CyberCulture Now: Social and Communication Behaviours on the Web Anna Maj, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2013. At present cyberculture is a dominating cultural paradigm and nothing seems to be able to replace it. We globally share the same cyberspace but there is a question whether we all together-the whole humankind-are really living in the same cyberculture? This book proves that we rather tend to define the contemporary state of culture as cybercultures. The process of spreading technologies, trends and ideas is not the same in all parts of the world. The varying speeds of this process and cultural diversity of its forms are created by different social, political, economic and cultural contexts. By representing different perspectives the authors depict a wide spectrum of the most important current problems connected with networked life, global sharing of data, loss of privacy, new meanings of community and developments in narrative structures and social behaviours arising from new communication possibilities, instantaneity of information and global viral sensitivity.

Youth, Media and Culture in the Asia Pacific Region Usha M. Rodrigues, Belinda Smail, 2009-05-05 Youth, Media and Culture in the Asia Pacific Region presents an analysis of youth media activities in a diverse, but geographically connected Asia Pacific region. The region, which is spatially connected by its colonial and imperial past, is becoming a significant player in the globalized world. In this context, youth situated in these economically, politically and socially structured communities are redefining their locales through their patterns of media use. The discourse of 'youth' in this disparate region is manifest in the media through their identity articulations and social activism. The book illustrates that these 'youth subcultures' in the Asia Pacific are part of the well marketed global consumerism culture, and yet at other times independent of the commodifying

impetus of global capital. It draws on case studies to examine some of the media practices youth in the region are engaged in and elucidates the process of social change taking place in some Asia Pacific nations. 'This book contributes to the important and growing field of youth media studies. The regionalization of media research is necessarily recuperated here, bringing large populations of media users into a frame of reference that allows critical reflection on the new waves of use and sociality in the Asia Pacific region.' Stephanie Hemelryk Donald, Professor of International Studies, UTS

Influence Redefined Stacey Hanke, 2017-02-07 Do you feel confident you're a leader with influence? You may be surprised to discover you're not as influential as you think you are. Your team is only as strong as your influence, and many leaders today are mistaken about what it means to be influential. An outdated influence paradigm, along with technological devices and distractions, is making it increasingly challenging for leaders to reach those they need to influence in order to be successful. In fact, many leaders are unwillingly and unknowingly sabotaging themselves and their influence. In her thought-provoking *Influence Redefined*, Stacey Hanke introduces her powerful Influence Model, a step-by-step method for improving communication and producing the ideal type of

influence—one that moves people to action long after an interaction is over. She dispels the most common influence myths and instructs leaders on how to stop sabotaging themselves in order to leave a positive, lasting impression. Using a results-based definition of influence for individuals and organizations, Hanke successfully shows leaders how they can develop influence as a skill through self-awareness, consistency, a positive reputation, adaptability, and impact. With insights from dozens of executives and business leaders, as well as practical how-tos and action steps, *Influence Redefined* will help leaders multiply and expand their influence every day, Monday to Monday®. Through Stacey Hanke, Inc., the author has provided keynotes, mentoring and training on communicating with influence to thousands of leaders across industries. She is the author of *Yes You Can!* and has appeared in the *New York Times* and *SmartMoney*. Hanke was recognized as one of the National Speakers Association's "Top 6 Under 40."

The Rough Guide to the Best Android Apps Peter Buckley, Andrew Clare, 2012-01-01 The 400 best for smartphones and tablets--Cover.

Adolescent Psychology in Today's World [3 volumes] Michael J. Nakkula, Andrew J. Schneider-Muñoz, 2018-11-02 This groundbreaking three-volume set spotlights how conditions around the world are affecting the healthy development of adolescents in their respective environments, on all six continents. Continually unstable or perpetually poor economic conditions, globalization, and rapid technological change are just three of the forces affecting a group 1.2 billion strong today, a demographic poised to become our world leaders and catalysts in the not-too-distant future: the world's adolescents. Led by two editors who have been dedicated to studying adolescent development worldwide for decades, this novel collection of works from contributors in more than 40 countries emphasizes how possibilities for healthy mental and physical development are affected by

the difficulties youths face in their countries and how these challenges have shaped, and are shaping, contemporary teenage life today. The set comprehensively addresses issues for adolescents across the globe, such as the day-to-day challenges of poverty, inadequate education, violence or war, disease, reproductive matters, globalization and technological challenges, and more, while also providing a strengths-based focus in the volumes, showing how and why some teenagers in each country have surmounted the challenges and forged stronger characters to better their worlds. These stories document more than personal victories, and their experiences matter to far more than the adolescents themselves. In its State of the World's Children 2011 report, UNICEF noted that the world community needs to turn its attention to adolescents in need, explaining that focusing on this large and potentially powerful group makes economic sense as well as being a necessary step in working towards achieving human justice. By addressing the risks, challenges, and strengths of teenagers as a group in countries worldwide, this work serves to break the cycle of poverty, violence, discrimination, and death for adolescents.

No News is Bad News Michael Bromley, 2014-09-11 This volume of collected essays provides a wide-ranging survey of the state of radio and television, especially the idea of public service broadcasting, and of news, current affairs and documentary programming in America, Australia, the UK and the rest of western Europe. Among the key issues it addresses are the 'dumbing down' of TV news, the infotainment factor in current affairs shows and the disappearance of the documentary. Using contemporary cases and examples - from the row over the scheduling of News at Ten in the UK to the creation of ABC News Online in Australia -- the essays link the performance of radio and television at the turn of the millennium with the processes of deregulation, liberalisation and digitalisation which have been evident since the 1980s. Working from a much needed and original

comparative approach which encompasses complex and well-established public broadcasting in the USA as well as emerging and vulnerable participatory radio stations in El Salvador, the book sets a variety of experiences of factual radio and television programming within wider political and cultural contexts. It offers analyses of not only the 'problems' associated with news, current affairs and documentary broadcasting in an era of a declining public service ethos and the apparent triumph of the market, however. The essays also explore the potential of alternative radio and television, new forms of communication, such as the internet, and changing practices among journalists and programme makers, as well as the resilience of public broadcasting and the powers of the public to ensure that the media remain relevant and accountable. A companion text to the bestselling *Sex, Lies and Democracy: The Press and the Public*, this volume presents a multi-faceted approach to the tumultuous present and the uncertain future of news, current affairs and documentary in radio and television.

Genealogies of Identity Margaret Sönser Breen, Fiona Peters, 2005 *Genealogies of Identity* examines issues of sex and sexuality across a range of critical and cultural perspectives. The volume considers historically specific discourses of sex and sexuality, their effect within public contexts such as the church and the workplace, and the link of those discourses to understandings of individual identity, citizenship, nation, and human rights. As well, the volume analyses representations of sexuality and desire in art, literature, theatre, and theory – representations that serve both to codify and to subvert social norms and aesthetic and theoretical traditions. Finally and more broadly, the volume attests to the critical importance of inter- and multidisciplinary approaches to understanding constructions of gender, sex, and sexuality. *Genealogies of Identity* consists of fifteen essays, versions of which were presented at the First Global Conference on Critical Issues in Sexuality, held in

Salzburg, Austria, in October 2004.

Rural Geography Michael Woods,2005-01-05 An introduction to contemporary rural societies and economies in the developed world, 'Rural Geography' examines the social and economic processes at work in the contemporary countryside.
