**Being Mortal** Atul Gawande,2014-10-07 #1 New York Times Bestseller In Being Mortal, bestselling author Atul Gawande tackles the hardest challenge of his profession: how medicine can not only improve life but also the process of its ending Medicine has triumphed in modern times, transforming birth, injury, and infectious disease from harrowing to manageable. But in the inevitable condition of aging and death, the goals of medicine seem too frequently to run counter to the interest of the human spirit. Nursing homes, preoccupied with safety, pin patients into railed beds and wheelchairs. Hospitals isolate the dying, checking for vital signs long after the goals of cure have become moot. Doctors, committed to extending life, continue to carry out devastating procedures that in the end extend suffering. Gawande, a practicing surgeon, addresses his profession's ultimate limitation, arguing that quality of life is the desired goal for patients and families. Gawande offers examples of freer, more socially fulfilling models for assisting the infirm and dependent elderly, and he explores the varieties of hospice care to demonstrate that a person's last weeks or months may be rich and dignified. Full of eye-opening research and riveting storytelling, Being Mortal asserts that medicine can comfort and enhance our experience even to the end, providing not only a good life but also a good end.

**Mortal** Ted Dekker,Tosca Lee,2013-02-26 Centuries have passed since civilization's brush with apocalypse. The world's greatest threats have all been silenced. There is no anger, no hatred, no war. There is only perfect peace...and fear. A terrible secret was closely guarded for centuries: every single soul walking the earth, though in appearance totally normal, is actually dead, long ago genetically stripped of true humanity. Nine years have gone by since an unlikely hero named Rom Sebastian first discovered a secret and consumed an ancient potion of blood to bring himself back to life in Forbidden. Surviving against impossible odds, Rom has gathered a secret faction of followers who have also taken the blood-the first Mortals in a world that is dead. But The Order has raised an elite army to hunt and crush the living. Division and betrayal threaten to destroy the Mortals from within. The final surviving hope for humanity teeters on the brink of annihilation and no one knows the path to survival. On the heels of Forbidden comes MORTAL, the second novel in The Books of Mortals saga penned by Ted Dekker and Tosca Lee. Set in a terrifying, medieval future, where grim pageantry masks death, this tale of dark desires and staggering stakes peels back the layers of the heart for all who dare take the journey. The Books of Mortals are three novels, each of which stands on its own, yet all are seamlessly woven into one epic thriller.

**Mortal Causes** Ian Rankin,2011-03-22 The sixth novel featuring Inspector John Rebus, available for the first time as an e-book and with an exclusive introduction by author Ian Rankin. Inspector John Rebus hates the Edinburgh Festival. He especially hates that last Saturday night. He has spent years on the police force confronting it, avoiding it, and cursing it, but most of the time he still gets caught up in it. Nevertheless, this is an honored tradition of Scotland, and a happy one at that. But amid the blaring noise created by the music, laughter, and toasts of Slainte as glasses of whiskey are swilled, another tradition—one older than music, happiness, and drink itself—has traveled to Edinburgh and nested itself in the medieval quarter of Mary King's Close. There, beneath the streets of Edinburgh, Inspector Rebus finds the lifeless body of Billy Cunningham swinging from a butcher's hook and knows that his problems have only begun. When Big Ger Cafferty, the ruthless gangster whose sphere of influence extends well beyond the bars that the Inspector himself put him behind, discovers that Bill, his only son, has been brutally murdered, Rebus finds himself with more motivation than his duty can provide to find Billy's killer. But when the police pathologist reports that the young man was killed by

professional hands, Rebus finds himself up against a force that could frighten Big Ger himself.

**Mortal Coils** Eric Nylund,2009-02-03 Nothing interesting ever happened to fifteen-year-old orphans Eliot and Fiona while they've lived in the strict, oppressive household of their grandmother. A chance visit, however, reveals that there is much more to the twins. They are the offspring of a goddess and Lucifer, Prince of Darkness. Now, to settle the epic custody battle between these two families, the fallen angels create three diabolical temptations, and the gods fashion three heroic trials to test Eliot and Fiona. More than ever they need to stick together to survive and to learn how to use their budding supernatural abilities . . . for family allegiances are ever-shifting in the ancient, secret world they have entered. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Mortal Grounding** Richard Chambers Prescott,2008-09-05 To see more manuscripts by Richard Chambers Prescott go to Scribd.com and enter Grascott or PrescottRC. This manuscript, Mortal Grounding, has a simple thought in mind. To bring together our modern cosmological knowledge with our understanding of what is consciousness. It is something of a task to unite these two styles of comprehension about our existence, as much as it is to join quantum physics with general and special relativity. The idea is that both want to reach the source, the source of what is cosmological and what is consciousness. It seems simple enough. Cosmology studies the creation, searching for the creator of it all, whatever that may be. Consciousness seems to look more at what is the creator in order to understand creation. They are parallel and reversed, but both seek to understand, re-link, comprehend or unite with the Mystery. This Universes Given Moment of reaching, of conscious mortal becoming, grounded on Earth, for the brief moment, life to death, yet in and as a rare something more, the rarest star stuff circling back as consciousness that is able to grasp its origin, without a direction transposed as times beginning. This would be one idea of mortal grounding. Some of the subjects taken up in this endeavor of unification are Pure Gravity, Spacetime Fluid, the Superclustering of Universes, Wave Cosmology, Non-Local Independent Consciousness, the question, is this Logical or Mystical. The text also leans heavily on Tantras explanations, examining the myriad layers of consciousness and their psychological weight, the intriguing erotic energy, the hidden secrets that are rarely discussed and the nature of freedom according to the belief system of Tantra.
