BIG SEVEN STUDY about 7 open source Crypto-Messengers for Encryption at the Desktop: A contribution in the cryptographic-discussion - The two security researchers David Adams (Tokyo) and Ann-Kathrin Maier (Munich), who examined in their BIG SEVEN study seven well-known encryption applications for e-mail and instant messaging out of the open source area, performed then a deeper IT-audit for the acquainted software solution GoldBug.sf.net. The audit took into account the essential criteria, study fields and methods on the basis of eight international IT-audit manuals and was carried out in 20 dimensions. It identifies Ten Trends in the Crypto-Messaging. Security researcher David Adams from Tokyo about the published BIG SEVEN CRYPTO-study: We looked at the seven major open source programs for encrypted online-communication and identified ten trends in the Crypto-Messaging area. One of the important trends is the feature, that the users should be able to define a so-called end-to-end encrypting password by themselves manually. The software GoldBug - email client and instant messenger here was ahead with excellent results and is not only very trustworthy and compliant to international IT-audit manuals and safety standards, GoldBug also scores in comparison and in the evaluation of the single functions in much greater detail than the other comparable open source crypto messenger. Co-author of the study Ann-Kathrin Maier from Munich confirms: We have then our Messenger study deepened with a detailed audit of the crypto-program GoldBug, which received excellent results for encrypted email and secure online chat. By our code-reviews we can confirm the trustworthiness of this open source encryption in GoldBug. Numerous details have been analyzed by various methods, compared and also strategically evaluated by the two authors regarding the current encryption discussions. The comparatively studied applications include CryptoCat, GoldBug, OTR-XMPP clients such as Pidgin with the OTR-plugin, RetroShare and Signal, Surespot and Tox.

Even More Englishes Manfred Görlach, 1998-01-01 Even More Englishes comprises Manfred Görlach's more recent papers devoted to general problems of the world language and to individual varieties. The collection starts with principal questions as to what can rightly be regarded as 'English', looks at specific features of emigrant Englishes and the value of individual features as evidence for linguistic geography and for linguistic jokes. The functional range of Scots is traced through its history, and the question is raised whether we are justified to speak of 'Celtic Englishes' in Britain and

Ireland. Two papers investigate the forms and functions of the world language in two African states, South Africa and Nigeria. A survey of new dictionaries of varieties of English and a discussion of whether pidgin and creole languages need different types of dictionaries are followed by a documentation of the history of the author's projects in the field of English as a world language. Even More Englishes complements Englishes and More Englishes previously published in the Varieties of English Around the World book series.

Stalin Stephen Kotkin,2015-10-13 In his biography of Stalin, Kotkin rejects the inherited wisdom about Stalin's psychological makeup, showing us instead how Stalin's near paranoia was fundamentally political and closely tracks the Bolshevik revolution's structural paranoia, the predicament of a Communist regime in an overwhelmingly capitalist world, surrounded and penetrated by enemies. At the same time, Kotkin posits the impossibility of understanding Stalin's momentous decisions outside of the context of the history of imperial Russia.

Late Soviet Culture Thomas Lahusen, Gene Kuperman,1993 As the Soviet Union dissolved, so did the visions of past and future that informed Soviet culture. With Dystopia left behind and Utopia forsaken, where do the writers, artists, and critics who once inhabited them stand? In an advancing present, answers editor Thomas Lahusen. Just what that present might be--in literature and film, criticism and theory, philosophy and psychoanalysis, and in the politics that somehow speaks to all of these--is the subject of this collection of essays. Leading scholars from the former Soviet Union and the West gather here to consider the fate of the people and institutions that constituted Soviet culture. Whether the speculative glance goes back (to czarist Russia or Soviet Freudianism, to the history of aesthetics or the sociology of cinema in the 1930s) or forward (to the market Stalinism one writer predicts or the open text of history another advocates), a sense of

immediacy, or history-in-the-making animates this volume. Will social and cultural institutions now develop organically, the authors ask, or is the society faced with the prospect of even more radical reforms? Does the present rupture mark the real moment of Russia's encounter with modernity? The options explored by literary historians, film scholars, novelists, and political scientists make this book a heady tour of cultural possibilities. An expanded version of a special issue of *South Atlantic Quarterly* (Spring 1991), with seven new essays, *Late Soviet Culture* will stimulate scholar and general reader alike. Contributors. Katerina Clark, Paul Debreczeny, Evgeny Dobrenko, Mikhail Epstein, Renata Galtseva, Helena Goscilo, Michael Holquist, Boris Kagarlitsky, Mikhail Kuraev, Thomas Lahusen, Valery Leibin, Sidney Monas, Valery Podoroga, Donald Raleigh, Irina Rodnyanskaya, Maya Turovskaya

Readings on the Russian Revolution Melissa K. Stockdale,2020-09-03 *Readings on the Russian Revolution* brings together 15 important post-Cold War writings on the history of the Russian Revolution. It is structured in such a way as to highlight key debates in the field and contrasting methodological approaches to the Revolution in order to help readers better understand the issues and interpretative fault lines that exist in this contested area of history. The book opens with an original introduction which provides essential background and vital context for the pieces that follow. The volume is then structured around four parts - 'Actors, Language, Symbols', 'War, Revolution, and the State', 'Revolutionary Dreams and Identities' and 'Outcomes and Impacts' - that explore the beginnings, events and outcomes of the Russian Revolution, as well as examinations of central figures, critical topics and major historiographical battlegrounds. Melissa Stockdale also provides translations of two crucial Russian-language works, published here in English for the first time, and includes useful pedagogical features such as a glossary, chronology, and thematic bibliography to further aid study. *Readings on the Russian Revolution* is an essential collection for anyone studying the Russian Revolution.

Making Uzbekistan Adeeb Khalid,2015-11-20 In *Making Uzbekistan*, Adeeb Khalid chronicles the tumultuous history of Central Asia in the age of the Russian revolution. He explores the complex interaction between Uzbek intellectuals, local Bolsheviks, and Moscow to sketch out the flux of the situation in early-Soviet Central Asia. His focus on the Uzbek intelligentsia allows him to recast our understanding of Soviet nationalities policies. Uzbekistan, he argues, was not a creation of Soviet policies, but a project of the Muslim intelligentsia that emerged in the Soviet context through the interstices of the complex politics of the period. *Making Uzbekistan* introduces key texts from this period and argues that what the decade witnessed was nothing short of a cultural revolution.

The Making of the State Writer ,2001 This book completes the author's study of the sociology of the literary process in Soviet Russia, begun in *The Making of the State Reader: Social and Aesthetic Contexts of the Reception of*

Soviet Literature (Stanford, 1997). The author demonstrates that Socialist Realism is not so much directed as it is self-directed; the transformation of the author into his own censor is the true history of Soviet literature.
