The Daedalus Incident Revised Michael Martinez,2016-03-15 Mars is supposed to be dead... a fact Lt. Shaila Jain of the Joint Space Command is beginning to doubt in a bad way. Freak quakes are rumbling over the long-dormant tectonic plates of the planet, disrupting its trillion-dollar mining operations and driving scientists past the edges of theory and reason. However, when rocks shake off their ancient dust and begin to roll—seemingly of their own volition—carving canals as they converge to form a towering structure amid the ruddy terrain, Lt. Jain and her JSC team realize that their routine geological survey of a Martian cave system is anything but. The only clues they have stem from the emissions of a mysterious blue radiation, and a 300-year-old journal that is writing itself. Lt. Thomas Weatherby of His Majesty's Royal Navy is an honest 18th-century man of modest beginnings, doing his part for King and Country aboard the HMS Daedalus, a frigate sailing the high seas between continents...and the immense Void between the Known Worlds. Across the Solar System and among its colonies—rife with plunder and alien slave trade—through dire battles fraught with strange alchemy, nothing much can shake his resolve. But events are transpiring to change all that. With the aid of his fierce captain, a drug-addled alchemist, and a servant girl with a remarkable past, Weatherby must track a great and powerful mystic, who has embarked upon a sinister quest to upset the balance of the planets—the consequences of which may reach far beyond the Solar System, threatening the very fabric of space itself. Set sail among the stars with this uncanny tale, where adventure awaits, and dimensions collide!

Incident at Howard Beach Charles J. Hynes and Bob Drury,2011-11-02 INCIDENT AT HOWARD BEACH A CASE FOR MURDER BY CHARLES J. HYNES and Bob Drury THE 25TH ANNIVERSARY

EDITION The murder that shocked a city and nation and how our justice system works at its best. Late on the night of December 19, 1986, four black men were driving through the all-white community of Howard Beach, in the New York City borough of Queens, when their car broke down. By the early hours of the next morning, one of them lay dead on the Belt Parkway and one had been beaten nearly to death with a tree limb and a baseball bat by a dozen local teenagers. In the months to come, "Howard Beach" became a code all over the world for the worst in racial tensions. The story behind the Howard Beach incident, its investigation and the subsequent trial is a story of hatred, brutality and deceit; of media outcry, political shuffling and public manipulation; of a cast of characters ranging from petrified politicians to outraged black activists to the quiet citizens of an insular neighborhood. But it was up to one man to bring the case to trial and steer it to its fair conclusion: Special Prosecutor Charles J. "Joe" Hynes. Incident at Howard Beach is his story—a riveting and candid exposé of his fight to discern what really happened that night, his struggle to make a coherent case out of those events, and the battles and tactics he used during the trial a year later in state supreme court. From the on-site investigation through jury selection, behind-the-scenes deal-making, and trial deliberation, here is everything that led to the convictions of the ringleaders and helped to quiet a city in turmoil. Charles J. Hynes Charles J. Hynes, the District Attorney of Brooklyn, New York, has been in public service for more than forty years. He has been chief of the Brooklyn DA's Rackets Bureau, a Special State Prosecutor investigating Medicaid Fraud, a Special State Prosecutor for Criminal Justice who prosecuted the Howard Beach case and a New York City Fire Commissioner. He has been the Brooklyn District Attorney since 1990. Bob Drury Contributing Editor and Chief Military Correspondent of Men's Health, Bob Drury has been nominated for three National Magazine Awards and a Pulitzer Prize. He is also the author, co-author, or editor of nine nonfiction books. "Re-reading Hynes's excellent account of this awful racial crime with 25 years of perspective once again brings the blood to rapid boil. I covered that crime. I watched Hynes fight for justice as a special prosecutor in the courtroom. I interviewed him during the trial. I believe that had it not been for his tenacious prosecution in this vile murder New York City would today be a much uglier city. Reading his new Forward and Epilogue reminds me of just how far we have come in race relations in New York since Howard Beach. History will not forget that Hynes had a helluva lot to do with that desperately needed change. For that reason alone this compelling, page-turning book deserves this second look. The Ox-Bow Incident Walter Van Tilburg Clark,2001-03-13 Set in 1885, The Ox-Bow Incident is a searing and realistic portrait of frontier life and mob violence in the American West. First published in 1940, it focuses on the lynching of three innocent men and the tragedy that ensues when law and order are abandoned. The result is an emotionally powerful, vivid, and unforgettable re-creation of the Western novel, which Clark transmuted into a universal story about good and evil, individual and community, justice and human nature. As Wallace Stegner writes, [Clark's] theme was civilization, and he recorded, indelibly, its first steps in a new country.

National Incident Management System Donald W. Walsh, 2005 In March 2004, the U.S. Department of Homeland Security implemented the National Incident Management System (NIMS), the country's first-ever standardized approach to incident management and response. Response agencies nationwide will need to become NIMS compliant in 2005. National Incident Management System: Principles and Practice translates the goals of the original NIMS document from concepts into capabilities, and provides responders with a step-by-step process to understanding and implementing NIMS. Through the use of case studies, readers will gain valuable insight on how to incorporate NIMS effectively into their departments or jurisdictions. As responders are faced with the tasks of reforming training curricula and incorporating NIMS into Standard Operating Procedures, it is essential that they have a practical resource to guide them through the nation's homeland security strategies, as well as to assist them with NIMS implementation in their own locality.

The Chaneyville Incident David Bradley, 2013-08-06 Winner of the PEN/Faulkner: "Rivals Toni Morrison's Song of Solomon as the best novel about the black experience in America since Ellison's Invisible Man" (The Christian Science Monitor). Brilliant but troubled historian John Washington has left Philadelphia, where he is employed by a major university, to return to his hometown just north of the Mason-Dixon Line. He is there to care for Old Jack, one of the men who helped raise him when he was growing up on the Hill, an old black neighborhood in the little Pennsylvania town—but he also wants to learn more about the death of his father. What John discovers is that his father, Moses Washington, left behind extensive notes on a mystery he was researching: why thirteen escaped slaves reached freedom in Chaneyville only to die there, for reasons forgotten or never known at all. Based on meticulous historical research, The Chaneyville Incident explores the power of our pasts, and paints a vivid portrait of realities such as the Underground Railroad's activity in Bedford County, Pennsylvania, and the phenomenon of enslaved people committing suicide to escape their fate. This extraordinary novel, a finalist for the National Book Award, was described by the Los Angeles Times as "perhaps the most significant work by a new black male author since James Baldwin dazzled in the early '60s with his fine fury," and placed David Bradley in the front ranks of contemporary American authors.
