

Great

David Lebovitz

Great Books David Denby,2013-06-18 THE NATIONAL BESTSELLER At the age of forty-eight, writer and film critic David Denby returned to Columbia University and re-enrolled in two core courses in Western civilization to confront the literary and philosophical masterpieces -- the great books -- that are now at the heart of the culture wars. In *Great Books*, he leads us on a glorious tour, a rediscovery and celebration of such authors as Homer and Boccaccio, Locke and Nietzsche. Conrad and Woolf. The resulting personal odyssey is an engaging blend of self-discovery, cultural commentary, reporting, criticism, and autobiography -- an inspiration for anyone in love with the written word.

The Great Book of Chocolate David Lebovitz,2004-04-15 A compact connoisseur's guide, with recipes, to today's cutting-edge array of chocolates and chocolate makers from former Chez Panisse pastry chef David Lebovitz. In this compact volume, David Lebovitz gives a succinct cacao botany lesson, explains the process of chocolate making, runs through chocolate terminology and types, presents information on health benefits, offers an evaluating and buying primer, profiles the world's top chocolate makers and chocolatiers (with a whole chapter dedicated to Paris alone!), and shares dozens of little-known factoids in sidebars throughout the book. *The Great Book of Chocolate* includes more than 50 location and food photographs, and features more than 30 of Lebovitz's favorite chocolate recipes, from Black-Bottom Cupcakes to Homemade Rocky Road Candy, Orange and Rum Chocolate Mousse Cake to Double Chocolate Chip Espresso Cookies. His extensive resource section (with websites for international ordering) can bring the world's best chocolate to every door. A self-avowed chocoholic, Lebovitz nibbles chocolate every day, and with *The Great Book of Chocolate* in hand, he figures the rest of us will too.

Good to Great Jim Collins,2001-10-16 *The Challenge Built to Last*, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the *Good to Great* study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great

results. *Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap.* “Some of the key concepts discerned in the study,” comments Jim Collins, fly in the face of our modern business culture and will, quite frankly, upset some people.” Perhaps, but who can afford to ignore these findings?

Great by Choice Jim Collins, Morten T. Hansen, 2011-10-11 Ten years after the worldwide bestseller *Good to Great*, Jim Collins returns with another groundbreaking work, this time to ask: why do some companies thrive in uncertainty, even chaos, and others do not? Based on nine years of research, buttressed by rigorous analysis and infused with engaging stories, Collins and his colleague Morten Hansen enumerate the principles for building a truly great enterprise in unpredictable, tumultuous and fast-moving times. This book is classic Collins: contrarian, data-driven and uplifting.

Great Books Reader, The John Mark Reynolds, 2011-09 This anthology includes excerpts from thirty of the greatest works in western literature, and essays about those works written by distinguished professors, lecturers, and authors--Provided by publisher.

The Great Book of King Arthur John Matthews, 2022-06-21 Foreword by Neil Gaiman The world's leading Arthurian authority reimagines one of the most beloved and influential legends—the story of King Arthur and his Knights—for a new century in this gorgeous keepsake edition, illustrated with luminous full-color paintings and drawings by internationally acclaimed Tolkien artist John Howe. The stories of King Arthur and Merlin, Lancelot and Guinevere, Galahad, Gawain, Tristan and the rest of the Knights of the Roundtable, and the search for the Holy Grail have been beloved for centuries and are the inspiration of many modern fantasy novels, films, and shows. These legends began when an obscure Celtic hero named Arthur stepped on to the stage of history sometime in the sixth century, generating a host of oral tales that would be inscribed some 900 years later by Thomas Malory in his classic *Morte D'Arthur* (The Death of Arthur). The *Great Book of King Arthur* brings these legends into the modern age, using accessible prose for contemporary readers for the first time. In addition to the stories in *Morte D'Arthur*, John Matthews includes many tales of Arthur and his knights either unknown to Malory or written in other languages, such as the story of Avenable, the girl brought up as a boy who becomes a famous knight; Morien, whose adventures are as fantastic and exciting as any found in Malory's work; and a retelling of the life of Round Table favorite Gawain, from his strange birth to his upbringing among the poor to his ascension to the highest position—Emperor of Rome. In addition, there are some of the earliest tales of Arthur, deriving from the tradition of Celtic storytelling. The epic hero is represented in such powerful stories as “The Adventures of Eagle-boy” and “The Coming of Merlin,” which is based on the early medieval text *Vita Merlini* and tells a completely new version of the great enchanter's story. The *Great Book of King Arthur* includes 15 full-color paintings and 25 pencil drawings.

What Makes This Book So Great Jo Walton, 2014-01-21 As any reader of Jo Walton's *Among Others* might guess, Walton is both an inveterate reader of SF and fantasy, and a chronic re-reader of books. In 2008, then-new science-fiction mega-site Tor.com asked Walton to blog regularly about her re-reading—about all kinds of older fantasy and SF, ranging from acknowledged classics, to guilty pleasures, to forgotten oddities and gems. These posts have consistently been among the most popular features of Tor.com. Now this volume presents a selection of the best of them, ranging from short essays to long reassessments of some of the field's most ambitious series. Among Walton's many subjects here are the *Zones of Thought* novels of Vernor Vinge; the question of what genre readers mean by mainstream; the underappreciated SF adventures of C. J. Cherryh; the field's many approaches to time travel; the masterful

science fiction of Samuel R. Delany; Salman Rushdie's *Midnight's Children*; the early Hainish novels of Ursula K. Le Guin; and a Robert A. Heinlein novel you have most certainly never read. Over 130 essays in all, *What Makes This Book So Great* is an immensely readable, engaging collection of provocative, opinionated thoughts about past and present-day fantasy and science fiction, from one of our best writers. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Rescuing Socrates Roosevelt Montas, 2023-03-21 A Dominican-born academic tells the story of how the Great Books transformed his life—and why they have the power to speak to people of all backgrounds. What is the value of a liberal education? Traditionally characterized by a rigorous engagement with the classics of Western thought and literature, this approach to education is all but extinct in American universities, replaced by flexible distribution requirements and ever-narrower academic specialization. Many academics attack the very idea of a Western canon as chauvinistic, while the general public increasingly doubts the value of the humanities. In *Rescuing Socrates*, Dominican-born American academic Roosevelt Montás tells the story of how a liberal education transformed his life, and offers an intimate account of the relevance of the Great Books today, especially to members of historically marginalized communities. Montás emigrated from the Dominican Republic to Queens, New York, when he was twelve and encountered the Western classics as an undergraduate in Columbia University's renowned Core Curriculum, one of America's last remaining Great Books programs. The experience changed his life and determined his career—he went on to earn a PhD in English and comparative literature, serve as director of Columbia's Center for the Core Curriculum, and start a Great Books program for low-income high school students who aspire to be the first in their families to attend college. Weaving together memoir and literary reflection, *Rescuing Socrates* describes how four authors—Plato, Augustine, Freud, and Gandhi—had a profound impact on Montás's life. In doing so, the book drives home what it's like to experience a liberal education—and why it can still remake lives.

How to Think About the Great Ideas Mortimer Adler, 2000-03-01 Time magazine called Mortimer J. Adler a philosopher for everyman. In this guide to considering the big questions, Adler addresses the topics all men and women ponder in the course of life, such as What is love?, How do we decide the right thing to do?, and, What does it mean to be good? Drawing on his extensive knowledge of Western literature, history, and philosophy, the author considers what is meant by democracy, law, emotion, language, truth, and other abstract concepts in light of more than two millennia of Western civilization and discourse. Adler's essays offer a remarkable and contemplative distillation of the Great Ideas of Western Thought.

The Great Ideas Mortimer Jerome Adler, 1999 Previously published: New York : Macmillan, 1992.

Beyond Great Arindam Bhattacharya, Nikolaus Lang, Jim Hemerling, 2020-10-06 Great is no longer good enough. *Beyond Great* delivers a powerful new playbook of 9 core strategies to thrive in a post-COVID world where all the rules of the game are being re-written. *Beyond Great* answers to two fundamental questions which face business leaders today in a world shaped by daunting and disruptive technological, economic, and social change. First, what is outstanding performance in this new volatile era? Second, how do we build competitive advantage in a world with new and often uncertain rules? Supported by years of research and hands-on consulting practice, this book presents a comprehensive framework for building a high performing, resilient, adaptive, and socially responsible global company. The book begins by taking an incisive look at these disruptive forces transforming globalization, including economic nationalism; the boom in data flows and digital commerce; the rise of China; heightened public concerns about capitalism and the environment; and the emergence of borderless communities of digitally connected consumers. Distilled from the study of hundreds of companies and interviews with dozens of business leaders, the authors have

distilled nine core strategies – the new winning playbook of the 21st century. *Beyond Great* argues that business leaders today must lead with a new kind of openness, flexibility and light-footedness, constantly layering in new strategies and operational norms atop existing ones to allow for always-on transformation. Leaders must master a whole new set of rules about what it takes to be global, becoming shapeshifters adept at handling contradiction, multiplicity, and nuance. This book will show them how.

On Reading Well Karen Swallow Prior, 2018-09-04 ★ Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue, says acclaimed author Karen Swallow Prior. In this book, she takes readers on a guided tour through works of great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O'Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. The book includes end-of-chapter reflection questions geared toward book club discussions, original artwork throughout, and a foreword by Leland Ryken. The hardcover edition was named a Best Book of 2018 in Religion by Publishers Weekly. [A] lively treatise on building character through books.'--Publishers Weekly (starred review)

Peter the Great Diane Stanley, 1999-08-25 Peter the Great, crowned tsar of Russia at the age of ten, believed that whatever he wanted he should have -- and the sooner the better. What he wanted most was to bring his beloved country into the modern world. He traveled to the West to learn European ways -- the first tsar ever to leave Russia -- disguised as a common soldier. He explored the West with excitement and curiosity and returned home ready to undertake a series of momentous social reforms. And to satisfy his boyhood dream of a Russian naval port, he began to build, on a freezing swamp, a glittering new capital to be named St. Petersburg. In this welcome reissue of Diane Stanley's acclaimed picturebook biography, her meticulously researched text and sumptuous illustrations capture the fabulous world of seventeenth -- and eighteenth-century tsarist Russia and the greatness of its larger-than-life leader -- a man of huge stature and tremendous spirit whose impatience and vision, insatiable curiosity and boundless energy transformed half a continent.

Catherine the Great Robert K. Massie, 2011 Biography of Catherine II (1729-1796), 'the Great', empress of Russia from 1762 till 1796.
