Free and Open Source Software (FOSS) and other Alternative License Models Axel Metzger, 2015-11-30 This book discusses the main legal questions raised by free and open source software (FOSS) licenses and other alternative

license models, such as Creative Commons. The legal questions raised by FOSS and other alternative licenses have been the subject of an intense international debate among legal scholars and practising lawyers in the last years. Courts in different jurisdictions have confirmed that the core features of FOSS licenses are compliant with the respective applicable laws and thus enforceable in the respective jurisdictions. What is still missing so far is an in-depth comparative analysis of the legal issues raised by FOSS, Creative Commons and other alternative license on a worldwide scale. This book presents a general report on FOSS licenses and alternative license models to establish common ground and enable comparison between jurisdictions. The general report is followed by 24 national reports covering the world's most important IT-markets. General and national reports use the same structure to facilitate the comparison. The book shows that despite the differences in their origins, all FOSS projects use detailed licenses for the organisation of their communities. It also shows the differences in the proofing of these licenses by courts in some jurisdictions and the tailor-made provisions established by some legislators to solve the legal issues raised by the license model.

Driving Without a License Janine Joseph, 2016-08-15

Janine Joseph writes with an open and easy intimacy. The language here is at once disruptive and familiar, political and sensual, and tinged by the melancholy of loss and the discomfiting radiance of redemption. A strong debut.

—Chris Abani The best way to hide is in plain sight. In this politically-charged and candid debut, we follow the chronicles of an illegal immigrant speaker over a twenty-year span as she grows up in the foreign and forbidding landscape of America. From Ivan, Always Hiding: I strained for the socket as you pulled me, my bare legs against your

legs in the windowless dark. The room, snuffed out, could have been no larger than a freight car, no smaller than a box van; we couldn't tell anymore, the glints in the shellacked floor, too, were dulled. This is like death, you said, always joking. I slid my head into the crook of your neck, and didn't disagree. Raised in the Philippines and California, Janine Joseph holds an MFA from New York University and a PhD from the University of Houston. Her poems have appeared in the Kenyon Review Online, Best New Poets, Hayden's Ferry Review, and elsewhere. Her libretto *From My Mother's Mother* was performed as part of the Houston Grand Opera's *Song of Houston: East + West* series. A Kundiman and Paul and Daisy Soros Fellow, she is an assistant professor of English at Weber State University.

License To Steal Malcolm K Sparrow, 2007-12-14 Who steals? An extraordinary range of folk--from low-life hoods who sign on as Medicare or Medicaid providers equipped with nothing more than beepers and mailboxes, to drug

trafficking organizations, organized crime syndicates, and even major hospital chains. In *License to Steal*, Malcolm K. Sparrow shows how the industry's defenses, which focus mostly on finding and correcting billing errors, are no match for such well orchestrated attacks. The maxim for thieves simply becomes bill your lies correctly. Provided they do that, fraud perpetrators with any degree of sophistication can steal millions of dollars with impunity, testing payment systems carefully, and then spreading fraudulent billings widely enough across patient and provider accounts to escape detection. The kinds of highly automated, quality controlled claims processing systems that pervade the industry present fraud perpetrators with their favorite kind of target: rich, fast paying, transparent, utterly predictable check printing systems, with little threat of human intervention, and with the U.S. Treasury on the end of the electronic line. Sparrow picks apart the industry's response to the government's efforts to control this problem. The provider associations (well heeled and politically influential) have vociferously opposed almost every recent enforcement initiative, creating the unfortunate public impression that the entire health care industry is against effective fraud control. A significant segment of the industry, it seems, regards fraud and abuse not as a problem, but as a lucrative enterprise worth defending. Meanwhile, it remains a perfectly commonplace experience for patients or their relatives to examine a medical bill and discover that half of it never happened, or that; likewise, if patients then complain, they discover that no one seems to care, or that no one has the resources to do anything about it. Sparrow's research suggests that the growth of capitated managed care systems does not solve the problem, as many in the industry had assumed, but merely changes its form. The managed care environment

produces scams involving underutilization, and the withholding of medical care schemes that are harder to uncover and investigate, and much more dangerous to human health. Having worked extensively with federal and state officials since the appearance of his first book on this subject, Sparrow is in a unique position to evaluate recent law enforcement initiatives. He admits the war on fraud is at least now engaged, but it is far from won.

South Carolina Real Estate License Exam Prep Stephen Mettling, David Cusic, Ryan Mettling, 2020-01-02 Features of South Carolina Real Estate License Exam Prep (SC-RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review &

Practice (20 pages) South Carolina-Specific Laws and Practices (28 pages) National Practice Tests (500 questions) South Carolina Practice Tests (125 questions) South Carolina Sample Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-racking to prepare for. That's why we created the South Carolina Real Estate License Exam Prep (SC-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. SC-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is South Carolina-specific - not just simplistic national content, but terse, relevant and accurate South Carolina laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. SC-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by PSI for South Carolina. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your South Carolina license exam. A word about the test questions... SC-RELEP's testing practice section consists of ten national practice tests, five state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the

content covered by the law reviews – which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question’s answer is accompanied by a brief explanation, or “rationale” to further reinforce your understanding. In the end, as you know, it’s all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your South Carolina real estate exam. So good luck!! For South Carolina students looking for a South Carolina textbook to complement South Carolina Real Estate License Exam Prep, we have Principles of Real Estate Practice in South Carolina.
