Death by Meeting Patrick M. Lencioni, 2010-06-03
A straightforward framework for creating engaging and exciting business meetings Casey McDaniel had never been so nervous in his life. In just ten minutes, The Meeting, as it would forever be known, would begin. Casey had every reason to believe that his performance over the next two hours would determine the fate of his career, his financial future, and the company he had built from scratch. "How could my life have unraveled so quickly?" he wondered. In his latest page-turning work of business fiction, best-selling author Patrick Lencioni provides readers with another powerful and thought-provoking book, this one centered around a cure for the most painful yet underestimated problem of modern business: bad meetings. And what he suggests is both simple and revolutionary. Casey McDaniel, the founder and CEO of Yip Software, is in the midst of a problem he created, but one he doesn't know how to solve. And he doesn't know where or who to turn to for advice. His staff can't help him; they're as dumbfounded as he is by their tortuous meetings. Then an unlikely advisor, Will Peterson, enters Casey's world. When he proposes an unconventional, even radical, approach to solving the meeting problem, Casey is just desperate enough to listen. As in his other books, Lencioni provides a framework for his groundbreaking model, and makes it applicable to the real world. Death by Meeting is nothing short of a blueprint for leaders who

want to eliminate waste and frustration among their teams and create environments of engagement and passion.

This is a book for the manager who recognizes that meetings are at the core of the work you do, the supervisor who wants to be wonderful to work for, the employee who wants to contribute as much as possible, the project leader who wants every team meeting to add velocity to the project. Meetings are essential. So let's make them work.

100 Tricks to Appear Smart in Meetings Sarah Cooper, 2016-10-04 Funny because it's true. From the creator of the viral sensation 10 Tricks to Appear Smart in Meetings comes the must-have book you never knew you needed, 100 Tricks to Appear Smart in Meetings. In it, you will learn how to appear smart in less than half the time it takes to actually learn anything. You know those subtle tricks your coworkers are all guilty of? The constant nodding, pretend concentration, useless rhetorical questions? These tricks make them seem like they know what they're doing when in fact they have no clue. This behavior is so ingrained, so subtle, and so often mistaken for true intelligence that identifying it, calling it out, or compiling it into an exhaustive digest has never been attempted. Until now. Complete with illustrated tips, examples, and scenarios, 100 Tricks gives you actionable ways to use words like

“actionable,” in order to sound smart. Every type of meeting is covered, from general meetings where you stopped paying attention almost immediately, to one-on-one meetings you zoned out on, to impromptu meetings you were painfully subjected to at the last minute. It’s all here. Open this book to any page and find an easy-to-digest trick with an even easier-to-digest illustration, guiding you on: how to nail the big meeting by pacing and nodding most effective ways to listen to your coworkers while still completely ignoring them the key to making your presentations “interactive.” If you hadn’t noticed these behaviors before, you will see them now—from your colleagues, your managers, and soon yourself. Each trick is a mirror to the reality of what happens in meetings, told in the form of hilariously bad advice—advice that you might just want to take. But probably not. But maybe.

Marriage Meetings for Lasting Love Marcia Naomi Berger, 2014-01-15 Most couples — because they watch so many of their peers divorce and are themselves the products of failed marriages — don't have many successful long-term-relationship role models. Parenting and communication issues are perennial, while some challenges, like increasingly 24-7 work lives and economic hardships, mark the current decade. Despite all this, psychotherapist and clinical social worker Marcia Naomi Berger asserts that most couples can make love last — they just need to learn how. Berger answers this need with a deceptively simple prescription: have an interruption-free thirty-minute (or even shorter) meeting each week and follow an agenda that includes the kind of appreciation and planning for fun that foster intimacy and pave the way for collaborative conflict resolution. Berger has refined these techniques while working with hundreds of couples — with results that are both practical and

profound.

How much time does your organization waste in unfocused, unengaging and unproductive virtual meetings? Virtual meetings are on the rise. Unfortunately, most meeting leaders don't know the strategies for executing masterful virtual meetings. As a result, most virtual meetings:
Don't start on time because people have difficulty with the technology
Don't have a defined purpose due to lack of preparation
Don't keep people engaged due to escalated multi-tasking
Don't address conflict because the leader often doesn't see the body language information that communicates silent disagreement
Don't deal with dysfunction because the meeting leader is distracted with the technology
CLICK for Strategies
CLICK: The Virtual Meetings Book provides meeting leaders with 60 comprehensive strategies for planning and executing masterful virtual meetings. In its twelve chapters, you'll find strategies and answers to these questions and more: How do you keep engagement high in a virtual meeting? How do you eliminate unnecessary virtual meetings? What are the key features that differentiate various online meeting platforms? How do you reduce the likelihood that your meeting will be derailed by technical issues? What if only a few people are remote? Or, what if you, the meeting leader, are the only one remote? How do you ask questions that receive lots of responses instead of that dreaded silence? How to Fix Meetings Graham Allcott, Hayley Watts, 2021-05-13 'An accessible thought provoking book that offers something of interest to anyone responsible for organising (or participating in) meetings.' Jackie Weaver, Chief Officer of the Cheshire Association of Local Councils Zoom fatigue? Calendar full of meetings that could just be an email? Online and offline, too much valuable time is wasted in meetings. Often little advance planning takes place, resulting in productivity drains rather than productivity gains. Providing realistic and practical advice, productivity professionals Graham Allcott and Hayley Watts show how to reduce the amount of time you spend in meetings, and ensure that the ones that you do

attend are genuine opportunities to collaborate and get things done. Learn how to hold and attend meetings where the focus is on the outcome; get to grips with the 40-20-40 Continuum, so that only 20 per cent of your attention for each meeting is spent in the meeting itself - the rest is in the preparation and the follow-through; and understand when it's necessary to say that you won't be attending - and how best to do so.

The Meeting Book Helen Chapman, 2016-09-26 Meetings are alive Whether it's a few people meeting over coffee or 100 people in a conference room, meetings happen all the time. They are a constantly changing and living pattern; a connection of minds, content and process. Every meeting, no matter how large or small, has the potential to be a dynamic interaction of human brains. The possibilities for success are endless and yet organizations persist in forcing

themselves into a rigid straight jacket of endless agendas, boring monologues and tedious PowerPoint. Where agendas are long and aimless. Where people stop each other talking. Where creativity is stifled. Where things go around in circles or grind to a halt. Where time is lost. Now is the time to make a change; to adapt to a better way of working. Now is the time for to take responsibility whether you Attend, Chair or Facilitate meetings; it's over to you to help lead the way. Whether you're problem-solving, innovating, strategizing, visioning, aligning or simply informing-you have more influence than you think. You just need to know how. Powerfully Simple Meetings Bryan Field, Peter Kidd, 2014-04-01 For most of our early careers, the cofounders of MeetingResult were stuck in conference rooms just like yours. We sat through unproductive, unplanned, unstandardized and over-attended meetings that drove ambiguous outcomes while consuming a lot of our real work time. We saw action items, decisions and ideas spark to life only to fade from a lack of meeting follow-up and accountability. And we naively accepted the status quo of meeting performance believing that's just the way it is. However, as we grew in our careers as leaders and project management professionals, we realized a desperate need to change the status quo of our own meetings. Like a saw to a carpenter, great business meetings are an essential tool that project managers use to deliver successful projects. We witnessed our share of failed projects and we knew if we didn't sharpen our tools and techniques, our projects would follow the common path of failure (that is, over budget, behind schedule, missed objectives). We started by developing a meeting process that

optimized our project performance. We were focused on bringing the highest level of clarity, accountability and effectiveness to our own meetings. We did extensive research, modeled the best meeting leaders and continued to improve our process through trial and error. We extensively studied what works (and what doesn't) and we applied these principles firsthand to deliver results in conference rooms and boardrooms just like yours. We received recognition and promotions largely in part to our ability to run great business meetings. After decades of experience managing literally thousands of meetings, we decided it was time to share this knowledge that revolutionized our professional lives. We packaged our meeting process into a powerfully simple meeting (PSM) system that will enable you and your organization to conduct fewer, faster, more-focused meetings. Whether in a project, sales or operations environment, it gives us great satisfaction to see leaders implement our meeting process and reap the benefits that virtually anyone can achieve if they consistently follow the principles and processes described in this book.
