The Hawthorne School Sylvie Perry,2021-12-07 For fans of Riley Sager, *The Hawthorne School* is a twisty psychological suspense about the lengths one mother will go for her child, inspired by present-day obsession with cults and true crime. Claudia Morgan is overwhelmed. She's a single parent trying the best that she can, but her four-year-old son, Henry, is a handful--for her and for his preschool. When Claudia hears about a school with an atypical teaching style near her Chicagoland home, she has to visit. The Hawthorne School is beautiful and has everything she dreams of for Henry: time to play outside, music, and art. The head of the school, Zelma, will even let Claudia volunteer to cover the cost of tuition. The school is good for Henry: his behavioral problems disappear, and he comes home subdued instead of rageful. But there's something a bit off about the school, its cold halls, and its enigmatic headmistress. When Henry brings home stories of ceremonies in the woods and odd rules, Claudia's instincts tell her that something isn't quite right, and she begins to realize she's caught in a web of manipulations and power. The author's work as a psychotherapist, with a focus on narcissistic manipulation and addictive power dynamics, guides this exploration of a young mother wanting to do the best for her child.

My Leaf Book Monica Wellington,2015-09-01 The brilliant colors of fall foliage take center stage in this picture book perfect for fans of the classic *Red Leaf*, *Yellow Leaf*. With her trademark bold, graphic style Monica Wellington has created a picture book about autumn, trees, and leaves. When the seasons change, a young girl visits the arboretum to collect fallen leaves and make a book with them. Brilliant illustrations show each variety of tree the girl encounters, from the common oak to the lesser known ginkgo. Spreads silhouetting leaves up-close help young children learn to identify them. Like the girl in the book, young readers will be eager to make their very own leaf books.

Look What I Did with a Leaf! Morteza E. Sohi,1995-09-01 Provides examples of different kinds of animals that can be made out of leaves and suggests various uses for the finished product.

A Leaf Can Be . . . Laura Purdie Salas,2022-08-01 Audisee® eBooks with Audio combine professional narration and sentence highlighting for an engaging read aloud experience! A leaf is a leaf, a bit of a tree. But just try to guess what else it can be! A leaf can be a...shade spiller, mouth filler, tree topper, rain stopper. Find out about the many roles leaves play in this poetic exploration of leaves throughout the year. Laura Purdie Salas's lyrical, rhyming text and Violeta Dabija's glowing illustrations make simple yet profound observations about seemingly ordinary objects and encourage readers to suggest what else it can be! Using metaphors for a leaf (tree topper / rain stopper), a rock (hopscotch marker / fire sparker), and water (thirst quencher / kid drencher), these insightful picture books creatively highlight a variety of roles and relationships in nature.

Red Leaf, Yellow Leaf Lois Ehlert,1991 Lois Ehlert uses watercolor collage and pieces of actual seeds, fabric, wire, and roots in this innovative and rich introduction to the life of a tree. A special glossary explains how roots absorb nutrients, what photosynthesis is, how sap circulates, and other facts about trees. Children will beg to share this book over and over.--American Bookseller

The Book of Leaves Allen J. Coombes,2014-12-10 Of all our childhood memories, few are quite as thrilling, or as tactile, as those of climbing trees. Scampering up the rough trunk, spying on the world from the cool green shelter of the canopy, lying on a limb and looking up through the leaves at the summer sun almost made it seem as if we were made for trees, and trees for us. Even in adulthood, trees retain their power, from the refreshing way their waves of green break the monotony of a cityscape to the way their autumn transformations take our breath away. In this lavishly illustrated volume, the trees that have enriched our lives finally get their full due, through a focus on the humble leaves that serve, in a sense, as their public face. *The Book of Leaves* offers a

visually stunning and scientifically engaging guide to six hundred of the most impressive and beautiful leaves from around the world. Each leaf is reproduced here at its actual size, in full color, and is accompanied by an explanation of the range, distribution, abundance, and habitat of the tree on which it's found. Brief scientific and historical accounts of each tree and related species include fun-filled facts and anecdotes that broaden its portrait. The Henry's Maple, for instance, found in China and named for an Irish doctor who collected leaves there, bears little initial resemblance to the statuesque maples of North America, from its diminutive stature to its unusual trifoliolate leaves. Or the Mediterranean Olive, which has been known to live for more than 1,500 years and whose short, narrow leaves only fall after two or three years, pushed out in stages by the emergence of younger leaves. From the familiar friends of our backyards to the giants of deep woods, *The Book of Leaves* brings the forest to life—and to our living rooms—as never before.

Leaves David Ezra Stein, 2007-08-16 It's a young bear's first autumn, and the falling leaves surprise him. He tries to put them back on the trees, but it doesn't work. Eventually, he gets sleepy and burrows into the fallen leaves for a long nap. When he wakes up, it's spring, and there are suddenly brand-new leaves all around, welcoming him. Graceful illustrations and a childlike main character offer the perfect way to talk with children about the wonder of the changing seasons.

Leaf Man Lois Ehlert, 2005 Fall has come, the wind is gusting, and Leaf Man is on the move. Is he drifting east, over the marsh and ducks and geese? Or is he heading west, above the orchards, prairie meadows, and spotted cows? No one's quite sure, but this much is certain: A Leaf Man's got to go where the wind blows. With illustrations made from actual fall leaves and die-cut pages on every spread that reveal gorgeous landscape vistas, here is a playful, whimsical, and evocative book that celebrates the natural world and the rich imaginative life of children. Includes an author's note and leaf-identifying labels.

The Life of a Leaf Steven Vogel, 2012-10-17 In its essence, science is a way of looking at and thinking about the world. In *The Life of a Leaf*, Steven Vogel illuminates this approach, using the humble leaf as a model. Whether plant or person, every organism must contend with its immediate physical environment, a world that both limits what organisms can do and offers innumerable opportunities for evolving fascinating ways of challenging those limits. Here, Vogel explains these interactions, examining through the example of the leaf the extraordinary designs that enable life to adapt to its physical world. In Vogel's account, the leaf serves as a biological everyman, an ordinary and ubiquitous living thing that nonetheless speaks volumes about our environment as well as its own. Thus in exploring the leaf's world, Vogel simultaneously explores our own. A companion website with demonstrations and teaching tools can be found here:

Seasonal and educational stories about the changing seasons

Leaf Jumpers Carole Gerber, 2006-07-01 This vibrant poem celebrates the beauty of autumn while inviting us all to go ahead and jump in that big, colorful, pile of fall leaves. Leslie Evan's bold artwork brings together gold, orange, yellow, red, and brown leaves into a literary pile creating the magic of autumn for young readers. The poetic text gives simple facts about different types of fall

leaves making it easy for readers to identify leaves ranging from red maple to sycamore by color, shape, and other characteristics. Informative and fun, Carole Gerber brings us a wonderful introduction to seasons and science for the earliest of leaf jumpers.

House of Leaves Mark Z. Danielewski, 2000-03-07 "A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

The Little Yellow Leaf Carin Berger, 2008-08-26 As all the other leaves float off and fly past, Little Yellow Leaf thinks, I'm not ready yet. As the seasons change all around, Little Yellow Leaf holds on to the tree. Still not ready. Will Little Yellow Leaf ever be ready? This is a story for anyone who has ever been afraid of facing the unknown—and a celebration of the friends who help us take the leap.

Adventures in Bookbinding Jeannine Stein, 2011-06-01 Each project in this book combines bookbinding with a specific craft such as quilting, jewelry making, or polymer clay, and offer levels of expertise: basic, novice, and expert. Illustrated step-by-step instructions and photographs demonstrate how to construct the cover pages, and a unique binding technique, easy enough for a beginner to master. Each project also features two other versions with the same binding geared to those with more or less experience. The novice version is for those who have no knowledge of the craft and want shortcuts, but love the look. For the quilter's book, for example, vintage quilt pieces become the covers so all that's needing in the binding. Or if you're interested in wool felting use an old sweater. This offers great opportunities for upcycling. The expert version is for those who have a great deal of knowledge and proficiency of a certain craft - the master art quilter, for example. For this version, an expert guest artist has created the cover and the author has created the binding. This offers yet another creative opportunity - the collaborative project. Since crafters often get involved with round-robins and other shared endeavors, this will show them yet another way to combine their skills. No other craft book offers the possibilities and challenges that *Adventures in Bookbinding* does. Readers will return to it again and again to find inspiration and ideas.

The Leaf People Ronnie McWilliams, 2011-06-10 In the world around us are many mysteries, one is the mysterious leaf people. The Leaf People look like and live among regular leaves but are intelligent living beings. These mysterious beings are reclusive, shy and almost impossible to find. The Leaf people are watching over the activities of mankind and storing this information for a certain time. This time which their prophecies foretold will center on a man who from his youth had a heart for the forgotten friends of man. As a child this chosen one touches the heart of the Leaf People who will shelter and save him. While on a camping trip with his family Philip has gotten lost in the woods and unprepared for the snow which falls overnight or a hungry wolf looking for food. Philip is in great danger. How can the Leaf People rescue the helpless child and reunite him with his family and instill in a young child the love and wonders of our friends in nature? These Friends

whom we have long ignored and now have forgotten are waiting for the Chosen one who they will save but in turn they will also be saved by him. This selfless act will fulfill the prophecy of the chosen one. Could this child be the one?

All Is Leaf John T Price, 2022-06-08 Drawing inspiration and urgency from the storied Goethe Oak tree at Buchenwald concentration camp—and from the leaf as symbol of all change, growth, and renewal—award-winning essayist John Price explores a multitude of dramatic transformations, in his life and in the fragile world beyond: “the how of the organism—that keeps your humanity alive.” He employs an array of forms and voices, whether penning a break-up letter to America or a literary rock-n-roll road song dedicated to prairie scientists, or giving pregame pep talks to his son’s losing football team. Here, too, are moving portrayals of his father’s last effort as a small-town lawyer to defend the rights of abused women, and his own efforts as a writing teacher to honor the personal stories of his students. From his Iowa backyard to the edge of the Arctic Circle, from the forgotten recesses of the body to the far reaches of the solar system, this book demonstrates the ways imagination and informed compassion can, as Price describes it, expand thousandfold the boundaries of what we might “have naïvely considered an individual self.”
