historically, however, sex-disaggregation has been—and largely continues to be—a binary representation of cisgender female and cisgender male populations. This binary interpretation excludes transgender and gender-nonconforming people and further perpetuates marginalization and discrimination of these populations. In a world where disparities are increasing, it is paramount to highlight and share the experiences of marginalized populations so we are better able to serve all beneficiary needs and end disparities. To this end, we call for a paradigm shift from binary sex-disaggregation to multinomial gender-disaggregation, which is more inclusive and equitable. This call to action is aimed particularly at surveyors, researchers, program implementors, policy makers, and gender rights advocates in both resource-sufficient and resource-constrained settings. The lack of adequate gender-disaggregated data is a universal problem.

An Agenda for Change Joel Edwards,2009-05-19 This is a compelling tract for our times (manifesto) addressed to evangelicals around the English-speaking world from the general director of the Evangelical Alliance. This umbrella group represents evangelical Christians in the United Kingdom and is part of the larger World Evangelical Alliance of 128 national and seven regional alliances including the National Association of Evangelicals in the USA. Written in an accessible style this short and readable manifesto issues a

prophetic call to help set the agenda for evangelicals to: * Present Christ credibly the 21st century * Rehabilitate term 'evangelical' as good news * Engage in spiritual and social transformation The book includes discussion questions to enable classes, groups, and teams to read and discuss the contents of the book. As the church faces challenges and opportunities, this book can serve as a catalyst to move the evangelical church forward to make a difference in the world by fostering spiritual and social transformation.

Language Put to Work Enda Brophy,2017-08-11 WINNER of The Gertrude J. Robinson Book Prize, awarded by the Canadian Communication Association, and the Canadian Association of Work and Labour Studies, Book of the Year Award. This book examines the striking rise of call centres over the past quarter century through the lens of the resistance and collective organizing generated by workers along the digital assembly lines. Drawing on field research in Atlantic Canada, Ireland, Italy, and New Zealand, Enda Brophy investigates the contested making of the transnational call centre workforce and its integration into the circuits of global capitalism. Moving beyond depictions of call centre labour as either entirely liberated or utterly subordinated, Language Put to Work inquires into the forms of work refusal and insubordination provoked by the spread of these communicative workplaces, including informal strategies of quitting, slacking and sabotage, conventional trade union activity, tactical innovations at the margins of the labour movement, and forms of self-organization forged by workers outside of the established trade union movement. Weaving rich empirical evidence together with political-economic analysis and theories of resistance, this book argues that the submission of language to the production of value in the call centre is a process of proletarianization rather than professionalization, and that the new working class has widely opposed this transformation.

A Global Call to End Terrorism Samuel A,2023-01-09 Terrorism is a type of violence used by individuals or groups to create fear among a population and to achieve political, religious, or ideological goals. It's a tactic that has been used for centuries and is still employed today in many parts of the world. Some of the most recent acts of terrorism have taken place in the Middle East, Africa, and Europe. Terrorist groups, such as the Islamic State in Iraq and Syria (ISIS), Al-Qaeda, and Boko Haram, are responsible for some of the deadliest attacks of recent years. In the United States, domestic terror groups, such as the Ku Klux Klan, have also been active. Governments around the world have taken steps to combat terrorism, but the threat remains.
