Mirrors Serge Roche, Germain Courage, Pierre Devinoy, 1985

The Tain of the Mirror Rodolphe Gasché, 1986
Deconstruction is no game of mirrors, revealing the text as a play of surface against surface. Its more radical philosophical effort is to get behind the mirror and question the very nature of reflection. The Tain of the Mirror explores that gritty surface without which no reflection would be possible.

Black Mirror Nancy Werlin, Frances Leventhal
refuses to look in the mirror; she can't bear to face her reflection. She has hidden from herself and everyone around her for such a long time, and now that her brother Daniel has committed suicide, she can't help thinking that it's somehow her fault. If she hadn't been so caught up in her own pain, maybe she would have noticed her brother's. It's time to stop hiding—to reach out to Daniel's friends at their private school. Daniel had been deeply involved in Unity Service, the charitable group on campus, and Frances is determined to join the group and to make amends. But something's not quite right about Unity, and soon Frances finds herself in the middle of a puzzle too ominous to ignore. Exactly what are the Unity members trying so hard to hide? And why does no one else on campus, adult or teen, seem suspicious of them? This time Frances won't scurry away to hide. The memory of her brother is at stake.

The Mirror as an Image of Concealment and Revelation in Carol Shields' "Mirrors" Franka Girod, 2010-05 Essay from the year 2008 in the subject English - Literature, Works, grade: 2,0, University of Marburg (Fremdsprachliche Philologien), course: Proseminar The Short Story in English Speaking Canada, language: English, abstract: The couple described in Mirrors has decided to live without mirrors during summer, while spending their time in their summer house at Big Circle Lake. This cohabitation turns out to be not as harmoniously as the rest of the world sees it. The absence of mirrors causes several problems both partners try to deal with by themselves. This paper shall be concerned with the image of mirrors in the story, regarding especially the concealment and revelation it symbolizes. Therefore the image of the mirror in general has to be viewed. Afterwards the mirrorless summer house has to be examined as well as the couple, which deliberately lives without mirrors. In addition special scenes will be analysed. After looking at the couple, the usage of mirrors in the story play an important role to find an answer to the question if the deliberate mirrorlessness reminds both partners of their better selves.

The Other Sides of a Mirror David

Romo, 2022-07-07 Pedro has always believed his life is boring and that nothing exciting or good will

ever happen to him, but things are about to change drastically. Because of circumstances beyond his control, Pedro is now the leader of his group of friends. Now tasked with making life and death decisions for which he has no previous experience, he struggles to make the right choices. He swiftly makes new friends as well as enemies, and discovers different realms that even in his wildest dreams ever imagined could exist. Because of Pedro's lack of knowledge with traveling through other worlds, he usually ends up in the middle of the of the worst situations. In the past he was warned that "Things are not always the way they appear to be," and swiftly realizes just how true that statement is. Steven Boyd and the Blufirs have already begun attacking and make everyone's lives more difficult, yet somehow Pedro has managed to stay alive. But how long will they be able to survive as they travel through new and dangerous worlds where things are anything but normal? Despite all of this, Pedro has succeeded in meeting a few new allies who are now working alongside with him until more reinforcements can arrive, albeit from another solar system thousands of light-years away. As bad as things sometimes get, Pedro has always managed to make everything just a little more interesting and amusing for everybody else. But with every new world, there are more choices and challenges that must be dealt with.

The Mirror Thief Martin Seay, 2016-05-10 A New York Times NOTABLE BOOK OF THE YEAR An NPR BEST BOOK OF THE YEAR A Publishers Weekly BEST BOOK OF THE YEAR A globetrotting, time-bending, wildly

entertaining masterpiece hailed by the New York Times Book Review as Audaciously well written ... the book I was raving about to my friends before I'd even finished it. Set in three different eras, and in three different locations—all, coincidentally, named Venice—this “startling, beautiful gem of a book” (NPR) calls to mind David Mitchell and Umberto Eco in its mix of entertainment and literary bravado. The core story is set in sixteenth-century Venice, where, on the island of Murano, the famed makers of Venetian glass were perfecting one of the old world's most wondrous inventions: the mirror. An object of glittering yet fearful fascination—was it reflecting simple reality, or something more spiritually revealing?—the Venetian mirrors were state-of-the-art technology, subject to industrial espionage by desirous sultans and royals world-wide. Thus, for the skilled craftsmen that made them, any attempt to leave the island—to steal the technology—was a crime punishable by death. One man, however—a world-weary war hero with nothing to lose—has a scheme he thinks will allow him to outwit the city's terrifying enforcers of the edict, the ominous Council of Ten . . . Meanwhile, in two other Venices—Venice Beach, California, circa 1958, and the Venice casino in Las Vegas, circa today—two other schemers launch similarly dangerous plans to get away with a secret . . . All three stories weave together into a spell-binding tour de force that is impossible to put down—an old-fashioned, stay-up-all-night novel that, in the end, returns the reader to a stunning conclusion in the original Venice . . . and the

bedazzled sense of having read a truly original and thrilling work of art.

The British Essayists: Mirror ,1823

Mirror, Mirror Elaine Hatfield, Susan

Sprecher, 1985-12-01 *Mirror, Mirror...* examines the hidden truth about good looks. Through extensive research of scholarly studies and popular culture, the authors provide a lively and comprehensive view of what behavioral scientists have learned about the effects of personal appearance. A wealth of illustrations and photographs give visual support to the evidence presented. The book explores the view that people believe good-looking individuals possess almost all the virtues known to humankind; consequently, they treat the good-looking and ugly very differently. *Mirror, Mirror* reviews the stereotypes held about people with specific characteristics and it explains the impact of height, weight, and attributes such as hair color, eye color and facial hair on the

course of social encounters. The authors show that through time these reaction patterns have their effect and that good-looking and unattractive persons come to be different types of people. To show the relative nature of concepts of beauty, the authors also present examples of what other cultures consider attractive.

Lunda Geometry: Mirror Curves, Designs, Knots, Polyominoes, Patterns, Symmetries Paulus

Gerdes,2008-06-26 The book Lunda Geometry explains how the mathematical concepts of mirror curves and Lunda-designs were discovered in the context of the author's research of 'sona', illustrations traditionally made in the sand by Cokwe storytellers from eastern Angola (a region called Lunda) and neighboring regions of Congo and Zambia. Examples of mirror curves from several cultures are presented. Lunda-designs are aesthetically attractive and display interesting symmetry properties. Examples of Lunda-patterns and Lunda-polyominoes are presented. Some

generalizations of the concept of Lunda-design are discussed, like hexagonal Lunda-designs, Lunda-k-designs, Lunda-fractals, and circular Lunda-designs. Lunda-designs of Celtic knot designs are constructed. Several chapters were published in journals like 'Computers & Graphics' (Oxford), 'Visual Mathematics' (Belgrade), and 'Mathematics in School' (UK).
