L'Azerbaigian nei documenti diplomatici italiani (1919-1920) Andrea Carteny,2013 La raccolta presentata in questo volume consiste di una scelta di documenti presenti nell'archivio storico diplomatico del Ministero degli Affari Esteri italiano (ASDMAE) relativi alla Repubblica democratica dell'Azerbaigian (Azərbaycan Xalq Cümhuriyyəti), uno Stato sorto dalla dissoluzione dell'Impero zarista ed esistente per un breve arco cronologico, dal 28 maggio 1918 al 27 aprile 1920, quando viene conquistato e assorbito dalla Russia bolscevica. I documenti pubblicati in questo lavoro sono per la maggior parte inediti e raccontano la storia di un rapporto molto intenso, politico ed economico, tra l'Italia uscita vincitrice dalla Grande Guerra e l'Azerbaigian che compie in quei mesi i primi passi proprio come nazione indipendente. Vengono inoltre pubblicati per la prima volta i documenti della delegazione azerbaijana alla conferenza della pace di Parigi, che inutilmente cerca di richiamare l'attenzione delle grandi potenze sulla perdita della propria indipendenza. Tra le potenze dell'Intesa l'Italia è forse quella che più si spende per garantire la libertà del giovane Stato caucasico, la prima democrazia parlamentare nel mondo musulmano. Il volume di Pommier Vincelli e Carteny continua la pubblicazione delle fonti italiane in un periodo cruciale come quello del 1918-1920, in cui si sono gettate le basi di una partnership profonda e solida tra i due Paesi, che dura ancora oggi.

Medical, Genetic & Behavioral Risk Factors of Spinoni Italiani Ross D. Clark, DVM,2015-01-21 This book (The Spinone Italiano or Italian Pointer) provides you with a through description and positive attributes of this breed including origin, purpose, history, normal heights and weights, acceptable colors and behavioral traits. Our books differ from most books on dog breeds because this book also provides you with a comprehensive and authoritative source of all the known predisposed hereditary health syndromes for the breed. You will find extensive references for each problem described. We also provide the breed club address for this breed and a list of laboratories and organizations that can provide professional help and information. As a small animal veterinarian, I have always been intrigued by the way dogs have been bred to fill a purpose in life and further impressed that they also tend to love performing that service. Greyhounds and other sight hounds are built for speed with aerodynamic bodies consisting of small head, deep chest, narrow waist and large leg muscles. On the other hand Dachshunds take their name from German words meaning "badger dog" and they use their long nose, long body and short legs to both track, enter and dig into badger dens. After developing a practice that catered to clients with show dogs, my interest in each breed continued to grow as I studied and observed more and more about the unique predisposition and incidence of health problems in each breed. Breeders of purebred dogs for show were a challenge and inspirational for me to research and help them with their unique health problems. Historically references to hereditary problems are scattered throughout various Veterinary medical texts and journals such as ophthalmology, neurology, gastroenterology, cardiovascular and dermatology. This book, as well as the other books and articles I have written, is researched and compiled with the intention to provide both veterinarians and dog owners with comprehensive and authoritative predisposition information under the breed name. At the date of this publication, The American Kennel Club Canine Health Foundation and the The Kennel Club of England reports over 400 known hereditary health syndromes throughout the dog kingdom. At the writing of my first book in 1983, less than 50 hereditary issues are able to be predicted and or diagnosed. Sequencing of the canine genome, DNA tests, metabolic testing including blood tests and urine testing; plus, phenotypic examinations such as radiographs, ultrasound, and CERF or OFA eye registry exams by a Board Certified Veterinary Ophthalmologist have advanced the science of breed related health and behavioral problems. This book will provide veterinarians, researchers, pet owners and breeders with a comprehensive guide to all the known problems veterinarians and dog owners should consider during pet selection and throughout each life stage of our canine friends.

Great Italian Short Stories of the Twentieth Century / I grandi racconti italiani del Novecento: A Dual-Language Book Jacob Blakesley,2013-09-19

This anthology highlights the rich range of modern Italian fiction, presenting the first English translations of works by many famous authors. Contents include fables and stories by Italo Calvino, Elsa Morante, Alberto Moravia, and Cesare Pavese; historical fiction by Leonardo Sciascia and Mario Rigoni Stern; and little-known tales by Luigi Pirandello and Carlo Emilio Gadda. No further apparatus or reference is necessary for this self-contained text. Appropriate for high school and college courses as well as for self-study, this volume will prove a fine companion for teachers and intermediate-level students of Italian language and literature as well as readers wishing to brush up on their language skills. Stornelli Italiani. Quinta edizione Francesco dall'. ONGARO,1848

I centri minori italiani nel tardo Medioevo Centro di studi sulla civiltà del tardo medioevo (San Miniato, Italy). Convegno,2018-01-01 In the late Middle Ages, Italy was one of the most urbanized areas in Europe. Its coasts, the Apennines, the perialpine area and the plains were all home to a large number of smaller towns, lands, villages, castra, and 'quasi cites'. These settlements were all very diverse in terms of demographic consistency, social articulation and economic dynamism, but together they constituted a characteristic and constitutive element of the Italian historical identity: an 'original personality'. This volume, thanks to some framing essays and a mapping of individual cases involving most of the northern, central and southern regions, aims at investigating the active research on this topic over the last thirty to forty years.
