Historical Dictionary of Indonesia R. B. Cribb,Audrey Kahin,2004 Indonesia is Asia's third largest country in both population and area, a sprawling tropical archipelago of some 180 million people from hundreds of ethnic groups with a complex and turbulent history. One of Asia's newly industrializing countries, it is already a major economic powerhouse. In over 800 clear and succinct entries, the dictionary covers people, places, and organizations, as well as economics, culture, and political thought from Indonesia's ancient history up until the recent past. Includes a comprehensive bibliography, maps, chronology, list of abbreviations, and appendix of election results and major office-holders. This second edition has been thoroughly updated and expanded to cover the events that have occurred in Indonesia's history in the past fifteen years.

Indonesia Abandons Confrontation Franklin B. Weinstein,2009 Indonesia's foreign policy has been the topic of all too few scholarly works. This condition is, however, rapidly changing, and we can now look forward during the next few years to the publication of several important studies. Among the highly qualified authors presently engaged in completing books on various aspects of this subject are: Indonesia's former Vice-President, Mohammad Hatta; a former Foreign Minister and Deputy Prime Minister, Mohamad Roem, and a former Foreign Minister, Anak Agung Gde Agung. Currently major studies are also well under way by Ambassador Howard Jones, Professor Frederick Bunnell, and Professor David Mozingo. None of these ongoing studies, however, focuses on the very recent period described by Mr. Franklin Weinstein in the Interim Report which the Indonesia Project is here publishing. His report is concerned with one of the most significant, but at the same time one of the most confusing, watersheds of Indonesian foreign policy. This is the process whereby Indonesia's confrontation against Malaysia was brought to an end. A development of this significance, we feel, merits careful study now, even though the relevant data are as yet only partially available. It is our belief that a sufficient amount of pertinent material is on hand at this point to warrant the avowedly provisional account which Mr. Weinstein has undertaken with the encouragement of the Cornell Modern Indonesia Project. He, himself, wishes to emphasize the tentative character of his report and would appreciate it if those who read it, Indonesians in particular, would be kind enough to send him their criticisms and suggestions for the study's improvement. It is his hope, and ours, that a substantial amount of such commentary will be sent him so that following his current sojourn and research in Indonesia, he will be in a position to publish a study of recent Indonesian foreign policy which will be more comprehensive and definitive in character. - George McT. Kahin, October 1968

My Life in Indonesia Alex Woolf,2014-12-15 Follow a day in the life, from wake-up to bedtime, of a young person from Indonesia.

Making Indonesia Daniel S. Lev,Ruth T. McVey,2018-05-31 Dedicated to George McT. Kahin, this collection examines the genesis and evolution of the modern Indonesian nation-state. Essay topics range from the nation's imaginative conception to the Suharto government's political and financial infrastructure. Contributors include F.P. Bunnell, R. McVey, T. Shiraishi, and B. R. O'G. Anderson.

Culture and Customs of Indonesia Jill Forshee,2006 Indonesia comprises more than 17,000 islands stretching on either side of the equator for nearly 4,000 miles and hundreds of ethnic groups. This book reveals the remarkable social, religious, and geographical differences that exist from island to island. It also reveals local people's own ideas of their identities and pasts.

Indonesia in ASEAN Dewi Fortuna Anwar,1994 Much has been written about the Association of Southeast Asian Nations and about Indonesia's foreign policy, but few scholars have specifically focused on Indonesia's foreign policy in ASEAN. Indonesia in ASEAN: Foreign Policy and Regionalism tries to fill this academic gap.

Intellectuals and Nationalism in Indonesia J. D. Legge, 2010 It has always been a matter of national pride that independence came to Indonesia not as the result of a negotiated transfer of sovereignty, though the process was completed in that way, but through a struggle of heroic proportions in whose fires the nation itself was forged. The revolution, indeed, is central to the Republic's perception of itself. To call it a revolution is, of course, to beg a number of important questions. What is a revolution? Is the concept, developed in modern thought on the models of the French and Russian revolutions, applicable to a nationalist struggle for independence? Or must a revolution involve also a transfer of power from one social class to another and a subsequent social transformation? For Indonesians looking back to the birth of the nation, however, such questions do not arise. For them there is no question but that the events of 1945-49 constituted a revolution, a revolution that is seen as the supreme act of national will, the symbol of national self-reliance and, for those caught up in it, as a vast emotional experience in which the people -- the people as a whole -- participated directly. The exploration of Sjahrir's recruitment of a group of followers during the Japanese Occupation and of the character and attitudes of the group is based, in large measure, on interviews with its surviving members. A highly articulate body of people, they clearly enjoyed recalling their youth, remembering particular experiences, and thinking back on the issues that had preoccupied them and the ideas that had excited them as students. For many of them it had obviously been a golden age, perceived all the more vividly now because the world they had hoped for had never come into being. There is, perhaps, a good deal of nostalgia in their memories of what it was like to be a part of a crucial period in their country's history and no doubt some misjudgment about the parts they played. Oral history is a risky business, given the fallibility of human memory and the tendency for interviewer and subject alike to collaborate in re-shaping the past in the light of their later perspectives. The dangers of such a method are discussed below. Nevertheless, provided it is kept in mind that memories are documents of the present and not of the period with which they deal, it is important to gather these recollections while members of the generation in question are still alive.

Culture and Fertility Parsudi Suparlan, Hananto Sigit, 1980 These five countries monographs, stemming from a regional research project on Culture and fertility in Southeast Asia, initiated by the Institute of Southeast Asian Studies, aim at bridging a gap in the study of relationship between ethnicity and fertility in the region. Developed on essentially the same lines, each monograph presents in turn the individual country's historical background leading to the present social structure; the patterns of intergroup behaviour; population policies and family planning programmes; the development of the demographic structure; and finally an analysis of available secondary data, using multiple classification analysis, to determine the impact of key variables on fertility patterns. Though each is an entity in itself, the five monographs complement one another and taken together provide a useful background for future research in the field.

Six Decades of Indonesia-China Relations Lidya Christin Sinaga, 2018-03-20 This book analyses the relations between Indonesia and China in the regional dynamics of Southeast Asia. The rising China has influenced global and regional constellations, and also has direct impacts for Indonesia. While this fact should be viewed as an opportunity that needs to be fully utilised for the benefit of national development of Indonesia, we should also prepare for the threats embedded in this development, especially from the service and labour sectors. As such, this book suggests that equal positions in relations between Indonesia and China are absolutely necessary, since both countries need each other in their efforts to maintain the continuity of their development. It also argues that to further strengthen its position in relation to China in the future, Indonesia's diplomacy requires an integrated grand design that supports the creation of economic and political power in the face of the emergence of China's economic and military power.

Changing Images of Three Generations of Azharites in Indonesia Mona Abaza, 1993 The focus will be on three different generations of Indonesian scholars and 'Ulama who have studied in Cairo, and in Al-Azhar in particular. Three different periods will be discussed: the colonial times when Islamic Reformism had a great impact and reactivated scholarship in the Middle East and the world of Southeast Asia; the immediate post-colonial period when Azharites played a paramount role in state functions; and the seventies and eighties when Islam was affirmed by the wealth of oil-producing countries in the Arab Gulf.

Indonesia Taufik Abdullah, 2009 This book traces the beginning of the process of nation-formation, the struggle for independence, the hopeful beginning of the new nation-state of Indonesia only to be followed by hard and difficult ways to remain true to the ideals of independence. In the process Indonesia with its sprawling archipelago and its multi-ethnic and multi-religious nation has to undergo various types of crisis and internal conflicts, but the ideals that have been nurtured since the beginning when a new nation began to be visualized remain intact. Some changes in the interpretation may have taken place and some deviations here and there can be noticed but the literal meaning of the ideals continues to be the guiding light. In short this is a history of a nation in the continuing effort to retain the ideals of its existence.

Indonesia Handbook Bill Dalton, 1995 Introduces the history and culture of the nation's provinces and offers advice on accommodations, transportation, languages, restaurants, and interesting places to visit.
