Understanding the Koran Mateen Ellass, 2009-08-19 Find out how the Koran resembles the Bible—and the drastic ways in which it differs. Understanding the Koran gives you an essential grasp of Islam's holy book: where it came from, what it teaches, how Muslims view it, and how the Allah of the Koran compares with the God of the Bible. Cherished as the final, perfect revelation of God's will by 1.2 billion Muslims worldwide, the Koran has become a part of American life. What do you know about the holy book that shapes the lives and views of your neighbors and a fifth of the world's population? Written by a pastor who was born to a Muslim father and raised in Saudi Arabia, Understanding the Koran gives you a fascinating, easy-to-understand overview that will show you: Why the background behind the Koran is important to understanding it. How the Koran came into existence. A summary of the main teachings of the Koran, including what it says about Jesus and the crucifixion. Similarities and differences between Muslim and Christian views of God. What the Koran teaches about Jihad and holy war. What the Koran teaches about heaven and hell and the final destinies of the human soul. Giving you an essential grasp of Islam's holy book, Understanding the Koran points you to the one thing that can draw your Muslim friends to Jesus—his love, demonstrated to them through you. Discussion questions make it possible to use this book in group studies.

Young Muslim America Muna Ali, 2018-01-08 Young Muslim America explores the perspectives and identities of the American descendants of immigrant Muslims and converts to Islam. Whether their parents were new Muslims or new Americans, the younger generations of Muslim Americans grow up bearing a dual heritage and are uniquely positioned to expound the meaning of both. In this ethnographic study, Muna Ali explores the role of young Muslim Americans within America and the ummah through four dominant narratives that emerge from discussions about and among Muslims. Cultural differences purportedly cause an identity crisis among young Muslims torn between seemingly irreconcilable Islamic and Western heritages. Additionally, culture presumably contaminates a pure Islam and underlies all that divides Muslim America's diverse subgroups. Some propose creating an American Muslim culture and identity to overcome these challenges. But in this historical moment when Muslims have become America's newest problem people and political wedge, some Americans are suspicious of this identity and fear a Muslim cultural takeover and the Islamization of America. Situating these discussions in the fields of identity, immigration, American studies, and the anthropology of Islam, Ali examines how younger Muslims see themselves, their faith community, and their society, and how that informs their daily life and helps them envision an American future.

The North American Muslim Resource Guide Mohamed Nimer, 2002 First Published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Muslim Families in North America Earle H. Waugh, Sharon Abu-Laban, Regula Qureshi, 1991 This collection explores issues of adaptation between Islam and North American culture, including the dynamics of the family, strategies for coping, the influence of an alien environment upon believers, and the role of women in an Islamic setting.

Islam and North America Micah Fries, Keith Whitfield, 2018-11-01 Love your Muslim neighbors. Motivated by a deep-rooted conviction that the North American church needs to be equipped for this important task, Micah Fries and

Keith Whitfield have gathered a group of experts who are deeply invested in successful outreach to their Muslim neighbors. Unlike many resources that explore the topic of Islam as a dominant religion in the Middle East, Islam and North America focuses on the presence of Islam here in North America. Answering questions about the commonalities between Christians and Muslims, freedom of worship, the Quran, and Sharia law, this book will equip North American Christians to think about Islam theologically and missionally, engage their Muslim neighbors hospitably, and encourage readers to find new opportunities for missional engagement in their own backyards.

Acts of Faith Eboo Patel, 2010-09-15 With a new afterword Acts of Faith is a remarkable account of growing up Muslim in America and coming to believe in religious pluralism, from one of the most prominent faith leaders in the United States. Eboo Patel's story is a hopeful and moving testament to the power and passion of young people—and of the world-changing potential of an interfaith youth movement.

Jerusalem: The Concern of Every Muslim Yusuf al-Qaradawi, There is an Arab proverb that says, O Pharaoh, what has made you be such a tyrant? He said, 'I did not find anyone to stand against me.' Jerusalem is facing the direction of the wind, contending with an imminent danger that has set its goal and schemed to swallow Jerusalem, Judaize it, and uproot it from its Arab and Muslim origins. This is the tenth message of Rasa'il Tarsheed As-Sahwah (Message of awakening guidance), which deals with one of the most important issues before us as both Muslims and Arabs: Al-Quds Ash-Sharif (the Noble Jerusalem). This enemy has declared its decision, challenged, confronted, and aggressed and has not found anyone from among the entire nation of Islam who can stand against it.

The World Muslim Population Houssain Kettani, 2019-11-08 The birth of Islam over fourteen centuries ago was a monumental event in human history with an everlasting effect on humanity. For centuries, researchers have contemplated the growth and distribution of Muslims throughout the world. This book presents a reliable estimate of the world Muslim population since the inception of Islam at the start of the seventh century to the end of the twenty-first century. In this book, the world is divided into five continents, each of which is further divided into non-overlapping regions, and these in turn are divided into current countries. A centennial data estimate for each region and current country from 600 AD to 2100 AD (approximately 1 H to 1500 H) of the total population, and the corresponding Muslim population and its percentage are provided. Furthermore, the same data in decennial order from 1790 to 2100 (or 1210 H to 1520 H) are provided for each region and country. These data are summarized to be an accurate reference for other studies and discussions related to the Muslim population. Written for demographers, researchers, historians, as well as general readers, this book is an essential reference to all aspects of the world Muslim population.

American Muslim Women Jamillah Karim, 2009 Focusing on women, who sometimes move outside of their ethnic Muslim spaced and interact with other Muslim ethnic groups in search of gender justice, this ethnographic study of African American and South Asian immigrant Muslims in Chicago and Atlanta explores how Islamic ideas of racial harmony and equality create hopeful possibilities in an American society that remains challenged by race and class inequalities.--Page 4 of cover.

Islam without Extremes: A Muslim Case for Liberty Mustafa Akyol, 2011-07-18 "A delightfully original take on...the prospects for liberal democracy in the broader Islamic Middle East."—Matthew Kaminski, Wall Street Journal As the Arab Spring threatens to give way to authoritarianism in Egypt and reports from Afghanistan detail widespread violence against U.S. troops and women, news from the Muslim world raises the question: Is Islam incompatible with freedom? In *Islam without Extremes*, Turkish columnist Mustafa Akyol answers this question by revealing the little-understood roots of political Islam, which originally included both rationalist, flexible strains and more dogmatic, rigid ones. Though the rigid traditionalists won out, Akyol points to a flourishing of liberalism in the nineteenth-century Ottoman Empire and the unique "Islam-liberal synthesis" in present-day Turkey. As he powerfully asserts, only by accepting a secular state can Islamic societies thrive. *Islam without Extremes* offers a desperately needed intellectual basis for the reconcilability of Islam and liberty.

Growing Up Muslim Sumbul Ali-Karamali, 2013-08-06 Sumbul Ali-Karamali discusses the many and varied questions she fielded from curious friends and schoolmates while growing up in Southern California - from diet, to dress, to prayer and holidays and everything in between. She also provides an academically reliable introduction to Islam, addressing its inception, development and current demographics.

Islamic Values in the United States Yvonne Yazbeck Haddad, Adair T. Lummis, 1987 This ethnography of immigrant Muslims examines five Northeastern communities, providing an intimate look at what it means to be a practicing Muslim in America at a time when Islam is in the forefront of international news.

Understanding Christian-Muslim Relations Clinton Bennett, 2008-04-10 For centuries Christians and Muslims have engaged with each other in manifold ways, peaceful and otherwise, be it in scholarly study, or in war and colonization. Today, Christians represent an influential body of opinion that largely perceives Islam, post 9/11, as a threat. Yet Muslims represent approximately one third of the world's population. Improved understanding between Christians and Muslims is therefore crucial and a prerequisite for universal peace and justice. This book aims to investigate Islam's place in the world, Muslim aspirations vis-a-vis non-Muslims and the realities of how Muslims are perceived and how they perceive others. Each chapter analyses accessible texts from central thinkers and commentators, broadly split into two camps: confrontational or conciliatory. Christian-Muslim relations are set in the wider context of civilizational, geo-political and economic interaction between the Muslim world and the historically Christian West.

Understanding Muslim Discourse Mbaye Lo, 2009-07-30 This book provides a well-illustrated account of the major ideas currently in use within the Muslim discourse, and also examines the mechanics whereby Bin Laden's message has become popular, legitimate, and one of the most dominant voices in this discourse.

The Muslim Community in North America Earle H. Waugh, Baha Abu-Laban, Regula Qureshi, 1983 This book consists of fifteen studies addressed to the relatively recent phenomenon of Muslims residing in North America, their adaptation to an often alien way of life, as well as the problem the larger North American community faces in not only accepting but also benefiting from the existence of this new group. Most of the papers were presented at a

symposium on Islam in North America, held at the University of Alberta from May 27 to 31, 1980. In this book the studies are grouped under six major headings: Islam and the Modern World, Muslims in North America: Dynamics of Growth, Muslim Immigrant Communities: Identity and Adaptation, Islam and the Educational Establishment, Indigenous Muslims, and Statements from within the Tradition. It is an excellent introduction to a subject of great interest, fraught with problems and needing further in-depth research.

Islam Tamara Sonn, 2015-10-06 Now available in a fully-revised and updated third edition, *Islam: History, Religion and Politics*, provides a comprehensive and engaging introduction to the core teachings, historical development, and contemporary public struggles of Islam. Features a new chapter on the Arab Spring and the ongoing struggles for representative governance throughout the Muslim world Includes up-to-date analysis of the civil wars in Afghanistan, Syria, Iraq, and Yemen, including the rise of terrorist groups like Boko Haram and ISIS Spans Islamic history from the life of Muhammad and the birth of Islamic ideals, through Islam's phenomenal geographical expansion and cultural development, to the creation of modern states and its role in today's global society Written by a leading scholar of Islamic studies

Taking Back Islam Michael Wolfe, Producers of Beliefnet, 2002-11-16 Islam, the least understood of the world's great religions, is balanced on a precipice between the past and the future, between fanatical fundamentalists and progressives advocating peace. Noted Islamic authority Michael Wolfe moderates 35 expert speakers, writers, and leaders, including Muhammad Ali and Karen Armstrong, the best-selling author of *A History of God and Islam*. They discuss the future of Islam, tear down false stereotypes, review the historical realities that have shaped the religion, and examine paradoxes and schisms within the faith. The book includes excerpts from Beliefnet postings. At a time when every Muslim is forced to defend his faith and Americans are curious about Islam's basic tenets, this book answers many questions at the same time that it ponders both the danger and promise of the future.

Russia's Muslim Heartlands Dominic Rubin, 2018-05-15 Moscow has the largest Muslim population of any city in Europe. In 2015, some 2 million Muslim Muscovites celebrated the opening of the continent's biggest mosque. One quarter of the Soviet population was ethnically Muslim, and today their grandchildren, living in the lands between Bukhara, Kazan and the Caucasus, once again have access to their historical traditions. But they also suffer the effects of civil war, mass migration and political instability. At the highest levels, Islam has been swept up into Russia's broader search for identity, as the old question of eastern versus western takes on new force. Dominic Rubin has spent the last three years interviewing Muslims across Russia, from Sufi shaykhs in Dagestan, new Muslim artists on the Volga and professionals in Kyrgyzstan to guest-workers commuting between Russia and Uzbekistan and Kremlin-sponsored muftis hammering out a new Russian Muslim ideology in Moscow. He discovers their family histories, their faith journeys and their hopes and fears, caught between roles as traditionalist allies in the new Eurasian Russia and as potential traitors in Moscow's war on terror. This story of Islam adapting in a paradoxical landscape, against all odds, brings alive the human reality behind the headlines.

The Global Muslim Community at a Crossroads Abdul Basit Ph.D.,2012-01-16 Tackling a subject that is as timely as it is complex, this expert work examines the turmoil inside Muslim communities, helping outsiders to understand and insiders to examine ways in which Islam can be reinterpreted for a modern world. The Global Muslim Community at a Crossroads: Understanding Religious Beliefs, Practices, and Infighting to End the Conflict is an illuminating work. Written by an eminent psychologist who was raised as a Muslim in India and now resides in the United States, it examines the core reasons for the current state of affairs in Muslim communities, explaining the psychological underpinnings of Muslim religion and practices and the reasons they can fuel violence. Drawing on the editor's exposure to Eastern and Western cultures and his longstanding interest in the study of comparative world religions, this impartial analysis takes a multidimensional approach to explaining the current plight of Muslim countries. It candidly discusses issues such as the influence of Islamic schools, the negative and positive roles of Ulema (religious scholars), a lack of critical inquiry into religious thought, Sharia, and the status of women in Islam. Finally, there are positive suggestions about a road to recovery, explaining how Muslim communities can address the interlocking problems they face while retaining the positive aspects of their beliefs.

Being Muslim Asad Tarsin,2015-07-01 A brief manual designed to help Muslims learn how to live and practice their faith. Different from theoretical treatments of Islam, this book gives readers practical and useful knowledge that can help them understand what it means to be Muslim.
