Paul Fletcher, Ciara O'Toole

Mot Sarah Einstein, 2015-09-15 At forty, Sarah Einstein is forced to face her own shortcomings. In the wake of an attempted sexual assault, she must come to terms with the facts that she is not tough enough for her job managing a local drop-in center for adults with mental illness and that her new marriage is already faltering. Just as she reaches her breaking point, she meets Mot, a homeless veteran who lives a life dictated by frightening delusion. She is drawn to the brilliant ways he has found to lead his own difficult life; traveling to Romania to get his teeth fixed because the United States doesn't offer dental care to the indigent, teaching himself to use computers in public libraries, and even taking university classes while living out of doors. Mot: A Memoir is the story of their unlikely friendship and explores what we can, and cannot, do for a person we love. In unsparing prose and with a sharp eye for detail, Einstein brings the reader into the world of Mot's delusions and illuminates a life that would otherwise be hidden from us.

Mots nous en català / New words in Catalan M. Teresa Cabré Castellví, Ona Domènech Bagaria, Rosa Estopà Bagot, 2014-10-15 This is an innovative and distinctive comparative monograph about new word creation in the different varieties of Catalan. In eight chapters, it provides a panoramic analysis of the neologisms documented by the NEOXOC network. Each chapter is dedicated to the qualitative and quantitative analysis, as well as the comparative territorial analysis, of neologisms, differentiated by formation sources: suffixation, prefixation, neoclassical compounding, vernacular compounding and syntagmatic compounding, Spanish loanwords, English loanwords, truncation and semantic change. Two annexes contain the neologisms cited as well as a sample of the data collected by NEOXOC from a corpus during 2008-2010, thus establishing a link with previous studies carried out by the Observatori de Neologia. This book is of interest to scholars of the Catalan language and to anyone involved in lexical neology, or in more specific fields such as morphology or lexical semantics. Moreover, the innovative approach (based on the analysis of diatopic variation in Catalan lexical neology) makes it relevant for those who are interested in the evolution of languages, linguistic variation and language planning. The chapters are written in Catalan, with extensive English summaries.

As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
