Safety Analysis of Foods of Animal Origin Leo M.L. Nollet, Fidel Toldra, 2016-04-19 We cannot control how every chef, packer, and food handler might safeguard or compromise the purity of our food, but thanks to the tools developed through physics and nanotech and the scientific rigor of modern chemistry, food industry and government safety regulators should never need to plead ignorance when it comes to safety assurance.

Holy Terror: Jesus in the Infancy Gospel of Thomas J.R.C. Cousland, 2017-11-16 The Infancy Gospel of Thomas (or Paidika) is one of the most unusual gospels in the Christian tradition. Instead of revealing the compassionate Jesus so familiar to us from the biblical Gospels, it confronts its readers with a very different Jesus – a child who sometimes acts like a holy terror, killing and harming others for trifling faults. So why is Jesus portrayed as acting in such an 'unchristian' fashion? To address this question,

Cousland focuses on three interconnected representations of Jesus in the Paidika: Jesus as holy terror, as child, and as miracle-working saviour. Cousland endeavours to show that, despite the differing character of these three roles, they present a unified picture. Jesus' unusual behaviour arises from his 'growing pains' as a developing child, who is at the same time both human and divine. Cousland's volume is the first detailed examination of the Christology of the Infancy Gospel of Thomas and provides a fresh and engaging approach to a topic not often discussed in representations of Jesus.

American Jennie: The Remarkable Life of Lady Randolph Churchill Anne Sebba, 2010-12-20 A frank account of the tempestuous life of the American mother of Britain's most important twentieth-century politician. Brooklyn-born Jennie Jerome married into the British aristocracy in 1874, after a three-day romance. She became Lady Randolph Churchill, wife of a maverick politician and mother of the most famous British statesman of the century. Jennie Churchill was not merely the most talked about and controversial American woman in London society, she was a dynamic behind-the-scenes political force and a woman of sexual fearlessness at a time when women were not supposed to be sexually liberated. A concert pianist, magazine founder and editor, and playwright, she was also, above all, a devoted mother to Winston. In *American Jennie*, Anne Sebba draws on newly discovered personal correspondences and archives to examine the unusually powerful mutual infatuation between Jennie and her son and

to relate the passionate and ultimately tragic career of the woman whom Winston described as having "the wine of life in her veins."

The crowds in the Gospel of Matthew [electronic resource] J. R. C. Cousland,2002 Annotation.

Arguing that crowds in the Gospel of Matthew serve as a theological entity that represent the people of Israel (as opposed to their leaders), Cousland (classical, Near Eastern, and religious studies, U. of British Columbia, Canada) explores how this representation sheds light on Matthew's relationship to Judaism. Although Matthew had broken with Jewish leadership, he still had hopes of converting the Jewish people to Christianity and this tension was displayed in the ambivalent manner in which crowds were portrayed in the gospel. Deformation and Progressive Failure in Geomechanics A. Asaoka, Toshihisa Adachi, F. Oka, 1997-10-23 Progressive failure has been a

classical problem in the field of geotechnical engineering and has attracted considerable attention in connection with slope stability and foundation problems. It is associated with strain localization or shear banding and is also related to damage in material structures. As knowledge of the progressive failure mechanism increases, it is now necessary to establish effective communications between researchers and engineers. The International Symposium on Deformation and Progressive Failure in Geomechanics provided an opportunity for discussing recent advances in this area. A total of 136 papers were contributed from 22 countries. As well as these, the symposium proceedings also contain 8 interim technical reports on the subject by the members of the Asian Technical Committee of the International Society for Soil Mechanics and Foundation Engineering and the Japanese Geotechnical Society National Committee on Progressive Failure in Geosttructures.
