Customization: Handsome Guy Comes Bei Douxing, 2020-03-14 In this world where all things are considered as money, I must carry out a counterattack strategy. Neighbors and Widows seduce me every day. School belle, white collar, model, where are you going? As a commander-in-chief who doesn't have any money, the only thing I need to do now is to earn more money. Being a ktv and having a tip is not bad, since this is what I need to do now, I need to get bigger and bigger. My handsomeness must serve the whole society!

The Linguistics of Olfaction Łukasz Jędrzejowski, Przemysław Staniewski, 2021-04-26 This volume presents novel cross-linguistic insights into how olfactory experiences are expressed in typologically (un-)related languages both from a synchronic and from a diachronic perspective. It contains a general introduction to the topic and fourteen chapters based on philological investigation and thorough fieldwork data from Basque, Beja, Fon, Formosan languages, Hebrew, Indo-European languages, Japanese, Kartvelian languages, Purepecha, and languages of northern Vanuatu. Topics discussed in the individual chapters involve, inter alia, lexical olfactory repertoires and naming strategies, non-literal meanings of olfactory expressions and their semantic change, reduplication, colexification, mimetics, and language contact. The findings provide the reader with a range of fascinating facts about perception description, contribute to a deeper understanding of how olfaction as an understudied sense is encoded linguistically, and offer new theoretical perspectives on how some parts of our cognitive system are verbalized cross-culturally. This volume is highly relevant to lexical typologists, historical linguists, grammarians, and anthropologists.

Zhu,2023-04-05 This book draws on extensive first-hand material to provide a fresh and detailed analysis of a decade that was highly significant in shaping the new perceptions of Chinese contemporary art at home and abroad. Written in a language that is both poetic and philosophically insightful, it offers a meaningful exploration of a language of criticism indigenous to the Chinese art community, which won Zhu Zhu, the author, the 2011 CCAA Art Critic Award.

Subaltern Narratives in Fiji Hindi Literature Vijay

Mishra,2024-02-13 *Subaltern Narratives in Fiji Hindi Literature* is the first comprehensive study of fiction written in Fiji Hindi that moves beyond the hegemonic and colonially-implicated perspectives that have necessarily informed top-down historical accounts. Mishra makes

this case using two extraordinary novels *Ḍaukā Purān* [‘A Subaltern Tale’] (2001) and *Fiji Maa* [‘Mother of a Thousand’] (2018) by the Fiji Indian writer Subramani. They are massive novels (respectively 500 and 1,000 pages long) written in the devanāgarī (Sanskrit) script. They are examples of subaltern writing that do not exist, as a legitimization of the subaltern voice, anywhere else in the world. The novels constitute the silent underside of world literature, whose canon they silently challenge. For postcolonial, diaspora and subaltern scholars, they are defining (indeed definitive) texts without which their theories remain incomplete. Theories require mastery of primary texts and these subaltern novels, ‘heroic’ compositions as they are in the vernacular, offer a challenge to the theorist.

Common Phonology of the Chinese Dialects Qian Gu, Richard VanNess Simmons, 2020-06-08 This book presents a comparative reconstruction of the common phonology of the Chinese dialects using representative data from living dialects. The resulting phonology includes all categories and phonological distinctions that are represented in the dialect data. It departs from the tradition of using philological sources and non-Chinese borrowings as the basis for a reconstructed system. Based on a strict comparative methodology, the phonology presented encapsulates the shared phonology of the dialects and reflects the real-world distinctions and categories found in the living dialects. For example, the initials preserve the tripartite division that includes voiced obstruents seen in Wú dialects; the finals are comparatively drawn based on the collective dialect data; and the syllable codas preserve the three-way contrasts of consonant stop endings seen in the Cantonese dialects. The data presented allows readers to observe the basis for all of the distinction and categories

included in the common phonology and the relationship of that phonology to all of the dialects, and as a result to identify the dialects' disparate developments and evolution. The English translation also includes innovative elements that render it even more useful for researchers than the Chinese original. The book is primarily intended for scholars and researchers investigating the Chinese dialects and their relationships, and the history of Chinese. It is also useful for scholars of Chinese history and literature who need a handy resource providing essential information on the historical phonology of Chinese.

Ifa Festival Emanuel Abosede, 2000 This book won The Noma Award for Publishing in Africa in 2001. The jury describes it thus: 'The work is an outstanding and significant cultural document, and an important part of the movement of cultural reclamation from within Africa. It assumes direct intellectual responsibility by the Yoruba for their collective history and culture; and extends the scope of Ifa studies in a new and original way...the author displays deep familiarity with indigenous sources, living practitioners and scholarly literature. The book, the product of thirty year's work, will stand as a benchmark for years to come.

Love and Life Behind the Purdah Cornelia Sorabji,1901 Cornelia Sorabji (1866-1952) was a pioneer in the tradition of Indian-Parsee women's literature in English. This collection of Sorabji's short stories reflects her fascination with orthodox Hindu women and her frustrated feminist ambitions to liberate them from their enforced or self-willed domesticity.

New Trends in Intelligent Software Methodologies, Tools and Techniques H. Fujita,E. Herrera-Viedma,2018-09-18 Knowledge-based systems, fully integrated with software, have become essential enablers for both science and commerce. But current software methodologies, tools and techniques are not robust or reliable enough for the demands of a constantly changing and evolving market, and many promising approaches have proved to be no more than case-

oriented methods that are not fully automated. This book presents the proceedings of the 17th international conference on New Trends in Intelligent Software Methodology, Tools and Techniques (SoMeT18) held in Granada, Spain, 26-28 September 2018. The SoMeT conferences provide a forum for the exchange of ideas and experience, foster new directions in software development methodologies and related tools and techniques, and focus on exploring innovations, controversies, and the current challenges facing the software engineering community. The 80 selected papers included here are divided into 13 chapters, and cover subjects as diverse as intelligent software systems; medical informatics and bioinformatics; artificial intelligence techniques; social learning software and sentiment analysis; cognitive systems and neural analytics; and security, among other things. Offering a state-of-the-art overview of methodologies, tools and techniques, this book will be of interest to all those whose work involves the development or application of software.
