A Year to Live Stephen Levine, 2009-10-07 In his new book, Stephen Levine, author of the perennial best-seller Who Dies?, teaches us how to live each moment, each hour, each day mindfully--as if it were all that was left. On his deathbed, Socrates exhorted his followers to practice dying as the highest form of wisdom. Levine decided to live this way himself for a whole year, and now he shares with us how such immediacy radically changes our view of the world and forces us to examine our priorities. Most of us go to extraordinary lengths to ignore, laugh off, or deny the fact that we are going to die, but preparing for death is one of the most rational and rewarding acts of a lifetime. It is an exercise that gives us the opportunity to deal with unfinished business and enter into a new and vibrant relationship with life. Levine provides us with a year-long program of intensely practical strategies and powerful guided meditations to help with this work, so that whenever the ultimate moment does arrive for each of us, we will not feel that it has come too soon.

Live Hope Minute Mark Smeby, 2017-12-12 Become a champion of hope! As we see chaos in the world around us, we want to have hope. But what is hope, and where does it come from? Hope is more than simple optimism that things get better, or a finger-crossed wishing that things go our way. Live Hope Minute explores the life-transforming concept of true hope and how to keep a godly perspective in our current circumstances. Through these short, inspiring devotions: • Your hope will become grounded in unshakeable faith. • Your life will become marked by love that you cannot help but give away. • Your vision will grow and keep you moving toward God and his plan for your life. When you discover true hope, you will find you are building your house on the rock that will not move. Regardless of the storms and challenges you face, you can demonstrate to those around you that life is more than just what we can see or feel. Be amazed at the power and comfort God's hope can offer.

Live Your Sunshine Lesley MacCulloch, 2017-07-11 We are brought up in a world where living in fear is both encouraged and accepted. It's normal to feel doubt, to feel guilt, to feel anger, to feel a failure. It's normal to lack enjoyment, self-confidence, and fulfillment. It's normal to live our lives according to what other people want of us, or what we think other people want of us, and to feel that, in a world where we constantly criticize and compare, we were simply not good enough. But good enough for what? And in whose view? It's time to turn that thinking around. You are good enough! You were born with confidence and a healthy self-esteem. You were born to smile more. You were born to feel ease, to feel well, and to listen to your heart and your intuition. And you can reconnect with that you. You can live true to yourself, and you can feel contentment, joy, and harmony. You can find peace, acceptance, and inner strength. You are perfect, human, worthy. You are special. You are you, and the world needs you. Free the spirit that's still burning deep inside you, and shine! You are and you can!

Documentation, Disappearance and the Representation of Live Performance M. Reason, 2006-09-22 The documentation of practice is one of the principle concerns of performance studies. Focusing on contemporary performance practice and with emphasis on the transformative impact of video, photography and writing, this book explores the

ideological, practical, and representational implications of knowing performance through its documentations.

*Ciulirnerunak Yuuyaqunak/Do Not Live Without an Elder* Ann Fienup-Riordan, 2016-10-15 In October of 2010, six men who were serving on the board of the Calista Elders Council (CEC) gathered in Anchorage with CEC staff to spend three days speaking about the subsistence way of life. The men shared stories of their early years growing up on the land and harvesting through the seasons, and the dangers they encountered there. The gathering was striking for its regional breadth, as elders came from the Bering Sea coast as well as the Yukon and Kuskokwim rivers. And while their accounts had some commonalities, they also served to demonstrate the wide range of different approaches to subsistence in different regions. This book gathers the men's stories for the current generation and those to come. Taken together, they become more than simply oral histories—rather, they testify to the importance of transmitting memories and culture and of preserving knowledge of vanishing ways of life.

**Learn To Live 2: The Image of Greatness** William Reid, 2018-11-16 Greatness is a journey. It's a trip. It's a time thing. You don't get to be great; you become great. You don't get to be a great athlete, president, teacher, doctor, or Christian. You become great. Success doesn't come to you; you have to go after success. Your ship will never come in; you have to swim out to it. Great people read, study, learn, practice, and work hard. We are made in the image of greatness. Say yes to becoming a great Christian. That's what this book is about. *Learn to Live 2: The Image of Greatness*.

*The Right to Live in Health* Daniel A. Rodríguez, 2020-07-21 Daniel A. Rodríguez's history of a newly independent Cuba shaking off the U.S. occupation focuses on the intersection of public health and politics in Havana. While medical policies were often used to further American colonial power, in Cuba, Rodríguez argues, they evolved into important expressions of anticolonial nationalism as Cuba struggled to establish itself as a modern state. A younger generation of Cuban medical reformers, including physicians, patients, and officials, imagined disease as a kind of remnant of colonial rule. These new medical nationalists, as Rodríguez calls them, looked to medical science to guide Cuba toward what they envisioned as a healthy and independent future. Rodríguez describes how medicine and new public health projects infused republican Cuba's statecraft, powerfully shaping the lives of Havana's residents. He underscores how various stakeholders, including women and people of color, demanded robust government investment in quality medical care for all Cubans, a central national value that continues today. On a broader level, Rodríguez proposes that Latin America, at least as much as the United States and Europe, was an engine for the articulation of citizens' rights, including the right to health care, in the twentieth century.

**Live Free** DeVon Franklin, 2021-05-04 The bestselling author returns with his biggest book yet in which he teaches us the secret to living a happier life: get rid of as many expectations as possible—of ourselves, our future, our relationships, our career and our family. Expectations are the secret software, running on the hardware of our minds, controlling our emotions, decisions, and actions. How? Think about your life. How much of the sadness you feel derives from what you think should have happened—than with what actually happened? Think about your career. How much of the discontent you feel comes from your belief about where you'd be at this point—than with the progress you've actually made? Think about your relationships. How much of your dissatisfaction with friends, family, significant others, or spouses has to do with your unspoken presumptions—than with the people themselves? Having so many expectations is distorting your perspective, decreasing your happiness and disrupting your joy. You can live a life of true freedom, greater peace and less stress: release as many expectations as possible. This, DeVon Franklin argues, is the secret to a better life now. In a culture obsessed with more, *Live Free* is a bold counterintuitive book that can start a cultural revolution, Franklin contends. Everyone struggles with unnecessary expectations. But once you learn to let go of them, you can set the stage for the life you've always wanted.

*Live to Tell* Lisa Gardner, 2010-07-13 "A suspenseful roller-coaster ride."—Karin Slaughter • "Lisa Gardner always delivers heart-stopping suspense."—Harlan Coben He knows everything about you—including the first place you'll hide. On a warm summer night in one of Boston's working-class neighborhoods, an unthinkable crime has been committed: Four members of a family have been brutally murdered. The father—and possible suspect—now lies clinging to life in the ICU. Murder-suicide? Or something worse? Veteran police detective D. D. Warren is certain of only one thing: There's more to this case than meets the eye. Danielle Burton is a survivor, a dedicated nurse whose passion is to help children at a locked-down pediatric psych ward. But she remains haunted by a family tragedy that shattered her life nearly twenty-five years ago. The dark anniversary is approaching, and when D. D. Warren and her partner show up at the facility, Danielle immediately realizes: It has started again. A devoted mother, Victoria Oliver has a hard time remembering what normalcy is like. But she will do anything to ensure that her troubled son has some semblance of a childhood. She will love him no matter what. Nurture him. Keep him safe. Protect him. Even when the threat comes from within her own house. The lives of these three women unfold and

connect in unexpected ways, as sins from the past emerge—and stunning secrets reveal just how tightly blood ties can bind. Sometimes the most devastating crimes are the ones closest to home.

**Live and Let Live** Evelyn M. Perry, 2016-12-22 We are in a bind, writes Evelyn M. Perry. While conventional wisdom asserts that residential racial and economic integration holds great promise for reducing inequality in the United States, Americans are demonstrably not very good at living with difference. Perry's analysis of the multiethnic, mixed-income Milwaukee community of Riverwest, where residents maintain relative stability without insisting on conformity, advances our understanding of why and how neighborhoods matter. In response to the myriad urban quantitative assessments, Perry examines the impacts of neighborhood diversity using more than three years of ethnographic fieldwork and interviews. Her in-depth examination of life on the block expands our understanding of the mechanisms by which neighborhoods shape the perceptions, behaviors, and opportunities of those who live in them. Perry challenges researchers' assumptions about what good communities look like and what well-regulated communities want. *Live and Let Live* shifts the conventional scholarly focus from What can integration do? to How is integration done?

**Sorted Books** Nina Katchadourian, 2013-02-08 A witty and thought-provoking collection of visual poems constructed from stacks of books. Delighting in the look and feel of books, conceptual artist Nina Katchadourian's playful photographic series proves that books' covers—or more specifically, their spines—can speak volumes. Over the past two decades, Katchadourian has perused libraries across the globe, selecting, stacking, and photographing groupings of two, three, four, or five books so that their titles can be read as sentences, creating whimsical narratives from the text found there. Thought-provoking, clever, and at times laugh-out-loud funny (one cluster of titles from the Akron Museum of Art's research library consists of: Primitive Art /Just Imagine/Picasso/Raised by Wolves), *Sorted Books* is an enthralling collection of visual poems full of wry wit and bookish smarts. Praise for *Sorted Books* "Katchadourian's project . . . takes on a weight beyond its initial novelty. It's a love letter to books, book collecting and the act of reading." —San Francisco Chronicle "As a longtime fan of [Katchadourian's] long-running *Sorted Books* project I'm thrilled for the release of *Sorted Books*—a collection spanning nearly two decades of her witty and wise minimalist mediations on life by way of ingeniously arranged book spines. . . . In an era drowned in periodic death tolls for the future of the physical book, her project stands as a celebration of the spirit embedded in the magnificent materiality of the printed page." —Brain Pickings "Katchadourian's stacks possess an understated sophistication; they are true to the intimate nature of books and yet reveal their dramatic features and unexpected potential." —Publishers Weekly

*Design to Live* Azra Aksamija, Raafat Majzoub, Melina Philippou, 2021-10-19 The power of design to create a life worth living even in a refugee camp: designs, inventions, and artworks from the Azraq Refugee Camp in Jordan. This book shows how, even in the most difficult conditions—forced displacement, trauma, and struggle—design can help create a life worth living. *Design to Live* documents designs, inventions, and artworks created by Syrian refugees living in the Azraq Refugee Camp in Jordan. Through these ingenious and creative innovations—including the vertical garden, an arrangement necessitated by regulations that forbid planting in the ground; a front hall, fashioned to protect privacy; a baby swing made from recycled desks; and a chess set carved from a broomstick—refugees defy the material scarcity, unforgiving desert climate, and cultural isolation of the camp. Written in close collaboration with the residents of the camp, with text in both English and Arabic, *Design to Live* reflects two perspectives on the camp: people living and working in Azraq and designers reflecting on humanitarian architecture within the broader field of socially engaged art and design. Architectural drawings, illustrations, photographs, narratives, and stories offer vivid testimony to the imaginative and artful ways that residents alter and reconstruct the standardized humanitarian design of the camp—and provide models that can be replicated elsewhere. The book is the product of a three-year project undertaken by MIT Future Heritage Lab, researchers and students with Syrian refugees at the Azraq Refugee Camp, CARE, Jordan, and the German-Jordanian University. Copublication with Future Heritage Lab, MIT
