**None of the Above** I. W. Gregorio, 2017-04-04 "None of the Above is a powerful story of discovering one's true identity. This book will open hearts and change minds."—Stephen Chbosky, bestselling author of *The Perks of Being a Wallflower* Now in paperback—this relatable and groundbreaking story for the LGBTQIA+ audience is about a teenage girl who discovers she was born intersex . . . and what happens when her secret is revealed to the entire school. Perfect for fans of *If I Was Your Girl* and *Ask the Passengers*. When Kristin Lattimer is voted homecoming queen, it seems like another piece of her ideal life has fallen into place. She's a champion hurdler with a full scholarship to college and she's madly in love with her boyfriend. In fact, she's decided that she's ready to take things to the next level with him. But Kristin's first time isn't the perfect moment she's planned—something is very wrong. A visit to the doctor reveals the truth: Kristin is intersex, which means that though she outwardly looks like a girl, she has male chromosomes, not to mention boy "parts." Dealing with her body is difficult enough, but when her diagnosis is leaked to the whole school, Kristin's entire identity is thrown into question. As her world unravels, can she come to terms with her new self? Incredibly compelling and sensitively told, *None of the Above* is a thought-provoking novel that explores what it means to be a boy, a girl, or something in between.

**Heart Failure, An Issue of Critical Nursing Clinics, E-Book** Jennifer Kitchens, 2016-01-07 Heart failure is the only cardiovascular disease that is increasing. The impact on the critical care environment and the health care system, as a whole, is significant from both a cost and burden to the system perspective. There are 6.5 million hospital days a year and nearly \$40 billion dollars in yearly health care costs attributed to heart failure in the United States. There are more Medicare monies spent for diagnosing and treating heart failure than any other Diagnosis Related Group. There is a 24% hospital re-admission rate for this diagnosis which leads to financial implications for health care systems. The human cost is also significant. Less than half of Americans diagnosed with heart failure survive greater than 5 years. The ongoing health care needs and cost of this chronic disease takes a significant toll on patients' finances, time and quality of life. Over \$2.9 billion dollars is spent annually on the pharmaceutical management of heart failure in the United States. This diagnosis is the leading cause of hospitalization for patients who are 65 years of age and older. Few health care providers in the critical care environment are not affected by heart failure on a routine basis. Caring for these patients and their families is both a challenging and yet a rewarding experience. This edition will provide critical care nurses with a comprehensive heart failure review which is essential in caring for this challenging population given the dynamic health and critical care environments.

Michael Hall, Chris Cooper, 2021-04-06 Current Issues in Asian Tourism: Volume II draws together a collection of papers from Current Issues in Asian Tourism (CIAT). CIAT was launched by the editors of Current Issues in Tourism in response to the growing number of papers about tourism in Asia received by the journal and the increasing number of authors from Asian countries. This volume focuses on three aspects of Asian tourism. Firstly, the section on marketing, consumption and demand for Asian tourism includes papers on mega events, creative experiences, World Heritage Sites and pollution. Secondly, a group of papers focus on sustainable Asian tourism destinations including papers on investment, climate change, energy and local food. Finally, there are two chapters on Asian tourism research methods including the use of photography and qualitative methods. The papers in this book were originally published in Current Issues in Asian Tourism.

**Contemporary Issues in Early Childhood Education in Germany** Wilfried Smidt, 2018-07-26 The importance of early childhood education has been emphasized by a large body of research that has demonstrated that children's cognitive and socio-emotional development is significantly influenced by the quality of the education and care received from their families and in preschool. Consequently, it is important to investigate factors that pertain to the provision of a high-quality education and high-quality care for young children. This book addresses several important issues that are currently under discussion with respect to this topic. In particular, the book focuses on three topics presently under debate: the professionalization of pedagogues working in the field of early childhood education; the quality of education and care provided by families and preschools; and the promotion of children from socio-economically disadvantaged families. Providing an excellent overview of current research in Germany, this book will be useful to readers who are interested in international perspectives on early childhood education and who want to gain insight into relevant topics discussed in other countries. This book was originally published as a special issue of Early Child Development and Care.

**Ethical and Political Approaches to Nonhuman Animal Issues** Andrew Woodhall, Gabriel Garmendia da Trindade, 2017-08-28 This book offers ethical and political approaches to issues that nonhuman animals face. The recent 'political turn' in interspecies ethics, from ethical to political approaches, has arisen due to the apparent lack of success of the nonhuman animal movement and dissatisfaction with traditional approaches. Current works largely present general positions rather than address specific issues and principally rely on mainstream approaches. This book offers alternative positions such as cosmopolitan, libertarian, and left humanist thought, as well as applying ethical and political thought to specific issues, such as experimentation, factory farming, nonhuman political agency, and intervention. Presenting work by theorists and activists, insights are offered from both ethics and politics that impact theory and practice and offer essential considerations for those engaging in interspecies ethics within the political turn era.

*Still a Work in Progress* Jo Knowles, 2019-03-15 In a return to middle-grade fiction, master of perspectives Jo Knowles depicts a younger sibling struggling to maintain his everyday life when his older sister is in crisis. Noah is just trying to make it through seventh grade. The girls are confusing, the homework is boring, and even his friends are starting to bug him. Not to mention that his older sister, Emma, has been acting pretty strange, even though Noah thought she'd been doing better ever since the Thing They Don't Talk About. The only place he really feels at peace is in art class, with a block of clay in his hands. As it becomes clear through Emma's ever-stricter food rules and regulations that she's not really doing better at all, the normal seventh-grade year Noah was hoping for begins to seem pretty unattainable. In an affecting and realistic novel with bright spots of humor, Jo Knowles captures the complexities of navigating middle school while feeling helpless in the face of a family crisis.

**Single Issue** Albert Y. Hsu, 2009-12-18 Nearly half today's adult population is unmarried. Most churches, however, emphasize marriage and family in a way that leaves many Christian singles feeling like second-class citizens. Although Jesus himself was single, the single state is often regarded as a problem in itself (rather than as having problems, as marriage does). By contrast, 'The Single Issue' sets out a positive, biblical view that honours singleness as a status equal to marriage. Avoiding trite advice on how to suffer through the single life, it offers practical insights on key concerns such as sex, celibacy and the constructive use of solitude - and points the way to a Christian community in which all members are equally valued.
