Media Messages Linda Holtzman,Leon Sharpe,2014-12-18 The new edition of this widely adopted book reveals how the popular media contribute to widespread myths and misunderstanding about cultural diversity. While focused on the impact of television, feature film, and popular music, the authors reach far beyond media to explore how our understanding, values, and beliefs about race, class, gender and sexual orientation are constructed. They analyze how personal histories, combined with the collective history of oppression and liberation, contribute to stereotypes and misinformation, as well as how personal engagement with media can impact prospects for individual and social freedom. Along with updated media examples, expanded theories and analysis, this edition explores even more deeply the coverage of race in two chapters, discusses more broadly how men and boys are depicted in the media and socialized, and how class issues have become even more visible since the Great Recession of the 21st century and the Occupy movements. Special activities and exercises are provided in the book and an online Instructor's Manual is available to adopters.

Living with Cultivating Messages Elena Pelzer, 2021-09-21 Wie beeinflussen Botschaften aus dem Fernsehen unsere Wahrnehmung über die soziale Realität? Meistens konzentrieren sich Kultivierungsstudien zu dieser Frage auf die Medieneffekte. Doch das vorliegende Buch wählt einen neuen Ansatz und stellt die kultivierenden Botschaften in den Vordergrund. Das Buch behandelt, was Botschaften sind und wie sich uniforme von genrespezifischen Botschaften und Metanarrativen unterscheiden. Es werden verschiedene theoretische und fachliche Perspektiven zusammengebracht und das neue Botschaftskonzept 'Subgenre-Botschaften' vorgestellt, welches die Veränderungen der Medienlandschaft hin zum Online-Fernsehen berücksichtigt. Die computergestützte Simulationsstudie zeigt, inwiefern sich manche Botschaftskonzepte mehr ähneln als andere, und demonstriert, dass Subgenre-Botschaften am robustesten gegenüber Verzerrungen sind.

The Message and the Book John Bowker, Atlantic Books, an imprint of Grove Atlantic Ltd., 2012-03-27 Grand in its sweep, this survey of the sacred writings of the major religions of the world offers a thoughtful introduction to the ideas and beliefs upon which great faiths are built. Under the expert guidance of John Bowker, a religious scholar and author of international stature, readers explore the key texts of Jewish, Christian, Muslim, Hindu, Jain, Sikh, Buddhist, Parsi, Confucian, Daoist, and Shinto traditions. The author discusses some 400 books, among them such well-known sacred texts as the Bible and the Quran, but also spiritual writings by theologians, philosophers, poets, and others. Bowker provides clear and illuminating commentary on each text, describing the content and core tenets of the work and quoting pertinent passages. He also sets the writings in religious and historical contexts, showing how they have influenced—and in many cases continue to influence—artistic, musical, literary, and political traditions. **The Message and the Book** is essential reading for anyone who wishes to understand the meaning and the deep significance of primary religious texts of civilizations around the globe.

The Message of the Book of Revelation Charles T. Chapman, 1995 Perhaps no book in the history of the world has been as misunderstood and misappropriated as the Book of Revelation. Those people versed in the methods of scholarly interpretation (exegesis) may understand the symbolism of this work, but what about the general reader? How is he or she to know whether this book is being soundly interpreted or misinterpreted? Father Chapman writes for the general reader, for the many who need to understand the truth of **The Message of the Book of Revelation** -both its historical message and its message for Christians today. He explains, phrase by phrase, in clear, direct terms what has been learned about the genre of writings called apocalyptic literature - of which Revelation is a part - and how that knowledge can be properly used to interpret the images and symbols of Revelation. Faithful to the teaching of the Church, this explanation of Revelation reveals this biblical book to be an inspiring, hope-filled, poetic portrayal of the triumph of Christ and his followers over the powers of evil. The Rev. Charles T. Chapman, Jr., was raised and educated as a Southern Baptist.

He joined the Episcopal Church in 1980 and was ordained priest in 1987. He holds degrees from Union University and The Southern Baptist Theological Seminary, with further training at the Episcopal Theological Seminary of the Southwest. With Bible teaching and writing among his principle interests, Fr. Chapman offers this commentary in the hopes that reason and scholarship can shed light on a biblical work where baseless, extravagant imagination has long cast its shadow.

Street Messages Nicholas Ganz,2015-08-31 There is plenty of creativity within the international graffiti and street art scene. Writing text messages in public spaces has been a unique art form and a means of communication between humans for thousands of years. Many street artists work only with text, written messages or poems, and not necessarily only with colourful murals, styles, tags and logos. Street Messages is the first publication that delivers a deep insight into this literary form of expression in the world of global street art. We are confronted with a vast amount of written information in the form of advertising and street or shop signs every single day of our lives. Reading and decoding this information has become a daily routine. Apart from the texts that are trying to sell us something or direct us somewhere, the streets are full of artistic and poetic forms of expression – messages written by graffiti and street artists. Street Messages offers a historic background to written messages in public spaces and introduces more than 80 artists from across the world who work exclusively or partly with text. The vast body of information and numerous exclusive quotes and words of wisdom makes Street Messages the first book to shed some light on this as yet undocumented form of street art culture. Features artwork by Banksy, Dolk, Ben Eine, Faith 47, Flint..., Kid Acne, Know Hope, Mobstr, Skki and many others.

Using WebSphere Message Broker V8 in Mid-Market Environments Carla Sadtler,Vinicius D. G. Braganca,Minsung Byun,David Crighton,Kiran Darbha,Jefferson Lowrey,Pavel Malyutin,Abhinav Priyadarshi,Rashmi Katagall,IBM Redbooks,2012-08-31 IBM WebSphere® Message Broker is a

lightweight, advanced enterprise service bus (ESB) that provides a broad range of integration capabilities that enable companies to rapidly integrate internal applications and connect to partner applications. Messages from business applications can be transformed, augmented and routed to other business applications. The types and complexity of the integration required will vary by company, application types, and a number of other factors. Processing logic in WebSphere Message Broker is implemented using message flows. Through message flows, messages from business applications can be transformed, augmented, and routed to other business applications. Message flows are created by connecting nodes together. A wide selection of built-in nodes are provided with WebSphere Message Broker. These nodes perform tasks that are associated with message routing, transformation, and enrichment. Message flows are created and tested using the Message Broker Toolkit, a sophisticated, easy-to-use programming tool that provides a full range of programming aids. This IBM® Redbooks® publication focuses on two specific integration requirements that apply to many midmarket companies. The first is the ability to use WebSphere Message Broker to integrate Microsoft.NET applications into a broader connectivity solution. WebSphere Message Broker V8 introduces the ability to integrate with existing Microsoft .NET Framework applications. A .NET assembly can be called from within a message flow and the WebSphere Message Broker runtime can host and run .NET code. Solutions explored in this book cover connectivity to applications using Windows Communications Framework (WCF), Microsoft Message Queuing, Microsoft Dynamics CRM, and other Microsoft applications. The second is the ability to integrate WebSphere Message Broker with file transfer networks, specifically with WebSphere MQ File Transfer Edition and IBM Sterling Connect Direct.
